Amendment No. 1 dated December 19, 2025 to the Short Form Base Shelf Prospectus dated September 17, 2025

This short form prospectus is a base shelf prospectus. This short form base shelf prospectus dated September 17, 2025, as amended by this amendment, has been filed under legislation in each of the provinces and the territories of Canada that permits certain information about these securities to be determined after the short form prospectus dated September 17, 2025, as amended by this amendment, has become final and that permits the omission from the prospectus of that information. The legislation requires the delivery to purchasers of a prospectus supplement containing the omitted information within a specified period of time after agreeing to purchase any of these securities, except in cases where an exemption from such delivery requirements has been obtained.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise. The short form base shelf prospectus dated September 17, 2025, as amended by this amendment, constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities.

Information contained herein is subject to completion or amendment. A registration statement relating to these securities has been filed with the United States Securities and Exchange Commission (the "SEC"). These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. The prospectus shall not constitute an offer to sell or the solicitation of an offer to buy nor shall be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

The short form base shelf prospectus dated September 17, 2025 (the "**Prospectus**") of Cybin Inc. (the "**Corporation**" or "**Cybin**") is hereby amended by this Amendment No. 1 to increase the aggregate amount of Securities that may be offered from time to time under the Prospectus from \$800,000,000 to \$1,700,000,000. Capitalized terms used but not otherwise defined in this Amendment No. 1 have the meanings ascribed thereto in the Prospectus.

The Corporation is a foreign private issuer under United States securities laws and is permitted under the multijurisdictional disclosure system adopted by the United States and Canada to prepare the Prospectus in accordance with Canadian disclosure requirements. Prospective investors should be aware that such requirements are different from those of the United States. The Corporation has prepared its consolidated financial statements, included or incorporated herein by reference, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and its consolidated financial statements are subject to Canadian generally accepted auditing standards and auditor independence standards. As a result, they may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the purchase of Securities may have tax consequences that may not be fully described in the Prospectus or in any Prospectus Supplement, and should carefully review the tax discussion, if any, in the applicable Prospectus Supplement and in any event consult with a tax advisor.

An investor's ability to enforce civil liabilities under the United States federal securities laws may be affected adversely because the Corporation is incorporated in Canada, the majority of its officers and directors named in the Prospectus are not residents of the United States, and some of the Corporation's assets and all or a substantial portion of the assets of such persons are located outside of the United States. See "*Risk Factors - Enforcement of Civil Liabilities*" in the Prospectus and in this Amendment No. 1.

See "*Cautionary Note Regarding Forward-Looking Information*" and "*Risk Factors*" beginning on pages 1 and 32 of the Prospectus, respectively, and the documents incorporated or deemed to be incorporated by reference therein and the applicable Prospectus Supplement, for a discussion of certain risks that you should consider in connection with an investment in these Securities.

NEITHER THE SEC NOR ANY CANADIAN SECURITIES REGULATOR, NOR ANY STATE SECURITIES REGULATOR, HAS APPROVED OR DISAPPROVED THE SECURITIES OFFERED HEREBY OR PASSED UPON THE ACCURACY OR ADEQUACY OF THE PROSPECTUS OR DETERMINED IF THE PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

Specifically, the Prospectus is amended by deleting all references to "\$800,000,000" contained on the face page of the Prospectus and substituting "\$1,700,000,000" therefor. The first paragraph of the text on the face page of the Prospectus, as so amended, is deleted and replaced with the following:

"This short form base shelf prospectus ("**Prospectus**") relates to the offering for sale from time to time (each, an "**Offering**") by Cybin Inc. (the "**Corporation**" or "**Cybin**") during the 25-month period commencing on September 17, 2025, that this Prospectus, including any amendments thereto, remains valid, of up to \$1,700,000,000 in the aggregate of: (i) common shares ("**Common Shares**") of the Corporation; (ii) warrants ("**Warrants**") to purchase other Securities (as defined below) of the Corporation; (iii) units ("**Units**") comprised of one or more of the other Securities, (iv) senior and subordinated unsecured debt securities (collectively, "**Debt Securities**"), including debt securities convertible or exchangeable into other securities of the Corporation, and (v) subscription receipts ("**Subscription Receipts**") and together with the Common Shares, Warrants, Units and Debt Securities, collectively referred to herein as the "**Securities**"). The Securities may be offered separately or together, in amounts, at prices and on terms determined based on market conditions at the time of the sale and as set forth in an accompanying prospectus supplement ("**Prospectus Supplement**"). In addition, one or more securityholders of the Corporation (each a "**Selling Securityholder**") may also offer and sell Securities under this Prospectus. See "*Selling Securityholders*".

The Prospectus is further amended by deleting the fourth paragraph on page iii of the Prospectus, and replacing it with the following:

"In determining that the Corporation has a reasonable expectation to distribute, during the 25-month period commencing on September 17, 2025 that this Prospectus, including any amendments hereto, remains valid, up to \$1,700,000,000 in the aggregate of Securities, management of the Corporation has considered its ongoing contractual commitments amounting to (i) approximately \$60,083,262 which will be used to qualify, in the United States pursuant to prospectus supplements to the Corporation's registration statement on Form F-10, the Common Shares issuable from time to time upon the exercise of certain Common Share purchase warrants issued by the Corporation on August 4, 2023 and November 14, 2023 in connection with unit offerings of the Corporation, and (ii) approximately \$238,407,547 which will be used to qualify the periodic resale in the United States, pursuant to prospectus supplements to the Registration Statement (as defined below), by certain selling shareholders of previously issued Common Shares (collectively, the "**Commitment Amount**"). Further, on October 31, 2025, the Corporation completed a registered direct offering of 22,277,750 Common Shares (the "**Offered Shares**") and, in lieu of Common Shares to certain investors, 4,605,500 pre-funded Common Share purchase warrants (the "**Pre-Funded Warrants**") at a price of US\$6.51 per Common Share and US\$6.50999 per Pre-Funded Warrant (the "**Registered Direct Offering**"). Each Offered Share and Pre-Funded Warrant was accompanied by 0.35 of one Common Share purchase warrant (each whole warrant, an "**October Warrant**" and, together with the Offered Shares and Pre-Funded Warrants, the "**Offered Securities**"). Each October Warrant is exercisable to acquire one Common Share at a price of US\$8.14 per Common Share. The Corporation qualified the Offered Securities in the United States pursuant to a prospectus supplement dated October 28, 2025 to the Corporation's registration statement on Form F-10, as amended (File No. 333-289139) (the "**Registration Statement**"), which was initially filed with the SEC, under the U.S. Securities Act, on July 31, 2025, as amended on September 17, 2025 concurrent with the filing of this Prospectus. Approximately \$351,208,916 has been used to qualify the Offered Securities. Given the Commitment Amount and the closing of the Registered Direct Offering, as of December 19, 2025, the Corporation will have approximately \$1,050,300,275 available under the Prospectus, which management of the Corporation reasonably expects to distribute during the 25-month period commencing on September 17, 2025 that this Prospectus, including any amendments hereto, remains valid.¹

¹ This is a forward-looking statement that involves material assumptions by the Corporation. There is no certainty as to the Corporation's ability to distribute securities or to raise additional funding to support operations. See "*Risk Factors*".

In addition, management of the Corporation has considered U.S. securities laws in connection with the registration of the Common Shares underlying Warrants issued pursuant to an Offering. The registration under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**") of the Common Shares underlying Warrants initially sold to, or for the account or benefit of, U.S. persons (as defined in Regulation S Under the U.S. Securities Act) or persons in the United States pursuant to exemptions from the registration requirements of the U.S. Securities Act, permits the selling securityholders named in the U.S. prospectus supplements to the Corporation's registration statement on Form F-10 to re-sell such Common Shares without restriction under the U.S. Securities Act. In the absence of such registration, re-sales of such Common Shares would be required to comply with an exemption or exclusion from the registration requirements of the U.S. Securities Act.

The Corporation's Registration Statement was filed with the SEC concurrent with the filing of this Prospectus, for the equivalent United States dollar value of this Prospectus, being US\$1,234,209,379.99 (converted from \$1,700,000,000 at an exchange rate of US\$1.00=CAD\$1.3774, which was the daily average exchange rate reported by the Bank of Canada on December 18, 2025)."

The Prospectus is further amended by deleting the reference to "\$800,000,000" contained in the first sentence of the first paragraph under the heading "Plan of Distribution" on page 31, so that such sentence, as so amended, reads as follows:

"The Corporation and the Selling Securityholders may from time to time during the 25-month period commencing on September 17, 2025, that this Prospectus, including any amendments and supplements hereto, remains valid, offer for sale and sell up to an aggregate of \$1,700,000,000 in Securities hereunder. To the extent there are any Secondary Offerings, the aggregate amount of Securities that may be offered and sold by the Corporation hereunder shall be reduced by the aggregate amount of such Secondary Offerings."

The Prospectus is further amended by deleting the second paragraph under the section titled "Documents Incorporated by Reference" and replacing it with the following:

"The following documents of the Corporation filed with the securities commissions or similar authorities in Canada are incorporated by reference in this Prospectus:

1. annual information form of the Corporation dated June 30, 2025, for the year ended March 31, 2025 (the "**Annual Information Form**");

2. the audited consolidated financial statements of the Corporation and the notes thereto as at and for the fiscal years ended March 31, 2025 and 2024, together with the auditor's report thereon;
3. management's discussion and analysis of the Corporation for the year ended March 31, 2025;
4. the unaudited interim condensed consolidated financial statements of the Corporation and the notes thereto for the three and six months ended September 30, 2025 (the "**Interim Financial Statements**");
5. management's discussion and analysis of the Corporation for the three and six months ended September 30, 2025 (the "**Interim MD&A**");
6. material change report dated July 9, 2025, relating to the private placement completed by the Corporation on June 30, 2025, of US\$50,000,000 aggregate principal amount of unsecured convertible debentures, as amended and restated on August 12, 2025 (the "**Convertible Debentures**") issued to a single investor ("**High Trail**") pursuant to a securities purchase agreement, dated June 30, 2025, as amended on August 12, 2025 (the "**Securities Purchase Agreement**");
7. material change report dated September 3, 2025, relating to senior leadership changes;
8. material change report dated November 7, 2025, relating to the Registered Direct Offering of the Offered Securities; and
9. management information circular of the Corporation dated July 14, 2025 relating to the annual meeting of shareholders of the Corporation held on August 18, 2025."

The Prospectus is further amended by deleting the section titled "Select Recent Developments" and replacing it with the following:

"Other than as set forth below and generally in this Prospectus or the documents incorporated by reference herein, there have been no material developments in the business of the Corporation since November 12, 2025, the date of the Interim Financial Statements and Interim MD&A.

On December 18, 2025, the Corporation announced that it will voluntarily transfer its U.S. stock exchange listing to the Nasdaq Global Market ("Nasdaq") from the NYSE American. The Corporation expects that its Common Shares will cease trading on the NYSE American at market close on January 4, 2026 and commence trading on the Nasdaq at market open on January 5, 2026. Concurrent with the commencement of trading on Nasdaq, the Corporation will no longer trade under the ticker symbol "CYBN" and instead will trade under the ticker symbol "HELP". The Corporation will continue to be listed on the CBOE Canada and will also trade under the new "HELP" ticker symbol commencing on January 5, 2025."

The Prospectus is further amended by deleting the section titled "Consolidated Capitalization" and replacing it with the following:

"Other than as disclosed herein and in the documents incorporated by reference in this Prospectus, there have been no material changes to the share and loan capitalization of the Corporation since the date of the Interim Financial Statements.

The following table sets forth the consolidated capitalization of the Corporation as at December 18, 2025, the date immediately before the date of this Prospectus. This table should be read in conjunction with the Interim Financial Statements and the related notes and the Interim MD&A that are incorporated by reference in this Prospectus. On September 19, 2024, the outstanding Common Shares were consolidated on the basis of one new Common Share for every 38 existing Common Shares (the "**Consolidation**"). All figures in the table below related to securities are represented on a post-Consolidation basis.

The Prospectus is further amended by deleting the section titled "Use of Proceeds" and replacing it with the following:

"The net proceeds from any Offering of Securities and the proposed use of those proceeds will be set forth in the applicable Prospectus Supplement relating to that Offering of Securities. Notwithstanding, the Corporation's management has broad discretion in the application of proceeds of an Offering of Securities. On the basis of results obtained or for other sound business reasons, the Corporation may re-allocate funds as required. Accordingly, the Corporation's actual use of proceeds may vary significantly from any proposed use of proceeds disclosed in any applicable Prospectus Supplement. See *"Risk Factors - Risks Related to an Offering - Discretion over the Use of Proceeds"*. The Corporation will not receive any proceeds from any sale of Securities by a Selling Securityholder.

Sources and Uses of Capital

As at December 19, 2025, the Corporation had approximately US\$202,000,000 in cash. As at December 19, 2025, the Corporation anticipates that it will require approximately US\$202,000,000 to continue operations over the next 12 months, including funding towards the achievement of the next significant milestone under the Corporation's Deuterated Psilocin Program (CYB003), Deuterated Dimethyltryptamine Program (CYB004), and Phenethylamine and Tryptamine Derivatives Program (CYB005).

The Corporation may be required to reduce its general and administrative expenses if it does not have sufficient capital to meet its below stated objectives, or it may allocate its financial resources differently than listed below. The expected reduction in future expenditures, absent any capital injections, compared to the Corporation's historic expenditures would be achieved as follows: (i) a reduction in marketing activities; (ii) a reduction in workforce and/or compensation; (iii) a reduction in public relations and investor relations activities; and (iv) a reduction of planned expenses under the Deuterated Dimethyltryptamine Program and Phenethylamine Derivatives Program, which would also result in a delay of anticipated timing for completion of the next significant milestones under each of these programs.

Notes:

- (1) Please see the Interim MD&A for a description of the Corporation's programs. All milestones are subject to receipt of all necessary approvals, including the academic and scientific organizations with which the Corporation is working.
- (2) Effective April 1, 2025, the Corporation changed its presentation currency from the Canadian dollar to the United States dollar. The change in presentation currency was made to better reflect the Corporation's operations, align with the currency in which the majority of cash based expenses are denominated, and improve comparability of its financial results with other publicly traded businesses in the industry. As a result, all amounts presented under the heading "Sources and Uses of Capital" are in United States dollar unless otherwise stated.
- (3) Represents proceeds from private placements and offerings previously disclosed.
- (4) Anticipated timeline for completion is based on the calendar year. There is no assurance that these timelines will be met or that the programs will advance. Drug development involves long lead times, is very expensive and involves many variables of uncertainty. Anticipated spending and timelines regarding drug development and recruitment of patients for participation in clinical trials are dependent on various factors and are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Such statements are informed by, among other things, eligibility and exclusion criteria for the trial, design of the clinical trial, competition with other companies for clinical sites or patients, perceived risks and benefits of the prescription drug product candidate, the number, availability, location and accessibility of clinical trial sites, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Corporation's development efforts to date.
- (5) The Corporation's APPROACH trial participants (n=220) will be randomized 1:1 to receive 16 mg of CYB003 (n=110), or inactive placebo (n=110). Each arm will evaluate a two-dose regimen, with doses administered three weeks apart. The study will enroll patients suffering from moderate to severe MDD (MADRS $\geq$ 24) who are on a stable dose of antidepressant medication but are responding inadequately. The primary endpoint will be change in depressive symptoms as measured by change in MADRS from baseline at six weeks after the first dose. APPROACH is expected to enroll at approximately 45 clinical sites across the U.S. The Corporation's EMBRACE trial participants (n=330) will be randomized 1:1:1 to receive 16 mg of CYB003 (n=110), 8 mg of CYB003 (n=110), or inactive placebo (n=110). Each arm will evaluate a two-dose regimen, with doses administered three weeks apart. The study will enroll patients suffering from moderate to severe MDD (MADRS $\geq$ 24) who are on a stable dose of antidepressant medication but are responding inadequately. The primary endpoint will be change in depressive symptoms as measured by change in MADRS from baseline at six weeks after the first dose. EMBRACE is expected to enroll at approximately 60 clinical sites, with minimal site overlap with the APPROACH study. Participants (up to n=550) from APPROACH and EMBRACE will roll over into EXTEND, the Corporation's Phase 3 Pivotal study 3 trial, after the completion of the 12-week, double-blind, placebo-controlled treatment periods. During EXTEND, all participants who did not respond to treatment in the APPROACH and EMBRACE studies or who relapse during the EXTEND study will be eligible to receive an additional two doses of CYB003 (16 mg) administered three weeks apart. Participants who do not respond to these two doses or relapse again will be eligible to receive an additional single 16 mg dose of CYB003. The Corporation has engaged Worldwide Clinical Trials Inc, a full-service contract research organization with deep expertise in central nervous system drug development, to carry out the Phase 3 pivotal studies of CYB003. The Corporation cannot at this time estimate the cost of bringing CYB003 drug candidate to market as much of the associated costs depend on the outcomes of the phase III pivotal clinical trials. Further, there is no assurance that the aforementioned timelines will be met or that such studies will be completed. Anticipated timelines regarding drug development and recruitment of patients for participation in clinical trials are dependent on various factors and are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Such statements are informed by, among other things, eligibility and exclusion criteria for the trial, design of the clinical trial, competition with other companies for clinical sites or patients, perceived risks and benefits of the prescription drug product candidate, the number, availability, location and accessibility of clinical trial sites, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Corporation's development efforts to date.
- (6) Includes personnel costs, professional services, overhead expenses and general expenses to be incurred by the Corporation in the normal course of business. In addition, the Corporation intends to use a portion of these proceeds to continue funding both its Deuterated Psilocin Program and Deuterated Dimethyltryptamine Program. The allocation between and specific milestones within these programs have not yet been determined.
- (7) The Corporation will progress the Phase 3 study EMBRACE and Phase 3 study EXTEND over the next 12 months however, these studies are not anticipated to be completed within the 12 month timeframe.

For detailed information in respect of the Corporation's business objectives and milestones, and the application of proceeds from prior offerings by the Corporation, prospective purchasers of Securities should carefully consider the information described in the Annual Information Form and Interim MD&A of the Corporation, and the documents incorporated by reference herein, including the applicable Prospectus Supplement.

As at December 19, 2025, the Corporation's current financial resources, absent any capital injections, will be sufficient to meet the Corporation's short-term liquidity requirements and to fund its operations for the coming 12 months. The Corporation makes this statement based on its current cash position of approximately US\$202,000,000.

The Corporation's expectation is based on certain assumptions and risks as set forth in the section "*Cautionary Note Regarding Forward Looking Information*" and "*Risk Factors*" in this Prospectus.

The expected uses of capital represents the Corporation's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. The amounts and timing of the actual use of available capital will depend on multiple factors and there may be circumstances where, for sound business reasons, a reallocation of capital, or termination of a program objective, may be necessary in order for the Corporation to achieve its program objectives. The Corporation may also require additional funds in order to fulfill its expenditure requirements to meet existing and any new business objectives, and the Corporation expects to either issue additional securities or incur debt to do so. The material factors or assumptions used to develop the estimated amounts for the 12 months period disclosed above are included in the "*Cautionary Note Regarding Forward-Looking Information*" section above. The actual amount that the Corporation spends in connection with each of the identified uses and programs will depend on a number of factors, including those listed under "*Risk Factors*" in, or incorporated by reference in, this Prospectus.

Negative Cash Flow From Operations

Since inception, the Corporation has financed its operations primarily from the issuance of equity and interest income on funds available for investment. To date, the Corporation has raised approximately US\$537,755,000 in gross proceeds through private placement and prospectus offerings. The Corporation has experienced operating losses and cash outflows from operations since incorporation and will require ongoing financing to continue its research and development activities. As the Corporation has not yet achieved profitability. The Corporation has not earned any revenue or reached successful commercialization of any products. The Corporation's success is dependent upon the ability to finance its cash requirements to continue its activities. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Corporation as those previously obtained, or at all. To the extent that the Corporation has negative operating cash flows in future periods, it may need to deploy a portion of its existing working capital to fund such negative cash flows. The Corporation will be required to raise additional funds through the issuance of additional equity securities, through loan financing, or other means, such as through partnerships with other companies and research and development reimbursements. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Corporation as those previously obtained. See "*Risk Factors - Risks Related to an Offering - Negative Operating Cash Flow*".

The Prospectus must be read together with this amendment, any documents incorporated or deemed to be incorporated by reference therein from time to time and any supplements relating to an Offering of Securities thereunder. The statements contained in the Prospectus or in a document incorporated or deemed to be incorporated by reference therein on or subsequent to December 19, 2025, are modified or superseded for the purposes of this amendment to the extent that a statement contained in any subsequently filed document, which is also or is deemed to be incorporated by reference therein, modifies or superseded that statement.

RISK FACTORS

An investment in the Securities involves a high degree of risk and must be considered speculative due to the nature of the Corporation's business and present stage of development. Before making an investment decision, prospective purchasers of Securities should carefully consider the information described in this Prospectus and the documents incorporated by reference herein, including the applicable Prospectus Supplement. There are certain risks inherent in an investment in the Securities, including the factors described below and under the heading "*Risk Factors*" in the Annual Information Form and in the Interim MD&A, and any other risk factors described herein or in a document incorporated by reference herein, which investors should carefully consider before investing. Additional risk factors relating to a specific Offering of Securities will be described in the applicable Prospectus Supplement. Some of the factors described herein, in the documents incorporated by reference herein, and/or the applicable Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any of the risk factors described herein, in the Annual Information Form, in another document incorporated by reference herein or in the applicable Prospectus Supplement occur, it could have a material adverse effect on the business, financial condition and results of operations of the Corporation. Additional risks and uncertainties of which the Corporation currently is unaware or that are unknown or that it currently deems to be immaterial could have a material adverse effect on the Corporation's business, financial condition and results of operation. The Corporation cannot assure purchasers that it will successfully address any or all of these risks. There is no assurance that any risk management steps taken will avoid future loss due to the occurrence of the risks described herein, in the Annual Information Form, in the other documents incorporated by reference herein or in the applicable Prospectus Supplement or other unforeseen risks.

Enforcement of Civil Liabilities

Certain of the Corporation's subsidiaries and assets are located outside of Canada. Accordingly, it may be difficult for investors to enforce within Canada any judgments obtained against the Corporation, including judgments predicated upon the civil liability provisions of applicable Canadian securities laws or otherwise. Consequently, investors may be effectively prevented from pursuing remedies against the Corporation under Canadian securities laws or otherwise.

The Corporation has subsidiaries incorporated in the United States. It may not be possible for shareholders to effect service of process outside of Canada against the directors and officers of the Corporation who are not resident in Canada. In the event a judgment is obtained in a Canadian court against one or more of such persons for violations of Canadian securities laws or otherwise, it may not be possible to enforce such judgment against persons not resident in Canada. Additionally, it may be difficult for an investor, or any other person or entity, to assert Canadian securities law or other claims in original actions instituted in the United States. Courts in such jurisdiction may refuse to hear a claim based on a violation of Canadian securities laws or otherwise on the grounds that such jurisdiction is not the most appropriate forum to bring such a claim. Even if a foreign court agrees to hear a claim, it may determine that the local law, and not Canadian law, is applicable to the claim. If Canadian law is found to be applicable, the content of applicable Canadian law must be proven as a fact, which can be a time-consuming and costly process. Certain matters of procedure will also be governed by foreign law.

Most of the officers and directors named in this Prospectus are not residents of the United States, and some of the Corporation's assets and all or a substantial portion of the assets of such person are located outside of the United States.

The Corporation has been advised that, subject to certain limitations, a judgment of a United States court predicated solely upon civil liability under United States federal securities laws may be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. The Corporation has also been advised, however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws or any such state securities or "blue sky" laws.

The Corporation is filing with the SEC, concurrently with the Registration Statement, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Corporation appointed C T Corporation System as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Corporation in a United States court, arising out of or related to or concerning the offering of the Securities.

All shelf information permitted under applicable laws to be omitted from this Prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this Prospectus, except in cases where an exemption from such delivery requirements is available. Each Prospectus Supplement containing the specific terms of any Securities will be incorporated by reference into this Prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Securities to which the Prospectus Supplement pertains.

The specific terms of any Securities offered will be described in a Prospectus Supplement, including: (i) in the case of Common Shares, the number of Common Shares offered, the offering price (in the event the offering is a fixed price distribution), the manner of determining the offering price(s) (in the event the offering is a non-fixed price distribution) and any other specific terms; (ii) in the case of Warrants, the number of Warrants being offered, the offering price (in the event the offering is a fixed price distribution), the manner of determining the offering price(s) (in the event the offering is a non-fixed price distribution), the designation, number and terms of the other Securities purchasable upon exercise of the Warrants, and any procedures that will result in the adjustment of those numbers, the exercise price, the dates and periods of exercise and any other specific terms; (iii) in the case of Units, the number of Units offered, the offering price, the designation, number and terms of the other Securities comprising the Units, and any other specific terms; (iv) in the case of Debt Securities, the specific designation of the Debt Securities, whether such Debt Securities are senior or subordinate, the aggregate principal amount of the Debt Securities being offered, the currency or currency unit in which the Debt Securities may be purchased, authorized denominations, any limit on the aggregate principal amount of the Debt Securities of the series being offered, the issue and delivery date, the maturity date, the offering price (at par, at a discount or at a premium), the interest rate or method of determining the interest rate, the interest payment date(s), any conversion or exchange rights that are attached to the Debt Securities, any redemption provisions, any repayment provisions and any other specific terms; (v) in the case of Subscription Receipts, the number of Subscription Receipts being offered, the offering price (in the event the offering is a fixed price distribution), the manner of determining the offering price(s) (in the event the offering is a non-fixed price distribution), the terms, conditions and procedures for the conversion of the Subscription Receipts into other Securities, the designation, number and terms of such other Securities, and any other specific terms; and (vi) in the case of Securities to be offered and sold by Selling Securityholders, such information in respect of such Selling Securityholders as may be required under applicable securities laws. A Prospectus Supplement relating to a particular Offering of Securities may include terms pertaining to the Securities being offered thereunder that are not within the terms and parameters described in this Prospectus.

The Corporation and the Selling Securityholder(s) may sell the Securities through underwriters or dealers, directly by the Corporation or the Selling Securityholder(s) pursuant to applicable statutory exemptions, or through designated agents from time to time. See "*Plan of Distribution*". The Prospectus Supplement relating to a particular Offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Corporation or the Selling Securityholder(s) in connection with the offering and sale of the Securities, and will set forth the terms of the Offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the Offering, the method of distribution of the Securities, the initial issue price (in the event that the offering is a fixed price distribution), the net proceeds to the Corporation or the Selling Securityholder(s) and any other material terms of the plan of distribution.

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. This Prospectus may qualify an "at-the-market distribution", as defined in National Instrument 44-102 - *Shelf Distributions* ("**NI 44-102**"). If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale (including, in the case of the Corporation, but not the Selling Securityholders, sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102), at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers including sales in transactions that are deemed to be "at-the-market distributions", including sales made directly on the Cboe Canada Inc. (the "**CBOE Canada**") or other existing trading markets for the Securities, and as set forth in an accompanying Prospectus Supplement, in which case the compensation payable to an underwriter, dealer or agent in connection with any such sale will be decreased by the amount, if any, by which the aggregate price paid for the Securities by the purchasers is less than the gross proceeds paid by the underwriter, dealer or agent to the Corporation and/or the Selling Securityholder(s). The price at which the Securities will be offered and sold may vary from purchaser to purchaser and during the period of distribution. See "*Plan of Distribution*".

This Prospectus does not qualify the issuance of Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests including, for example, an equity or debt security, a statistical measure of economic or financial performance including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items. For greater certainty, this Prospectus may qualify for issuance Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to published rates of a central banking authority or one or more financial institutions, such as a prime rate or bankers' acceptance rate, or to recognized market benchmark interest rates such as the Canadian Overnight Repo Rate Average (CORRA), Secured Overnight Financing Rate (SOFR), Euro Inter-Bank Offered Rate (EURIBOR) or an alternative United States federal fund rate.

No underwriter or dealer involved in an "at-the-market distribution" under this Prospectus, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such an underwriter or dealer will over-allot securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the offered Securities or securities of the same class as the Securities distributed under the "at-the-market distribution", including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities.

In connection with any Offering of the Securities, subject to applicable laws and other than an "at-the-market distribution", the underwriters or agents may over-allot or effect transactions that stabilize or maintain the market price of the offered Securities at a level above that which might otherwise prevail on the open market. Such transactions, if commenced, may be interrupted or discontinued at any time. See "*Plan of Distribution*".

In determining that the Corporation has a reasonable expectation to distribute, during the 25-month period that this Prospectus, including any amendments hereto, remains valid, up to \$800,000,000 in the aggregate of Securities, management of the Corporation has considered its ongoing contractual commitments amounting to (i) approximately \$60,083,262 which will be used to qualify, in the United States pursuant to prospectus supplements to the Corporation's registration statement on Form F-10, the Common Shares issuable from time to time upon the exercise of certain Common Share purchase warrants issued by the Corporation on August 4, 2023 and November 14, 2023 in connection with unit offerings of the Corporation, and (ii) approximately \$265,998,942 which will be used to qualify the periodic resale in the United States, pursuant to prospectus supplements to the Registration Statement (as defined below), by certain selling shareholders of previously issued Common Shares (collectively, the "**Commitment Amount**"). Given the Commitment Amount, the Corporation will have approximately \$473,917,796 available under the Prospectus, which management of the Corporation reasonably expects to distribute during the 25-month period that this Prospectus, including any amendments hereto, remains valid.¹ In addition, management of the Corporation has considered U.S. securities laws in connection with the registration of the Common Shares underlying Warrants issued pursuant to an Offering. The registration under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**") of the Common Shares underlying Warrants initially sold to, or for the account or benefit of, U.S. persons (as defined in Regulation S Under the U.S. Securities Act) or persons in the United States pursuant to exemptions from the registration requirements of the U.S. Securities Act, permits the selling securityholders named in the U.S. prospectus supplements to the Corporation's registration statement on Form F-10 to re-sell such Common Shares without restriction under the U.S. Securities Act. In the absence of such registration, re-sales of such Common Shares would be required to comply with an exemption or exclusion from the registration requirements of the U.S. Securities Act. The Corporation has filed a registration statement on Form F-10, as amended (File No. 333-289139) (the "**Registration Statement**"), which was initially filed with the SEC, under the U.S. Securities Act, on July 31, 2025, as amended on September 17, 2025 concurrent with the filing of this Prospectus, for the equivalent United States dollar value of this Prospectus, being US\$577,700.572 (converted from \$800,000,000 at an exchange rate of US\$1.00=CAD\$1.3848, which was the daily average exchange rate reported by the Bank of Canada on September 12, 2025).

¹ This is a forward-looking statement that involves material assumptions by the Corporation. There is no certainty as to the Corporation's ability to distribute securities or to raise additional funding to support operations. See "*Risk Factors*".

For illustrative purposes only, if the Corporation were to complete an Offering for US\$150,000,000, and if the Offering was an Offering of Units with each Unit consisting of one Common Share and one Warrant, with each Warrant exercisable at 115% of the Unit purchase price, then the Offering would require a total of \$446,598,000 worth of space under this Prospectus. The following calculations are demonstrated in USD and CAD:²

Amount to Qualify a Unit Distribution	US\$150,000,000	C\$207,720,000 ⁽¹⁾
Amount to Qualify the Underlying Warrant Shares	US\$172,500,000 ⁽²⁾	C\$238,878,000
Total Base Shelf Amount Used	US\$322,500,000	C\$446,598,000

Notes:

1. Conversion to Canadian dollars completed on the basis of the Bank of Canada's daily average exchange rate on September 12, 2025 (being US\$1.00=C\$1.3848).
2. Reflects a theoretical Unit purchase price (US\$150,000,000) multiplied by 115% (representing the theoretical Warrant exercise price).

The Common Shares are listed on the CBOE Canada under the trading symbol "CYBN", and in the United States on the NYSE American LLC stock exchange (the "NYSE American") under the symbol "CYBN". On September 16, 2025, the last trading day prior to the filing of this Prospectus, the closing prices of the Common Shares listed on the CBOE Canada and the NYSE American were \$8.32 and US\$6.04 respectively.

Unless specified in the applicable Prospectus Supplement, there is no market through which the Subscription Receipts, Warrants, Units and Debt Securities may be sold and purchasers may not be able to resell the Subscription Receipts, Warrants, Units and Debt Securities purchased under this Prospectus and the Prospectus Supplement. This may affect the pricing of the Subscription Receipts, Warrants, Units and Debt Securities in the secondary market, the transparency and availability of trading prices, the liquidity of the Subscription Receipts, Warrants, Units and Debt Securities and the extent of issuer regulation. See "Risk Factors".

The Corporation is a foreign private issuer under United States securities laws and is permitted under the multijurisdictional disclosure system adopted by the United States and Canada to prepare this Prospectus in accordance with Canadian disclosure requirements. Prospective investors should be aware that such requirements are different from those of the United States. The Corporation has prepared its financial statements, included or incorporated herein by reference, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and its consolidated financial statements are subject to Canadian generally accepted auditing standards and auditor independence standards. As a result, they may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the purchase of Securities may have tax consequences that may not be fully described in this Prospectus or in any Prospectus Supplement, and should carefully review the tax discussion, if any, in the applicable Prospectus Supplement and in any event consult with a tax advisor.

An investors ability to enforce civil liabilities under the United States federal securities laws may be affected adversely because the Corporation is incorporated in Canada, the majority of its officers and directors named in this Prospectus are not residents of the United States, and some of the Corporation's assets and all or a substantial portion of the assets of such persons are located outside of the United States. See "Risk Factors - Enforcement of Civil Liabilities".

An investment in the Securities is subject to a number of risks, including those risks described in this Prospectus and documents incorporated by reference into this Prospectus. See "Risk Factors" in this Prospectus and in the Corporation's Annual Information Form and Interim MD&A (each as defined herein) incorporated by reference herein.

² This paragraph and table are strictly for illustrative purposes and are forward-looking statements that involve material assumptions by the Corporation, including the participation in any future Offering by United States investors requiring the Common Shares issuable on exercise of the Warrants to be registered under the U.S. Securities Act, the Corporation's completion of an Offering, the theoretical size of the Offering, and the Warrant exercise price. There is no certainty as to the Corporation's ability to raise additional capital or complete an Offering in the future. Further, there is no certainty that an Offering made to United States investors of Units, comprised of Common Shares and Warrants, would require a registration statement on Form F-10 qualifying the resale of the Common Shares issuable on exercise of the Warrants without restriction under the U.S. Securities Act. See "Risk Factors".

No person is authorized by the Corporation to provide any information or to make any representation other than as contained in this Prospectus in connection with the issue and sale of the Securities offered hereunder.

No underwriter has been involved in the preparation of this Prospectus or performed any review of the contents hereof.

NEITHER THE SEC NOR ANY CANADIAN SECURITIES REGULATOR, NOR ANY STATE SECURITIES REGULATOR, HAS APPROVED OR DISAPPROVED THE SECURITIES OFFERED HEREBY OR PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

Eric So, a director and officer of the Corporation, and Paul Glavine, a director and officer of the Corporation, each reside outside of Canada. They have appointed Aird & Berlis Inc., Suite 1800, 181 Bay Street, Toronto, Ontario, M5J 2T9, as agent for service of process in Ontario. Prospective purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person or company that is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or resides outside of Canada, even if the party has appointed an agent for service of process, see “*Risk Factors – Risks Related to an Offering – Enforcement of Civil Liabilities*”.

In this Prospectus, references to the "Corporation", "Cybin", "we", "us" and "our" refer to Cybin Inc. and/or, as applicable, one or more of its subsidiaries. The Corporation's registered and head office is located at 100 King Street West, Suite 5600, Toronto, Ontario M5X 1C9.

The Corporation's current business focuses on conducting research and development of psychedelic therapeutics that aim to address unmet needs in the treatment of mental health conditions. This comprehensive development work is predicated on structural modifications of known tryptamine and phenethylamine derivatives to improve their pharmacokinetic properties while maintaining their respective pharmacology. Like most pharmaceutical companies, the Corporation's business is focused on research and development, see "<i>Use of Proceeds</i>". The Canadian and United States federal governments regulate drugs through the <i>Controlled Drugs and Substances Act</i> (Canada) (the "CDSA") and the <i>Controlled Substances Act</i> (21 U.S.C. § 811) (the "CSA"), respectively, which place controlled substances in a schedule. Under the CDSA, psilocin is currently a Schedule III drug. Under the CSA, psilocin is currently a Schedule I drug. In both Canada and the United States, the applicable federal government is responsible for regulating, among other things, the approval, import, sale and marketing of drugs, including any psychedelic substances, whether natural or novel. Health Canada, and the United States Food and Drug Administration ("FDA"), have not approved psilocin as a drug for any indication. It is illegal to possess such substances without a prescription. The Corporation does not directly engage in any activities that would trigger the need to comply with any federal laws related to psychedelic substances. See "<i>Regulatory Overview - Research and Development</i>". The Corporation does not deal with psychedelic substances except in jurisdictions where such activity is not illegal and then only within laboratory and clinical trial settings conducted within approved regulatory frameworks. The Corporation currently does not handle controlled or restricted substances under the CDSA or CSA. If the Corporation were to conduct this work without reliance on third parties, it would need to obtain the required licenses, approvals and authorizations from Health Canada, the FDA or other applicable regulatory bodies. The Corporation does not have any direct or indirect involvement with illegal selling, production or distribution of any substances in jurisdictions in which it operates. The Corporation does not advocate for the legalization of psychedelic substances for recreational purposes and does not deal with psychedelic substances except within laboratory and clinical trial settings conducted within approved regulatory frameworks.

Given the early stage of its prescription drug product development, the Corporation can make no assurance that its research and development program will result in regulatory approval or commercially viable products. To achieve profitable operations, the Corporation, alone or with others, must successfully develop, gain regulatory approval for, and market its future products. The Corporation currently has no products that have been approved by Health Canada, the FDA, or any similar regulatory authority. To obtain regulatory approvals for its prescription drug product candidates being developed and to achieve commercial success, clinical trials must demonstrate that the prescription drug product candidate are safe for human use and that they demonstrate efficacy. See *"Risk Factors"* herein and *"Risk Factors"* in the Annual Information Form.

Certain statements throughout this Prospectus regarding psilocin, psilocybin, N, N-dimethyltryptamine ("DMT"), psychedelic tryptamine, tryptamine derivatives or other psychedelic compounds have not been evaluated by Health Canada, the FDA or other similar regulatory authorities, nor has the efficacy of psilocin, psilocybin, DMT, psychedelic tryptamine, tryptamine derivatives or other psychedelic compounds been confirmed by approved research. There is no assurance that psilocin, psilocybin, DMT, psychedelic tryptamine, tryptamine derivatives or other psychedelic compounds can be used to diagnose, treat, cure or prevent any disease or condition and robust scientific research and clinical trials are needed. There are multiple risk factors regarding the ability to successfully commercially scale a chemically synthesized process to obtain psilocin and other analogues, including, but not limited to, regulatory changes or other changes in law, and risks related to drug development. See *"Risk Factors"* herein and *"Risk Factors"* in the Annual Information Form.

The Corporation's operations are conducted in strict compliance with local laws where such activities are permissible and do not require any specific legal or regulatory approvals. The Corporation oversees and monitors compliance with applicable laws in each jurisdiction in which it operates. In addition to the Corporation's senior executives and the employees responsible for overseeing compliance, the Corporation has local regulatory/compliance counsel engaged in every jurisdiction in which it operates. See *"Compliance Program"*. Additionally, the Corporation has received legal opinions or advice in each jurisdiction where it currently operates regarding (a) compliance with applicable regulatory frameworks and (b) potential exposure and implications arising from applicable laws in jurisdictions where the Corporation has operations or intends to operate.

For these reasons, the Corporation may be (a) subject to heightened scrutiny by regulators, stock exchanges, clearing agencies and other authorities, (b) susceptible to regulatory changes or other changes in law, and (c) subject to risks related to drug development, among other things. There are a number of risks associated with the business of the Corporation. See *"Risk Factors"* herein and *"Risk Factors"* in the Annual Information Form.

An investment in the Securities is highly speculative and involves a high degree of risk that should be considered by potential purchasers. An investment in the Securities is suitable only for those purchasers who are willing to risk a loss of some or all of their investment and who can afford to lose some or all of their investment. A prospective purchaser should therefore review this Prospectus and the documents incorporated by reference herein in their entirety, including the Annual Information Form, and carefully consider the risk factors described under the section *"Risk Factors"* in this Prospectus, prior to investing in the Securities. See *"Cautionary Note Regarding Forward-Looking Information"* and *"Risk Factors"*.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

Certain statements contained in this Prospectus, and in certain documents incorporated by reference herein and therein, constitute "forward-looking information" and "forward-looking statements," within the meaning of applicable securities laws (collectively, "forward-looking statements"). All statements other than statements of historical fact, including, without limitation, those regarding the Corporation's future financial position, business strategy, budgets, research and development, plans and objectives of management for future operations, and any statements preceded by, followed by or that include the words "expect," "likely", "may," "will," "should," "intend," or "anticipate," "potential," "proposed," "estimate" and other similar words, including negative and grammatical variations thereof, or statements that certain events or conditions "may" or "will" happen, or by discussions of strategy, are forward-looking statements.

These statements are not historical facts but instead represent only the Corporation's expectations, estimates and projections regarding future events. These statements are not guarantees of future performance and involve assumptions, risks and uncertainties that are difficult to predict. Therefore, actual results may differ materially from what is expressed, implied or forecasted in such forward-looking statements. Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under "*Risk Factors*" in the Annual Information Form and in this Prospectus and in other documents incorporated by reference in this Prospectus. Management provides forward-looking statements because it believes they provide useful information to readers when considering their investment objectives and cautions readers that the information may not be appropriate for other purposes. Consequently, all of the forward-looking statements made in this Prospectus and in documents incorporated by reference in this Prospectus are qualified by these cautionary statements and other cautionary statements or factors contained herein and therein, and there can be no assurance that the actual results or developments will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Corporation. These forward-looking statements are made as of the date of this Prospectus and the Corporation assumes no obligation to update or revise them to reflect subsequent information, events or circumstances or otherwise, except as required by law.

The forward-looking statements in this Prospectus and in documents incorporated by reference in this Prospectus are based on numerous assumptions regarding the Corporation's present and future business strategies and the environment in which the Corporation will operate in the future, including assumptions regarding business and operating strategies, and the Corporation's ability to operate on a profitable basis.

Some of the risks which could affect future results and could cause results to differ materially from those expressed in the forward-looking statements contained herein and therein include: limited operating history; achieving publicly announced milestones; speculative nature of investment risk; early stage of the industry and product development; regulatory risks and uncertainties; risks of operating in European countries; "foreign private issuer" status under U.S. securities laws; plans for growth; limited products; limited marketing and sales capabilities; no assurance of commercial success; no profits or significant revenues; reliance on third parties for clinical development activities; risks related to third party relationships; reliance on contract manufacturers; safety and efficacy of products; clinical testing and commercializing products; completion of clinical trials; commercial grade product manufacturing; nature of regulatory approvals; market access and acceptance; unfavourable publicity or consumer perception; social media; biotechnology and pharmaceutical market competition; reliance on key executives and scientists; employee misconduct; business expansion and growth; negative results of external clinical trials or studies; product liability; enforcing contracts; product and material recalls; distribution and supply chain interruption; difficulty to forecast; promoting the brand; product viability; success of quality control systems; reliance on key inputs; liability arising from fraudulent or illegal activity; operating risk and insurance coverage; costs of operating as public company; management of growth; conflicts of interest; foreign operations; exchange rate fluctuations; cybersecurity and privacy risk; environmental regulation and risks; decriminalisation of psychedelics; forward-looking statements may prove to be inaccurate; effects of inflation; political and economic conditions; application and interpretation of tax laws; enforcement of civil liabilities; pandemics; risks related to intellectual property: trademark protection; trade secrets; patent law reform; patent litigation and intellectual property; protection of intellectual property; third-party licences; financial and accounting risks: substantial number of authorized but unissued Common Shares; dilution; negative cash flow from operating activities; additional capital requirements; lack of significant product revenue; estimates or judgments relating to critical accounting policies; inadequate internal controls; risks related to the Common Shares: market for the Common Shares; significant sales of Common Shares; volatile market price for the Common Shares; tax issues; no dividends; risks related to an Offering: an investment in the Securities is highly speculative; completion of an Offering; receipt of all regulatory and stock exchange approvals in respect of an Offering; forward-looking statements may prove to be inaccurate; potential need for additional financing; negative operating cash flow; discretion over the use of proceeds; potential dilution; trading market; significant sales of Common Shares; positive return not guaranteed; management of growth; the Common Shares are subject to market price volatility; no history of payment of cash dividends; limited operating history as a public company; risks relating to research and development objectives and milestones; and the Corporation's expectation that it will be a "passive foreign investment company".

Although the forward-looking statements contained in this Prospectus are based upon what management currently believes to be reasonable assumptions, the Corporation cannot assure prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. In particular, the Corporation has made assumptions regarding, among other things:

- substantial fluctuation of losses from quarter to quarter and year to year due to numerous external risk factors, and anticipation that the Corporation will continue to incur significant losses in the future;
- uncertainty as to the Corporation's ability to raise additional funding to support operations;
- the Corporation's ability to access additional funding;
- the fluctuation of foreign exchange rates;
- the risks associated with pandemics;
- the risks associated with the development of the Corporation's product candidates which are at early stages of development;
- reliance upon industry publications as the Corporation's primary sources for third-party industry data and forecasts;
- reliance on third parties to plan, conduct and monitor the Corporation's preclinical studies and clinical trials;
- reliance on third party contract manufacturers to deliver quality clinical and preclinical materials;
- the Corporation's product candidates may fail to demonstrate safety and efficacy to the satisfaction of regulatory authorities or may not otherwise produce positive results;
- risks related to filing investigational new drug applications to commence clinical trials and to continue clinical trials if approved;
- the risks of delays and inability to complete clinical trials due to difficulties enrolling patients;

- competition from other biotechnology and pharmaceutical companies;
- the Corporation's reliance on the capabilities and experience of the Corporation's key executives and scientists and the resulting loss of any of these individuals;
- the Corporation's ability to fully realize the benefits of acquisitions;
- the Corporation's ability to adequately protect the Corporation's intellectual property and trade secrets;
- the risk of patent-related or other litigation; and
- the risk of unforeseen changes to the laws or regulations in the United States, Canada, the United Kingdom, the Netherlands, Ireland and other jurisdictions in which the Corporation operates.

Drug development involves long lead times, is very expensive and involves many variables of uncertainty. Anticipated timelines regarding drug development and recruitment of patients for participation in clinical trials are dependent on various factors and are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Every patient treated on future studies can change those assumptions either positively (to indicate a faster timeline to new drug applications and other approvals) or negatively (to indicate a slower timeline to new drug applications and other approvals). This Prospectus and the documents incorporated by reference herein contain certain forward-looking statements regarding anticipated or possible drug development timelines. Such statements are informed by, among other things, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Corporation's development efforts to date.

In addition to the factors set out above and those identified under the heading "*Risk Factors*" in the Annual Information Form and in this Prospectus, other factors not currently viewed as material could cause actual results to differ materially from those described in the forward-looking statements. Although the Corporation has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be anticipated, estimated or intended. Accordingly, readers should not place any undue reliance on forward-looking statements.

Many of these factors are beyond the Corporation's ability to control or predict. These factors are not intended to represent a complete list of the general or specific factors that may affect the Corporation. The Corporation may note additional factors elsewhere in this Prospectus and in any documents incorporated by reference into this Prospectus. All forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Corporation, or persons acting on the Corporation's behalf, are expressly qualified in their entirety by the cautionary statements. Except as required by law, the Corporation undertakes no obligation to update any forward-looking statement.

Summary of the Business

The Corporation is a clinical-stage breakthrough neuropsychiatry company on a mission to create safe and effective next-generation therapeutics to address the unmet need for new and innovative treatment options for people who suffer from mental health conditions. The Corporation's goal of revolutionizing mental healthcare is supported by a network of world-class partners and internationally recognized scientists aimed at progressing proprietary drug discovery platforms, innovative drug delivery systems, and novel formulation approaches and treatment regimens.³

The Corporation's research and development work focuses on a three-pillar strategy that leverages the Corporation's core competencies in preclinical innovation and clinical development. This strategy supports the creation of intellectual property ("IP") focused on developing the Corporation's platform technology, the progression of clinical development programs including CYB003, a deuterated psilocin molecule, CYB004, a deuterated version of DMT, phenethylamine derivatives, CYB005, phenethylamine derivatives, and an expansive list of preclinical molecules to facilitate future drug development opportunities.

On October 23, 2023, the Corporation completed a statutory plan of arrangement under the provisions of the *Business Corporations Act* (British Columbia) (the "**Arrangement**"), pursuant to which Small Pharma Inc. ("**Small Pharma**") became a wholly-owned subsidiary of the Corporation. Small Pharma was a biotechnology company focused on developing short-duration therapies for the treatment of mental health conditions. Small Pharma initiated programs across its "First-generation" and "Second-generation" psychedelics portfolio. First-generation psychedelics refer to the well-known classic psychedelics which includes psilocybin, DMT, and Lysergic acid diethylamide. Second-generation psychedelics refer to those that have been chemically modified with the aim to optimize their therapeutic benefit. On April 1, 2024, pursuant to the provisions of the *Business Corporations Act* (Ontario), Small Pharma completed a horizontal amalgamation with Cybin Corp., with Cybin Corp. being the resulting entity. As a result of this amalgamation, Cybin UK Ltd is now a wholly-owned subsidiary of Cybin Corp.

With a common goal to create novel, optimized psychedelic-based therapeutics, the combination of the Corporation and Small Pharma creates a leading international, clinical-stage company with potential to transform the treatment paradigm for mental health conditions. The companies' combined development portfolios are highly complementary and provide multiple opportunities to create operational and cost synergies.

As a result of the acquisition of Small Pharma by way of the Arrangement, Cybin currently has over 90 granted patents and over 230 pending applications.

Advancement of Mental Healthcare

The Corporation is conducting research and development of next-generation neuropsychiatry therapeutics that aim to address unmet needs in the treatment of mental health conditions. This comprehensive development work is predicated on structural modifications of known tryptamine and phenethylamine derivatives to improve their pharmacokinetic properties while maintaining their respective pharmacology. Across its extensive research and development programs, the Corporation is evaluating a wide array of novel, synthetic psychedelic active pharmaceutical ingredients intended to be delivered through innovative drug delivery systems including via inhalation, via intravenous ("IV"), and intramuscular, or subcutaneous administration.⁴

³ This is a forward-looking statement that involves material assumptions by the Corporation. Drug development involves long lead times, is very expensive and involves many variables of uncertainty. Anticipated timelines regarding drug development and recruitment of patients for participation in clinical trials are dependent on various factors and are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Such statements are informed by, among other things, eligibility and exclusion criteria for the trial, design of the clinical trial, competition with other companies for clinical sites or patients, perceived risks and benefits of the prescription drug product candidate, the number, availability, location and accessibility of clinical trial sites, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Corporation's development efforts to date.

⁴ See footnote 1.

The Corporation intends to apply for regulatory approval for therapies targeting indications such as major depressive disorder, alcohol use disorder, generalized anxiety disorder and potentially other various mental health conditions.⁵ The Corporation is also developing compounds that may have the potential to address neuroinflammation, central nervous system disorders, and psychiatric disorders.⁶

Further, over the next 12-month period, the Corporation will continue to seek to establish strategic partnerships that advance the Corporation's scientific research and IP for new psychedelic-based compounds and novel delivery mechanisms.⁷ The Corporation will also continue to sponsor select internal and partner-related clinical trials that advance the understanding of safety and efficacy for various psychedelic agents that target mental health conditions.⁸

The Corporation has determined that its business and the advancement of its research and development activities, including clinical development programs, are not substantially dependent on any single agreement that has not otherwise been disclosed as a material contract. This assessment reflects the Corporation's current stage of development, operational structure, and the status of its clinical trials. In the event that the Corporation's relationship with a third-party strategic partner is terminated, the Corporation would seek to engage a new partner to continue advancing its clinical development programs. The Corporation currently has over 20 clinical sites supporting its CYB003 program and is aware of other strategic partners capable of providing similar support. While the replacement of a strategic partner may affect projected timelines and costs, the Corporation does not consider this a material risk to the progression of its clinical development programs. Accordingly, the Corporation does not consider all its third-party strategic partner agreements to be currently material. The Corporation will continue to assess the materiality of these agreements on an ongoing basis as circumstances warrant.

For additional information in respect of the Corporation and its operations, please see the Annual Information Form and the Interim MD&A incorporated by reference into this Prospectus.

Select Recent Developments

Other than as set forth below and generally in this Prospectus or the documents incorporated by reference herein, there have been no material developments in the business of the Corporation since August 13, 2025, the date of the Interim Financial Statements and Interim MD&A.

On August 26, 2025, the Corporation announced that it has received approval in Australia to conduct the EMBRACE study. EMBRACE is the second pivotal study in PARADIGM, the Corporation’s Phase 3 multinational program evaluating CYB003, its proprietary deuterated psilocin analog. The Corporation has received approval through the Clinical Trial Notification scheme, obtained clearance form multiple Ethics Committees of the Australian Therapeutics Goods Administration, and the study site Research Governance Offices, thus allowing the commencements of the EMBRACE study.

On September 2, 2025, the Corporation announced that, effective September 2, 2025, Douglas Drysdale has stepped down as the Corporation’s Chief Executive Officer. The Corporation’s co-founder and President, Eric So, has been appointed as Interim Chief Executive Officer by the Board of Directors.

On September 8, 2025, the Corporation announced completion of enrollment in its Phase 2 study evaluating CYB004, a proprietary DMT program, for the treatment of Generalized Anxiety Disorder and reaffirms top line data guidance expected in the first quarter of 2026.⁹ See "*Use of Proceeds*".

⁹ There is no assurance that this timeline will be met. See footnote 3.

REGULATORY OVERVIEW

A summary of the applicable regulatory framework for the Corporation's various business segments and proposed business activity are set forth below.

Canada

In Canada, oversight of healthcare is divided between the federal and provincial governments. The federal government is responsible for regulating, among other things, the approval, import, sale, and marketing of drugs such as psilocybin and other psychedelic substances, whether natural or novel. The provincial/territorial level of government has authority over the delivery of health care services, including regulating health facilities, administering health insurance plans such as the Ontario Health Insurance Plan, distributing prescription drugs within the province, and regulating health professionals such as doctors, psychologists, psychotherapists and nurse practitioners. Regulation is generally overseen by various colleges formed for that purpose, such as the College of Physicians and Surgeons of Ontario.

Certain psychoactive compounds, such as psilocin, are considered controlled substances under Schedule III of the CDSA. In order to conduct any scientific research, including preclinical and clinical trials, using psychoactive compounds listed as controlled substances under the CDSA, an exemption under Section 56 of the CDSA (a "**Section 56 Exemption**") is required.

Health Canada has not approved psilocin as a drug for any indication. However, there are legal routes through which psilocin may be accessed for medical or scientific purposes. The Canadian Minister of Health can grant Section 56 Exemptions if it is deemed to be necessary for a medical or scientific purpose or is otherwise in the public interest. The Corporation has not applied for a Section 56 Exemption from Health Canada.

Health Canada's Special Access Program ("**SAP**") was designed to provide Canadians to access certain restricted drugs before they are formally approved for use in Canada. In January 2022, certain amendments to the SAP came into force to permit medical practitioners treating patients with serious or life-threatening conditions to request access to restricted drugs that have not yet been approved for sale in Canada when conventional therapies have failed, are unsuitable, or unavailable in Canada. Such amendments create a means of legally accessing psilocin through the SAP. The Corporation has not applied for access under the SAP.

The possession, sale or distribution of controlled substances is prohibited unless specifically permitted by the government. A party may seek government approval for a Section 56 Exemption to allow for the possession, transport or production of a controlled substance for medical or scientific purposes. Products that contain a controlled substance such as psilocin cannot be made, transported or sold without proper authorization from the government. A party can apply for a Dealer's Licence under the Food and Drug Regulations (Part J). In order to qualify as a licensed dealer, a party must meet all regulatory requirements mandated by the regulations including having compliant facilities, compliant materials and staff that meet the qualifications under the regulations of a senior person in charge and a qualified person in charge. Assuming compliance with all relevant laws (CDSA, Food and Drugs Regulations) and subject to any restrictions placed on the licence by Health Canada, an entity with a Dealer's Licence may produce, assemble, sell, provide, transport, send, deliver, import or export a restricted drug (as listed in Part J in the Food and Drugs Regulations - which includes psilocybin and psilocin) (see s. J.01.009 (1) of the Food and Drug Regulations).

The Corporation intends to sponsor and work with licensed third parties to conduct any clinical trials and research and does not handle controlled substances. If the Corporation were to conduct this work without the reliance on third parties, it would need to obtain additional licenses and approvals described above.

Please see "*Description of the Business - Research and Development*" in the Annual Information Form for additional information concerning the regulation applicable to the process required before prescription drug product candidates may be marketed in Canada.

United States

The FDA and other federal, state, local and foreign regulatory agencies impose substantial requirements upon the clinical development, clinical testing, approval, labeling, manufacture, marketing and distribution of drug products. These agencies regulate, among other things, research and development activities and the testing, approval, manufacture, quality control, safety, effectiveness, labeling, storage, record keeping, advertising and promotion of any prescription drug product candidates or commercial products. The regulatory approval process is generally lengthy and expensive, with no guarantee of a positive result. Moreover, failure to comply with applicable FDA or other requirements may result in civil or criminal penalties, recall or seizure of products, injunctive relief including partial or total suspension of production, or withdrawal of a product from the market. Anticipated timelines related to regulatory filings are based on reasonable assumptions informed by current knowledge and information available to the Corporation.

Psilocybin, psilocin, DMT, and 5-Methoxy-DMT are strictly controlled under the federal CSA as Schedule I substances. Schedule I substances by definition have no currently accepted medical use in the United States, a lack of accepted safety for use under medical supervision, and a high potential for abuse. Schedule I and II drugs are subject to the strictest controls under the CSA, including manufacturing and procurement quotas, security requirements and criteria for importation. Anyone wishing to conduct research on substances listed in Schedule I under the CSA must register with the United States Drug Enforcement Administration ("**DEA**") and obtain DEA approval of the research proposal. A majority of state laws in the United States also classify psilocybin and psilocin as Schedule I controlled substances. For any product containing psilocin or any Schedule I substance to be available for commercial marketing in the United States, such substance must be rescheduled, or the product itself must be scheduled, by the DEA to Schedule II, III, IV or V. Scheduling determinations by the DEA are dependent on FDA approval of a substance or a specific formulation of a substance.

See "*Description of the Business - Research and Development*" in the Annual Information Form for additional information concerning the regulation applicable to the process required before prescription drug product candidates may be marketed in the United States.

Europe (Netherlands)

The International Narcotics Control Board ("**INCB**"), a United Nations ("**UN**") entity, monitors enforcement of restrictions on controlled substances. The INCB's authority is defined by three international UN treaties - the UN Single Convention on Narcotic Drugs of 1961, the UN Psychotropic Convention of 1971 (referred to herein as the UN71), and the UN Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, which contains provisions related to the control of controlled substance precursors. EU Member States, including the Netherlands, that have agreed to abide by the provisions of these treaties, each create responsible agencies and enact laws or regulations to implement the requirements of these conventions.

Specific EU legislation establishing different classes of controlled substances is limited to EU regulations that define classes of precursors, or substances used in the illicit manufacture of controlled substances, including Regulation (EC) No. 273/2004 of the European Parliament and the Council of February 11, 2004 and the Council Regulation (EC) No. 111/2005 of December 22, 2004. While EU legislation does not establish different classes of narcotic drugs or psychotropic substances, the Council Decision 2005/387/JHA of May 10, 2005 (which applies only in certain limited situations)¹⁰ can provoke a Council Decision requiring EU member states to put a drug under national controls equivalent to those of the INCB. DMT is currently classified as a Schedule I substance under the UN71; the EU member states that are party to the UN71, including the Netherlands, have agreed to the following in respect of Schedule I substances:

¹⁰ Decision 2005/387/JHA was repealed (by Directive (EU) 2017/2103 of the European Parliament and of the Council of November 15, 2017 amending Council Framework Decision 2004/757/JHA in order to include new psychoactive substances in the definition of 'drug' and repealing Council Decision 2005/387/JHA), but still continues to apply to new psychoactive substances in respect of which a Joint Report (as referred to in Article 5 of that Decision) has been submitted before November 23, 2018.

- prohibit all use except for scientific and very limited medical purposes by duly authorized persons, in medical or scientific establishments which are directly under the control of their Governments or specifically approved by them;
- require that manufacture, trade, distribution and possession be under a special licence or prior authorization;
- provide for close supervision of the activities and acts mentioned in paragraphs (a) and (b);
- restrict the amount supplied to a duly authorized person to the quantity required for his authorized purpose;
- require that persons performing medical or scientific functions keep records concerning the acquisition of the substances and the details of their use, such records to be preserved for at least two years after the last use recorded therein; and
- prohibit export and import except when both the exporter and importer are the competent authorities or agencies of the exporting and importing country or region, respectively, or other persons or enterprises which are specifically authorized by the competent authorities of their country or region for the purpose.

As classification of controlled substances may vary among different EU member states, sponsors must be aware of the prevailing legislation in each country where a clinical trial may be conducted. Prior to operating or conducting any preclinical or clinical studies in any other EU member state, Cybin will investigate the specific regulatory requirements of such EU member state. As referenced above, a licence is required for individuals and entities who wish to produce, dispense, import, or export Schedule I substances (including DMT), but the specific requirements vary from country to country. Currently, DMT is classified in the Netherlands as a List 1 Drug under the Dutch Opium Act (Opiumwet) (the "**Dutch Opium Act**") and as such, subject to express authorization being obtained, the production, trade and possession of DMT are prohibited.

In addition to the Dutch Opium Act, two other Dutch Acts may be relevant when it comes to drugs: the Medicines Act and the Commodities Act.

The specific regulatory processes and approvals required may vary among different EU member states and are set forth in the respective legislation of each country. For the Netherlands, there are specific regulatory requirements for the approval of clinical trials that need to be met. Firstly, a CTA dossier containing the preclinical and any clinical information along with the proposed clinical trial design must be submitted to an accredited Ethics Committee and to the Central Commission on Research in Humans (the "**CCMO**"), which is also known as the Competent Authority in The Netherlands. In Dutch, the CCMO is called the 'Centrale Commissie Mensgebonden Onderzoek'. In cases where the study involves a substance subject to the Dutch Opium Act (such as DMT), an official exemption by Farmatec is needed, which needs to be included in the CTA.

Specific rules for the submission, assessment and conduct of clinical trials with medicinal products are set out in, among others, the EU Clinical Trial Regulation 536/2014 (CTR), which is applicable in the EU as of January 31, 2022 and the Medical Research (Human Subjects) Act (Wet medisch-wetenschappelijk onderzoek met mensen).

On April 26, 2023, the European Commission introduced a comprehensive "pharmaceutical package" aimed at revising the EU's pharmaceutical legislation. This package includes proposals for a new directive and regulation designed to enhance the availability, accessibility, and affordability of medicines. Additionally, it seeks to boost the competitiveness and attractiveness of the EU pharmaceutical industry while imposing higher environmental standards. The European Parliament has recently looked at these proposals to renovate the EU pharmaceutical legislation, and a newly elected Parliament will take up the proposal following the European elections of June 6-9, 2024.

Ireland

In Ireland, psilocin is a controlled substance under the Misuse of Drugs Act, 1977, 1984 and 2015 (the "**Ireland MDA**"), the Misuse of Drugs Regulations 2017 (the "**Ireland MDR**") and the Criminal Justice (Psychoactive Substances) Act 2010 (the "**2010 Act**"). These are the primary legislative instruments which govern controlled substances in Ireland. This legislation regulates the use, possession, supply, licensing, and administration of listed scheduled substances and establishes the offences and penalties for infringement of the legislation.

Any substance, product or preparation (whether natural or otherwise) including a fungus of any kind or description, which contains psilocin, or an ester of psilocin, is classed as a Schedule 1 controlled substance under the Ireland MDA and the Ireland MDR. Accordingly, psilocin is subject to the strict regime of control that applies.

As a Schedule 1 controlled substance under the Ireland MDA, unlawful manufacturing, production, preparation, importation, exportation, supply, or distribution of psilocin carries onerous obligations and harsh punishments for contravention; this includes prohibition orders, closure orders, fines and/or terms of imprisonment of up to 14 years. The Gardaí and Customs officials are granted powers to search persons, vehicles, premises and postal packages suspected of possessing/containing a Schedule 1 controlled substance and/or a psychoactive substance for human consumption.

Pursuant to the Ireland MDA, in certain circumstances, the Minister for Health "may grant licences or issue permits or authorizations for any of the purposes of this Act, attach conditions to any such licence, permit or authorization, vary such conditions and revoke any such licence, permit or authorization". Where licences are granted, there are very strict conditions imposed on licence holders. For example, strict conditions can be placed regarding the security, storage and documenting controlled substances. Further, the 2010 Act permits the Minister to make an order declaring that the Act shall not apply in relation to any "*substance, product, preparation, plant, fungus or natural organism*" as specified in the order.

The Corporation does not currently engage in any activities in Ireland that are regulated by such laws. If the Corporation were to engage in such activities, it would need to obtain the appropriate licences and authorization to do so. The Corporation intends to constantly review its Irish operations to ensure compliance with all applicable laws as the operations evolve.

The Irish Government's Legislative Programme for Summer 2025 does not contain any proposed amendments to the above-mentioned legislation which currently govern controlled substances.

United Kingdom

In the UK, there are two main "layers" of regulation with which products containing controlled substances must comply. These are: (i) controlled drugs legislation, which applies to all products irrespective of the type of product, and (ii) the regulatory frameworks applicable to a specific category of products, in this case, pharmaceuticals and food/food supplements.

The main UK controlled drugs legislation is the Misuse of Drugs Act 1971 (the "**MDA**") and the Misuse of Drugs Regulations 2001 (the "**MDR**"), each as amended. The MDA sets out the penalties for unlawful production, possession and supply of controlled drugs based on three classes of risk (A, B and C). The MDR sets out the permitted uses of controlled drugs based on which Schedule (1 to 5) they fall within.

In the United Kingdom, "Fungus (of any kind) which contains psilocin or an ester of psilocin" is controlled as a Class A drug under the MDA and Schedule 1 drug under the MDR.

In the United Kingdom, Class A drugs are deemed to be the most dangerous, and so carry the harshest punishments for unlawful manufacture, production, possession and supply. Schedule 1 drugs can only be lawfully manufactured, produced, possessed and supplied under a controlled drugs domestic licence, which specifies the specific activities to which it relates together with any applicable conditions, issued by the UK Home Office. While exemptions do exist, none are applicable to the API. DMT is also considered a Class A drug under the MDA and as a Schedule I drug under the MDR.

The Corporation previously mentioned that it intended to file a clinical trial application with the U.K. Medical and Healthcare Products Regulatory Agency ("MHRA") related to the Deuterated Psilocybin Analog Program upon completion of its pre-clinical studies and CMC development. The Corporation has since decided that it will first proceed in the U.S. and will reevaluate other applications at a later date. Anticipated timelines related to regulatory filings are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Small Pharma has a controlled drug licence in respect of the offices at 50 Featherstone St, which was issued on June 6, 2024 and expired on June 5, 2025. An application for 2025 renewal has been made in good time prior to expiration. Although the new certificate has not yet been issued for 2025-2026, the Home Office has advised that the Corporation may continue to handle controlled drugs on the same terms and subject to the same conditions of the 2024-2025 licence.

Licensing Requirements

The Corporation obtains CYB003 API from a pharmaceutical ingredient provider who is FDA-registered and based in the United States. The API itself has been manufactured and packaged in FDA-registered facilities in the United States. The API is expected to be sent directly to the Corporation's partners for research and development purposes in the United States, Canada and the United Kingdom and to its clinical trial site in the U.S. As a part of the Corporation's acquisition of a Phase 1 DMT study from Entheon Biomedical Corp. in July 2022 (the "**Asset Acquisition**"), the Corporation also acquired API. The CYB004-E API was manufactured in the Netherlands by a pharmaceutical ingredient provider that is United States FDA-inspected.¹¹

As mentioned above, in order to produce, possess and supply the API at a UK-based facility, the facility must also hold a domestic licence issued by the Home Office covering the manufacture, production, possession and supply of a controlled substance. For export of the API to the United States, an export licence is required for each API shipment. The export application must include details of the importer and any import licence required by the local authorities in the United States. Moreover, as set out below in more detail under the heading "Pharmaceutical Products", depending on how the API is developed and supplied, certain authorizations and licenses from the MHRA may be required to authorize some of the activities carried on at the UK-based facilities in relation to the API.

All premises that are Home Office licensed, or are intending to be licensed, in connection with the possession, and/or supply and/or production of controlled drugs should consider certain security measures.¹²

Typically, when controlled drugs are being transported between licensees, responsibility for their security remains with the owner and does not transfer to either the courier or the customer until the drugs arrive at their destination and are signed for. However, where a third party is involved in the transit and/or storage of controlled drugs, even if they are not the legal owners, this party also carries responsibility for their security by virtue of being 'in possession' of them. The MDA requires that every person in possession of controlled drugs holds an appropriate Home Office Licence and under the Home Office guidance, each organization involved in the movement of controlled drugs should have a standard operating procedure covering their responsibilities, record keeping, reconciliation and reporting of thefts/losses.¹³

Small Pharma holds the appropriate UK Home Office licence required to sponsor clinical trials using Schedule I compounds.

¹¹ As a result of the Asset Acquisition, including the existing API, the Corporation did not direct the manufacturing of the API for CYB004-E and proceeded in reliance upon the representations of Entheon Biomedical Corp. and the Corporation's acquisition diligence. While the Corporation believes the CYB004-E API meets all required specifications, the Corporation did not oversee or direct the manufacture of the DMT API being used in CYB004-E.

Pharmaceutical Products

A product is regulated as a "medicinal product" under UK legislation (the Human Medicines Regulations 2012, as amended) if (i) it is a substance or combination of substances presented as having properties of preventing or treating disease in human beings (e.g., in marketing claims) or (ii) it is a substance or combination of substances that may be used by or administered to human beings with a view to (a) restoring, correcting or modifying a physiological function by exerting a pharmacological, immunological or metabolic action, or (b) making a medical diagnosis.

In respect of psilocybin/psilocin and DMT, whether a specific product restores, corrects or modifies a physiological function by exerting a pharmacological, immunological or metabolic action will depend on factors such as the concentration of the psilocybin/psilocin or DMT (as applicable) and the mode of action of any psilocybin/psilocin or DMT (as applicable) absorbed in the body. This requires scientific analysis.

If a product is a medicinal product, the Human Medicines Regulations 2012 require that a marketing authorization for the product granted by the UK Licensing Authority should be in place before the product is placed on the market in the UK (other, more limited, licensing options are available, such as a conditional marketing authorization), unless the product falls within one of the specified exemptions, such as supply in response to an unsolicited request from a healthcare professional to meet the special clinical needs of a particular patient under his/her care. Following the UK's exit from the EU and the end of the transitional period, up to (and including) December 31, 2024, there were separate licensing routes and licences for products supplied: (i) in Great Britain only; (ii) in Northern Ireland only; and (iii) across the UK. From January 1, 2025, the UK Licensing Authority now licenses products across the whole of the UK through UK-wide licenses, removing the separate licensing routes for Great Britain and Northern Ireland for many medicinal products. The process for obtaining a standard marketing authorization generally involves submitting preclinical and clinical data as well as quality and manufacturing information in the form of a common technical document to the MHRA. In addition to a marketing authorization for the product itself, companies carrying out activities involving medicinal products, such as manufacturing, distribution and wholesaling, need to meet defined standards (GMP) and/or Good Distribution Practice ("**GDP**") and to hold a related licence from the MHRA.

How the API is subsequently processed will determine the licences (in addition to any applicable Home Office licenses as referred to above) that the UK-based facility must hold. In particular:

- if the API is just one 'ingredient' (i.e. active substance) of the investigational medicinal product (the "**IMP**") which is used in the clinical trial then the UK-based facility must apply to be registered with the MHRA and provide the MHRA with 60 days' notice of the intended start of manufacture, import or distribution of the API, and comply with GMP and GDP for active substances; furthermore, an MHRA inspection may be required; and
- conversely, if the API will itself constitute the IMP, the manufacturer must, except in certain limited circumstances, hold a Manufacturer's Authorizations for IMPs licence ("**MIA(IMP)**") granted by the MHRA. In this scenario, assuming the IMP is manufactured or assembled in the UK, an MIA(IMP) would be required regardless of whether the IMP is for use in clinical trials in the UK, an EEA Member State or a third country (such as the United States or Canada). GMP, GDP and inspection requirements will apply.

Some products fall on the borderline between medicines and other categories of regulated products such as medical devices, cosmetics or food supplements. The regulatory status of the product will be determined by (i) the actual effect of the product on the body; and (ii) any claims made about the effect of the product. Where a product is potentially both a medicinal product and another category of product, the legal position in the UK and EU is that it will be regulated as a medicinal product.

Research and Development

The Corporation is focused on development of psychedelic medicines and other products, through research and development of novel chemical compounds and delivery mechanisms and study of such compounds in clinical environments around the world. The Corporation anticipates growing its pipeline of psychedelic pharmaceutical products inspired medicines through its internal research, development, proprietary discovery programs, mergers and acquisitions, joint ventures and collaborative development agreements. The Corporation continues to assess and explore a range of strategic opportunities, including potential mergers and acquisitions, joint ventures and collaborative development agreements, consistent with its growth strategy. At this time, the Corporation has not entered into any definitive agreements or arrangements in respect of such opportunities, nor is it engaged in any meaningful negotiations that would require disclosure in this Prospectus. For the time being, the Corporation maintains intellectual property generated by its R&D programs through patent filings and as trade secrets. The Corporation anticipates that as these programs mature more patent applications will be filed and more details about these programs will be disclosed at such time.

Psychedelics are a class of drug whose primary action is to trigger psychedelic experiences by way of serotonin receptor agonism, causing thought, visual and auditory changes, and altered state of consciousness. Major psychedelic drugs include mescaline, LSD, psilocin, and DMT. Psilocybin is a naturally occurring psychedelic prodrug compound produced by more than 200 species of mushrooms, collectively known as psilocybin mushrooms. The most potent are members of the genus *Psilocybe*, such as *P. azurescens*, *P. semilanceata*, and *P. cyanescens*, but psilocybin has also been isolated from about a dozen other genera. As a prodrug, psilocybin is quickly converted by the body to psilocin, which has mind-altering effects.

The pharmacokinetics, pharmacology and human metabolism of psilocin are well known and well characterized. In conjunction with psychotherapy, psilocin has been utilized broadly in phase II clinical trials.

Psilocybin found in certain species of mushrooms is a non-habit forming naturally occurring psychedelic compound. Once ingested, psilocybin is rapidly metabolized to psilocin, which then acts on serotonin receptors in the brain.

The Corporation has commenced research and development on the delivery of synthetic psilocin and other psychedelics through mechanisms such as sublingual film delivery, IV, and by way of inhalation.

Research and development is led by the Corporation's North American Chief Scientific Officer, Alex Nivorozhkin Ph.D., a seasoned medicinal chemist, drug delivery expert and founder of multiple biotech companies.

The Corporation's research and development must be conducted in strict compliance with the regulations of federal, state, local and regulatory agencies in Canada, the United States and the UK, and the equivalent regulatory agencies in the other jurisdictions in which the Corporation operates. These regulatory authorities regulate, among other things, the research, manufacture, promotion and distribution of drugs in specific jurisdictions under applicable laws and regulations.

Canada

The process required before a prescription drug product candidate may be marketed in Canada generally involves:

- *Chemical and Biological Research* - Laboratory tests are carried out on tissue cultures and with a variety of small animals to determine the effects of the drug. If the results are promising, the manufacturer will proceed to the next step of development.
- *Pre-Clinical Development* - Animals are given the drug in varying amounts over differing periods of time. If it can be shown that the drug causes no serious or unexpected harm at the doses required to have an effect, the manufacturer will proceed to clinical trials.
- *Clinical Trials - Phase I* - The first administration in humans is to test if people can tolerate the drug. If this testing is to take place in Canada, the manufacturer must prepare a clinical trial application for the Therapeutic Products Directorate of Health Canada (the "**TPD**"). This includes the results of the first two steps and a proposal for testing in humans. If the information is sufficient, the Health Products and Food Branch of Health Canada (the "**HPFB**") grants permission to start testing the drug, generally first on healthy volunteers.
- *Clinical Trials - Phase II* - Phase II trials are carried out on people with the target condition, who are usually otherwise healthy, with no other medical condition. Trials carried out in Canada must be approved by the TPD. In phase II, the objective of the trials is to continue to gather information on the safety of the drug and begin to determine its effectiveness.

- *Clinical Trials - Phase III* - If the results from phase II show promise, the manufacturer provides an updated clinical trial application to the TPD for phase III trials. The objectives of phase III include determining whether the drug can be shown to be effective, and have an acceptable side effect profile, in people who better represent the general population. Further information will also be obtained on how the drug should be used, the optimal dosage regimen and the possible side effects.
- *New Drug Submission* - If the results from phase III continue to be favourable, the drug manufacturer can submit a new drug submission ("**NDS**") to the TPD. A drug manufacturer can submit an NDS regardless of whether the clinical trials were carried out in Canada. The TPD reviews all the information gathered during the development of the drug and assesses the risks and benefits of the drug. If it is judged that, for a specific patient population and specific conditions of use, the benefits of the drug outweigh the known risks, the HPFB will approve the drug by issuing a notice of compliance.

United States

Because psilocybin, psilocin, DMT, and 5-Methoxy-DMT are listed as Schedule I substances under the CSA, for any product containing psilocin or any Schedule I substance to be available for commercial marketing in the United States, such substance must be rescheduled, or the product itself must be scheduled, by the DEA to Schedule II, III, IV or V.

The process required before a prescription drug product candidate may be marketed in the United States generally involves:

- completion of extensive nonclinical laboratory tests, animal studies and formulation studies, all performed in accordance with the FDA's GLP, Good Clinical and/or GMP regulations;
- submission to the FDA of an IND Application, which the FDA must approve before human clinical trials may begin;
- approval by an independent institutional review board ("**IRB**") or independent ethics committee at each clinical trial site before each trial may be initiated;
- for nearly all new pharmaceutical products, performance of adequate and well-controlled human clinical trials in accordance with the FDA's regulations, including Good Clinical Practices, to establish the safety and efficacy of the prescription drug product candidate for each proposed indication;
- submission to the FDA of a New Drug Application ("**NDA**");
- satisfactory completion of one or more FDA pre-approval inspections of the manufacturing facility or facilities where the drug will be produced to assess compliance with cGMP requirements to assure that the facilities, methods and controls are adequate to preserve the drug's identity, strength, quality, and purity; and
- FDA review and approval of the NDA prior to any commercial marketing, sale or shipment of the drug.

The testing and approval process requires substantial time, effort and financial resources, and the Corporation cannot be certain that the DEA will schedule or reschedule any Schedule I substance or product candidate to Schedule II, III, IV or V, or that approvals for its prescription drug product candidates will be granted on a timely basis, if at all.

Non-clinical tests include laboratory evaluations of product chemistry, formulation and stability, as well as studies to evaluate toxicity in animals and other animal studies or through FDA-accepted alternative methods (New Approach Methodologies or NAMs). The results of non-clinical tests, together with manufacturing information and analytical data, are submitted as part of an IND to the FDA. Some nonclinical testing may continue even after an IND is submitted. The IND also includes one or more protocols for the initial clinical trial or trials and an investigator's brochure. An IND automatically becomes effective 30 days after receipt by the FDA, unless the FDA, within the 30-day time period, raises concerns or questions relating to the proposed clinical trials as outlined in the IND and places the clinical trial on a clinical hold. In such cases, the IND sponsor and the FDA must resolve any outstanding concerns or questions before any clinical trials can begin. Clinical trial holds also may be imposed at any time before or during studies due to safety concerns or non-compliance with regulatory requirements.

An IRB board, at each of the clinical centers proposing to conduct the clinical trial must review and approve the plan for any clinical trial before it commences at that center. An IRB board considers, among other things, whether the risks to individuals participating in the trials are minimized and are reasonable in relation to anticipated benefits. The IRB board also approves the consent form signed by the trial participants and must monitor the study until completed. The FDA, the independent IRB, or the sponsor may suspend or discontinue a clinical trial at any time on various grounds, including a finding that the subjects are being exposed to an unacceptable health risk. There also are requirements governing the reporting of ongoing clinical trials and completed clinical trials to public registries.

The FDA offers a number of regulatory mechanisms that provide expedited or accelerated approval procedures for selected drugs and indications which are designed to address unmet medical needs in the treatment of serious or life-threatening diseases or conditions. These include programs such as Breakthrough Therapy designations, Fast Track designations, Priority Review and Accelerated Approval, which the Corporation may need to rely upon in order to receive timely approval or to be competitive.

The Corporation may plan to seek orphan drug designation for certain indications qualified for such designation. The U.S., E.U. and other jurisdictions may grant orphan drug designation to drugs intended to treat a "rare disease or condition," which, in the U.S., is generally a disease or condition that affects fewer than 200,000 individuals in the United States, or 200,000 or more individuals in the United States and for which there is no reasonable expectation that the cost of developing and making a drug available in the United States for this type of disease or condition will be recovered from sales of the product. In the E.U., orphan drug designation can be granted if: the disease is life threatening or chronically debilitating and affects no more than 50 in 100,000 persons in the E.U.; without incentive it is unlikely that the drug would generate sufficient return to justify the necessary investment; and no satisfactory method of treatment for the condition exists or, if it does, the new drug will provide a significant benefit to those affected by the condition. Orphan drug designation must be requested before submitting an NDA. If a product that has an orphan drug designation subsequently receives the first regulatory approval for the indication for which it has such designation, the product is entitled to orphan exclusivity, meaning that the applicable regulatory authority may not approve any other applications to market the same drug for the same indication, except in very limited circumstances, for a period of seven years in the U.S. and 10 years in the E.U. Orphan drug designation does not prevent competitors from developing or marketing different drugs for the same indication or the same drug for different indications. After orphan drug designation is granted, the identity of the therapeutic agent and its potential orphan use are publicly disclosed. Orphan drug designation does not convey an advantage in, or shorten the duration of, the development, review and approval process. However, this designation provides an exemption from marketing and authorization fees.

Drugs manufactured or distributed pursuant to FDA approvals are subject to continuing regulation by the FDA, including, among other things, requirements relating to recordkeeping, periodic reporting, product sampling and distribution, reporting of adverse experiences with the product, and complying with promotion and advertising requirements. The FDA may impose a number of post-approval requirements as a condition of approval of an NDA. For example, the FDA may require post-market testing, including phase IV clinical trials, and surveillance to further assess and monitor the product's safety and effectiveness after commercialization. In addition, drug manufacturers and their subcontractors involved in the manufacture and distribution of approved drugs are required to register their establishments with the FDA and certain state agencies and are subject to periodic unannounced inspections by the FDA and certain state agencies for compliance with ongoing regulatory requirements, including current Good Manufacturing Practices, which impose certain procedural and documentation requirements. Failure to comply with statutory and regulatory requirements may subject a manufacturer to legal or regulatory action, such as warning letters, suspension of manufacturing, product seizures, injunctions, civil penalties or criminal prosecution. There is also a continuing, annual prescription drug product program user fee.

The FDA may withdraw approval if compliance with regulatory requirements and standards is not maintained or if problems occur after the product reaches the market. Later discovery of previously unknown problems with a product, including adverse events of unanticipated severity or frequency, or with manufacturing processes, or failure to comply with regulatory requirements, may result in revisions to the approved labeling to add new safety information, requirements for post-market studies or clinical trials to assess new safety risks, or imposition of distribution or other restrictions under a risk evaluation and mitigation strategy.

In the United States, pharmaceutical manufacturers are subject to complex laws and regulations pertaining to healthcare "fraud and abuse," including, but not limited to, the Anti-Kickback Statute, the federal *False Claims Act* (the "FCA"), and other state and federal laws and regulations. The Anti-Kickback Statute makes it illegal for any person, including a prescription drug manufacturer (or a party acting on its behalf) to knowingly and willfully solicit, receive, offer, or pay any remuneration that is intended to induce the referral of business, including the purchase, order, or prescription of a particular drug, for which payment may be made under a federal healthcare program, such as Medicare or Medicaid.

The FCA prohibits, among other things, any person or entity from knowingly presenting, or causing to be presented, a false or fraudulent claim for payment to or approval by the federal government or knowingly making, using, or causing to be made or used a false record or statement material to a false or fraudulent claim to the federal government. A claim includes "any request or demand" for money or property presented to the U.S. government. Violations of the FCA can result in very significant monetary penalties and treble damages. The federal government is using the FCA, and the accompanying threat of significant liability, in its investigation and prosecution of pharmaceutical companies throughout the country, for example, in connection with the promotion of products for unapproved uses and other sales and marketing practices. The government has obtained multi-million and multi-billion dollar settlements under the FCA in addition to individual criminal convictions under applicable criminal statutes. In addition, the federal civil monetary penalties statute imposes penalties against any person or entity that, among other things, is determined to have presented or caused to be presented a claim to a federal health program that the person knows or should know is for an item or service that was not provided as claimed or is false or fraudulent. Given the significant size of actual and potential settlements, it is expected that the government will continue to devote substantial resources to investigating healthcare providers' and manufacturers' compliance with applicable fraud and abuse laws.

There are also an increasing number of state laws that require manufacturers to make reports to states on pricing and marketing information. In addition, a similar federal requirement Section 6002 of the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Affordability Reconciliation Act, or the Affordable Care Act, commonly referred to as the "Physician Payments Sunshine Act" requires applicable manufacturers to track and report to the federal government certain payments and "transfers of value" made to physicians and teaching hospitals, as well as ownership and investment interests held by physicians and their immediate family members, made in the previous calendar year. There are a number of states that have various types of additional reporting requirements.

Controlled Substances

The CSA and its implementing regulations establish a "closed system" of regulations for controlled substances. The CSA imposes registration, security, recordkeeping and reporting, storage, manufacturing, distribution, importation and other requirements under the oversight of the DEA. The DEA is responsible for regulating controlled substances, and requires those individuals or entities that manufacture, import, export, distribute, research, or dispense controlled substances to comply with the regulatory requirements in order to prevent the diversion of controlled substances to illicit channels of commerce.

The DEA categorizes controlled substances into one of five schedules - Schedule I, II, III, IV or V - with varying qualifications for listing in each schedule. Schedule I substances by definition have a high potential for abuse, have no currently accepted medical use in treatment in the United States and lack accepted safety for use under medical supervision. For any product containing a Schedule I substance, such as psilocin to be available for commercial marketing in the United States, such substance must be rescheduled, or the product itself must be scheduled, by the DEA to Schedule II, III, IV or V. Scheduling determinations by the DEA are dependent on FDA approval of a substance or a specific formulation of a substance.

Facilities that research, manufacture, distribute, import or export any controlled substance must register annually with the DEA. The DEA registration is specific to the particular location, activity(ies) and controlled substance schedule(s). For example, separate registrations are needed for import and manufacturing, and each registration will specify which schedules of controlled substances are authorized.

The DEA may inspect all research and manufacturing facilities to review security, recordkeeping, reporting and handling prior to issuing a controlled substance registration and periodically to ensure continued compliance. The specific security requirements vary by the type of business activity and the schedule and quantity of controlled substances handled. The most stringent requirements apply to researchers and manufacturers of Schedule I and Schedule II substances. Required security measures commonly include background checks on employees and physical control of controlled substances through storage in approved vaults, safes and cages, and through use of alarm systems and surveillance cameras. Once registered, manufacturing facilities must maintain records documenting the manufacture, receipt and distribution of all controlled substances. Manufacturers must submit periodic reports to the DEA of the distribution of Schedule I and II controlled substances, Schedule III narcotic substances, and other designated substances. Registrants must also report any controlled substance thefts or significant losses, and must obtain authorization to destroy or dispose of controlled substances. Imports of Schedule I and II controlled substances for commercial purposes are generally restricted to substances not already available from a domestic supplier or where there is not adequate competition among domestic suppliers. In addition to an importer or exporter registration, importers and exporters must obtain a permit for every import or export of a Schedule I and II substance or Schedule III, IV and V narcotic, and submit import or export declarations for Schedule III, IV and V non-narcotics.

For drugs manufactured in the United States, the DEA establishes annually an aggregate quota for the amount of substances within Schedules I and II that may be manufactured or produced in the United States based on the DEA's estimate of the quantity needed to meet legitimate medical, scientific, research and industrial needs. The quotas apply equally to the manufacturing of the active pharmaceutical ingredient and production of dosage forms. The DEA may adjust aggregate production quotas a few times per year, and individual manufacturing or procurement quotas from time to time during the year, although the DEA has substantial discretion in whether or not to make such adjustments for individual companies.

Individual U.S. states also establish and maintain separate controlled substance laws and regulations, including licensing, recordkeeping, security, distribution, and dispensing requirements. A majority of state laws in the United States classify psilocybin and psilocin as Schedule I controlled substances. State authorities, including boards of pharmacy, regulate use of controlled substances in each state, including state specific controlled substance registration requirements. Failure to obtain applicable registrations or maintain compliance with applicable requirements, particularly as manifested in the loss or diversion of controlled substances, can result in enforcement action that could have a material adverse effect on the Corporation's business, operations and financial condition. The DEA and/or state regulatory agencies may seek civil penalties, refuse to renew necessary registrations, or initiate proceedings to revoke those registrations. In certain circumstances, violations could lead to criminal prosecution.

EU (Netherlands)

Regulation (EU) No 536/2014 on Clinical Trials on Medicinal Products for Human Use (the "**CTR**") is applicable as of January 31, 2022, harmonizing the laws, regulations and administrative provisions of the EU Member States relating to the implementation of Good Clinical Practice in the conduct of clinical trials on medicinal products for human use.¹⁴ EU Member States have transformed the requirements outlined in the Clinical Trials Directive into the respective national laws. Pursuant to the CTR, as of January 31, 2023 sponsors are obliged to use the Clinical Trials Information System ("**CTIS**") for regularity submission, authorization and supervision of clinical trials in the EU and the EEA. CTIS will thus serve as the single-entry point for submissions by sponsors and for regulatory assessment. In addition to this obligation, sponsors must transfer any ongoing (approved) trials under the CTR to CTIS by January 2025.

Further, the European Medicines Agency ("**EMA**") adopted on October 5, 2023, the "Revised CTIS Transparency Rules" on publishing information about clinical trials submitted through CTIS. To increase transparency, EMA removed the deferral mechanism which allowed sponsors to delay certain data and document publication for up to seven years after the end of their trial. Annex I of the revised rules outlines the timing of information publication for each category of clinical trial and patient population. These new rules became applicable on June 18, 2024, the same day of the launch of the new CTIS portal. In order to smoothen the process of transitioning clinical trials from the Clinical Trial Directive to the CTR, a non-binding guide named "Guidance for the Transition of clinical trials from the Clinical Trials Directive to the Clinical Trials Regulation" (version 4) dated May 2024 is published.

¹⁴ The CTR does not apply in the UK and UK law on clinical trials is currently based on old EU law (the Clinical Trials Directive), transposed into UK law via the Medicines for Human Use (Clinical Trials) Regulations 2004. An overhaul of UK law on clinical trials has been on-going for a few years, and new legislation on clinical trials in the UK, the Medicines for Human Use (Clinical Trials) (Amendment) Regulations 2024, has been signed into law and is due to come into effect from mid-April 2026.

CTIS and the practical aspects thereof are also discussed and explained (among other relevant topics relating to clinical trials) in a quick guide on the rules and procedures of the EU Clinical Trials Regulation called "Clinical Trials Regulation (EU) 536/2014 in practice", which is published by the Clinical Trials Coordination and Advisory Group ("CTAG") on December 8, 2023. The objective of the rules is to provide sponsors and investigators a quick guide on the rules and procedures of the CTR with a view to facilitating implementation. In addition to the quick guide, CTAG also published a non-binding Questions & Answers (Version 7.1) that should be read in conjunction with the quick guide and with the "Clinical Trials Information System (CTIS): online training modules" in order to gain a better understanding of the legislative changes that are effected by the CTR.

The Investigational Medicinal Product Dossier ("**IMPD**") is one of several regulatory documents required for conducting a clinical trial of a pharmacologically API intended for one or more EU Member States. The IMPD includes summaries of information related to the quality, manufacture and control of any IMP (including reference product and placebo), and data from non-clinical and clinical studies. Guidance concerning IMPDs is based on the CTR and on the approximation of laws, regulations and administrative provisions of the Member States relating to the implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use (also commonly referred to as the "**Clinical Trials Directive**").

The content of the IMPD may be adapted to the existing level of knowledge and the product's phase of development. When applying for a clinical trial authorization, a full IMPD is required when little or no information about an API has been previously submitted to competent authorities, when it is not possible to cross-refer to data submitted by another sponsor and/or when there is no authorization for sale in the EU. However, a simplified IMPD may be submitted if information has been assessed previously as part of a Marketing Authorization or a clinical trial to that competent authority. Although the format is not obligatory, the components of an IMPD are largely equivalent to clinical trial applications in Canada and the United States. The IMPD need not be a large document as the amount of information to be contained in the dossier is dependent on various factors such as product type, indication, development phase etc.

The assessment of an IMPD is focused on patient safety and any risks associated with the IMP. Whenever any potential new risks are identified the IMPD must be amended to reflect the changes. Certain amendments are considered substantial in which case the competent authority must be informed of the substantial amendment. This may be the case for changes in IMP impurities, microbial contamination, viral safety, transmissible spongiform encephalopathies (e.g. mad cow disease) and in some particular cases to stability when toxic degradation products may be generated.

With the completion of the Asset Acquisition, the Corporation has an ongoing phase I study to obtain preliminary evidence of the safety and efficacy of infused DMT. Prior to the Asset Acquisition, an investigator's brochure (including prior safety, preclinical and clinical data), and an IMPD document that includes CMC information and a clinical study protocol and supporting information had been prepared. Approval by the Dutch ethics committee of the Phase 1 Study, planned to be conducted by CHDR will be based on the vast amount of published human and animal studies of DMT. Prior to the Asset Acquisition, preclinical data was not provided as part of the application package; however, limited additional in vivo and in vitro data to support the rationale for human dosing and safety had been included. CHDR and its partner GMP-licensed pharmacy that will be involved in the Phase 1 Study, the Leiden University Medical Center, have all the required approvals to possess and handle DMT for the Phase 1 Study.

Failure of the Corporation to receive the necessary regulatory approvals required to conduct the Phase 1 Study would have an adverse impact on its business plans and financial condition for a number of reasons including, without limitation: (i) it would cause delays in the Corporation's research and development plans; (ii) it may require the Corporation to expend additional financial and human resources on revising its application package or creating a new one; or (iii) it may require the Corporation to approach an entirely different regulatory authority in a new jurisdiction, in which case the Corporation would have to expend a substantial amount of capital and other resources on engaging the appropriate research and development partners and creating an application package that complies with the regulations of that new jurisdiction. Additionally, the Corporation would be required to spend capital on transferring the DMT materials to the new jurisdiction. All of the foregoing would likely have a negative impact on the Corporation's business and financial condition.

In accordance with the Dutch Medicines Act (Geneesmiddelenwet), "medicinal products" are defined as: a substance or a combination of substances that is intended to be administered or used for, or is presented in any way as being suitable for, use: (i) the cure or prevention of any disease, defect, wound or pain in human beings, (ii) the making of a medical diagnosis in human beings, or (iii) restoring, improving or otherwise modifying physiological functions in humans by exerting a pharmacological, immunological or metabolic effect.

If a product constitutes a medicinal product, a marketing authorization for the product is required before the product may be placed on the market in the Netherlands. In the EU, marketing authorizations may be obtained through the Centralized procedure, the Decentralized or Mutual Recognition procedures and/or the national procedure. The Centralized procedure is compulsory for medicines intended to treat i.e. cancer, AIDS, neurodegenerative diseases and diabetes and optional (only) for medicines comprising of new active substances not previously approved for the EEA. When applying for a marketing authorization through the Centralized procedure, applications are submitted with the EMA. Where the Centralized procedure is not available but a medicinal product is intended for several EU/EEA Member States, an application for a marketing authorization may be submitted with the competent authority of a single EU/ EEA Member State in accordance with the Decentralized procedure. When the assessment of the application results in a decision to grant the marketing authorization, this decision will be recognized by the competent authorities of the other Member States for which the marketing authorization is applied. The Mutual Recognition procedure is similar to the Decentralised procedure, but applies to applications where the medicinal product is already the subject of a marketing authorization in another EU/EEA Member State. Finally, should a medicinal product be intended for the Netherlands only, then the national procedure may be followed by submitting an application with the Dutch Medicines Evaluation Board. It may be remarked that the national procedure is unavailable in case the Centralized procedure is compulsory or in case an applicant has already submitted an application for and/or obtained a marketing authorization in another Member State. In that case, applications must follow the Mutual Recognition procedure instead.

Companies that manufacture or trade in medicinal products and/or active pharmaceutical ingredients in the Netherlands require a manufacturing authorization or a wholesale distribution authorization. A manufacturing authorization is required for the preparation, trading in, import and export of medicinal products and/or active substances. Here, 'preparation' means the total or partial manufacture of medicinal products and/or active substances or the packaging or labelling thereof. 'Importing' means the import of medicinal products or active substances from a country outside the EEA into the Dutch territory, while 'exporting' means the export of medicinal products or active substances from the Dutch territory to a country outside the EEA. A wholesale distribution authorization is required for one or more activities within the wholesale business, such as procuring, holding, supplying, delivering or exporting medicinal products or active substances which are prepared or imported by a third party. It may be noted that holders of wholesale distribution authorization, other than holders of marketing authorizations, are not authorized to import medicinal products from countries outside the EEA.

Only a natural or legal person established in the Netherlands may obtain either a Dutch marketing authorization or a wholesale distribution authorization. These authorizations concern national permits, meaning that these authorizations are not automatically valid in other EU Member States. Furthermore, in the Netherlands applicants of marketing authorizations and wholesale distributions authorizations must be registered with Farmatec and comply with GDP norms.

Market Authorization Regulatory Process

Under the Centralized procedure, pharmaceutical companies submit a single marketing authorization application to the EMA, which provides the basis of a legally binding recommendation that will be provided by the EMA to the European Commission, the authorizing body for all centrally authorized products. This allows the marketing-authorization holder to market the medicine and make it available to patients and healthcare professionals throughout the EU on the basis of a single marketing authorization. EMA's Committee for Medicinal products for Human Use or Committee for Medicinal Products for Veterinary Use carry out a scientific assessment of the application and give a recommendation on whether the medicine should be marketed or not, under any particular dosing regime. Although, under EU law, the EMA has no authority to permit marketing in the different EU countries, the European Commission is the authorizing body for all centrally authorized products, who takes a legally binding decision based on EMA's recommendation. Once granted by the European Commission, the centralized marketing authorization is valid in all EU Member States as well as in the European Economic Area countries Iceland, Liechtenstein and Norway. European Commission decisions are published in the Community Register of medicinal products for human use. Once a medicine has been authorized for use in the EU, the EMA and the EU Member States constantly monitor its safety and take action if new information indicates that the medicine is no longer as safe and effective as previously thought. The safety monitoring of medicines involves a number of routine activities ranging from: assessing the way risks associated with a medicine will be managed and monitored once it is authorized; continuously monitoring suspected side effects reported by patients and healthcare professionals, identified in new clinical studies or reported in scientific publications; regularly assessing reports submitted by the Corporation holding the marketing authorization on the benefit-risk balance of a medicine in real life; and assessing the design and results of post-authorization safety studies which were required at the time of authorization. The EMA can also carry out a review of a medicine or a class of medicines upon request of a Member State or the European Commission. These are called EU referral procedures; they are usually triggered by concerns in relation to a medicine's safety, the effectiveness of risk minimization measures or the benefit-risk balance of the medicine. The EMA has a dedicated committee responsible for assessing and monitoring the safety of medicines, the Pharmacovigilance Risk Assessment Committee. This ensures that EMA and the EU Member States can move very quickly once an issue is detected and take any necessary action, such as amending the information available to patients and healthcare professionals, restricting use or suspending a medicine, in a timely manner in order to protect patients.

Besides the Centralized procedure, pharmaceutical companies may also submit marketing authorization applications through the Decentralized procedure with the competent authority of a Member State. As the Centralized procedure is compulsory for medicines intended to treat specified diseases i.e. cancer, AIDS, neurodegenerative diseases and diabetes and only optional for medicines comprising of new active substances not previously approved for the EU/EEA, in all other circumstances the Decentralized procedure should be used instead if a marketing authorization is to be obtained for several EU/EEA Member States. When following the Decentralized procedure, the applicant requests one country to be the Reference Member State ("**RMS**") in the procedure. After having shared draft assessment reports to which both the applicant and the competent authorities of other Member States may respond, the to be granted marketing authorization will eventually go through the Mutual recognition procedure. In the Mutual recognition procedure other Member States generally adopt the RMS's assessment, unless there are important objections on the grounds of a potentially serious risk to public health. In such situations, further discussions will also be held in the Co-ordination group for Mutual recognition and Decentralised procedures ("**CMDh**"). When all Member States involved decide on a positive opinion on products in the CMDh, Dutch translations of the summary of product characteristics, package leaflet, labelling texts and mock-ups are submitted and a national marketing authorization is issued.

Patent Cooperation Treaty

The Patent Cooperation Treaty (the "**PCT**") facilitates filing for patent recognition in multiple jurisdictions simultaneously using a single uniform patent application. 157 countries, including Canada and the United States have ratified the PCT.

Ultimately, patents are still granted in each country individually. As such, the PCT procedure consists of two phases: filing of an international application, and national evaluation under the patent laws in force in each country where a patent is sought.

Within 12 months of filing a provisional patent application at the United States Patent and Trademark Office, the Corporation may elect to file a regular utility patent application in the United States in tandem with filing a PCT application with the World Intellectual Property Office, in each case claiming priority to the provisional patent application. Within 30 months of the provisional filing date, deadlines begin for a PCT application to enter the national phase in desired jurisdictions globally, such as Canada (30 months) and Europe (31 months), in each case claiming priority to the provisional patent application.

While the Corporation is focused on programs using psychedelic-inspired compounds, the Corporation does not have any direct or indirect involvement with the illegal selling, production or distribution of any substances in the jurisdictions in which it operates. The Corporation is exploring drug development within approved laboratory clinical trial settings conducted within approved regulatory frameworks. Though highly speculative, should any prescription drug product be developed by the Corporation (which, if it does occur, would not be for several years), such drug product will not be commercialized prior to receipt of applicable regulatory approval, which will only be granted if clinical evidence of safety and efficacy for the intended use(s) is successfully developed. The Corporation may also employ non-prescription drugs, where appropriate.

COMPLIANCE PROGRAM

The Corporation oversees and monitors compliance with applicable laws in each jurisdiction in which it operates. In addition to the Corporation's senior executives and the employees responsible for overseeing compliance, the Corporation has local counsel engaged in every jurisdiction in which it operates and has received legal opinions or advice in each of these jurisdictions regarding (a) compliance with applicable regulatory frameworks, and (b) potential exposure to, and implications arising from, applicable laws in jurisdictions in which the Corporation has operations or intends to operate.

The Corporation works with third parties who require regulatory licensing to handle scheduled drugs. The Corporation continuously updates its compliance and channel programs to maintain regulatory standards set for drug development. The Corporation also works with clinical research organizations who maintain batch records and data storage for the Corporation's clinical programs.

Additionally, the Corporation has established a Medical & Clinical Advisory Team, a Research, Clinical and Regulatory Team and a Government Relations and Communications Team with cross-functional expertise in business, neuroscience, pharmaceuticals, mental health and psychedelics to advise management.

In conjunction with the Corporation's human resources and operations departments, the Corporation oversees and implements training on the Corporation's protocols. The Corporation will continue to work closely with external counsel and other compliance experts, and is evaluating the engagement of one or more independent third party providers to further develop, enhance and improve its compliance and risk management and mitigation processes and procedures in furtherance of continued compliance with the laws of the jurisdictions in which the Corporation operates.

The programs currently in place include monitoring by executives of the Corporation to ensure that operations conform to and comply with required laws, regulations and operating procedures. The Corporation is currently in compliance with the laws and regulations in all jurisdictions and the related licencing framework applicable to its business activities.

The Corporation and, to its knowledge, each of its third-party researchers, suppliers and manufacturers have not received any non-compliance, citations or notices of violation which may have an impact on the Corporation's licences, business activities or operations.

The Corporation conducts due diligence on third-party researchers, medical professionals, clinics, cultivators, processors and others as applicable, with whom it engages. Such due diligence includes but is not limited to the review of necessary licenses and the regulatory framework enacted in the jurisdiction of operation. Further, the Corporation generally obtains, under its contractual arrangements, representations and warranties from such third parties pertaining to compliance with applicable licensing requirements and the regulatory framework enacted in the jurisdiction of operation.

USE OF PROCEEDS

The net proceeds from any Offering of Securities and the proposed use of those proceeds will be set forth in the applicable Prospectus Supplement relating to that Offering of Securities. Notwithstanding, the Corporation's management has broad discretion in the application of proceeds of an Offering of Securities. On the basis of results obtained or for other sound business reasons, the Corporation may re-allocate funds as required. Accordingly, the Corporation's actual use of proceeds may vary significantly from any proposed use of proceeds disclosed in any applicable Prospectus Supplement. See "*Risk Factors - Risks Related to an Offering - Discretion over the Use of Proceeds*". The Corporation will not receive any proceeds from any sale of Securities by a Selling Securityholder.

Sources and Uses of Capital

As at September 16, 2025, the Corporation had approximately US\$92,200,000 in cash. As at September 16, 2025, the Corporation anticipates that it will require approximately US\$92,200,000 to continue operations over the next 12 months, including funding towards the achievement of the next significant milestone under the Corporation's Deuterated Psilocin Program (CYB003), Deuterated Dimethyltryptamine Program (CYB004), and Phenethylamine and Tryptamine Derivatives Program (CYB005).

The Corporation may be required to reduce its general and administrative expenses if it does not have sufficient capital to meet its below stated objectives, or it may allocate its financial resources differently than listed below. The expected reduction in future expenditures, absent any capital injections, compared to the Corporation's historic expenditures would be achieved as follows: (i) a reduction in marketing activities; (ii) a reduction in workforce and/or compensation; (iii) a reduction in public relations and investor relations activities; and (iv) a reduction of planned expenses under the Deuterated Dimethyltryptamine Program and Phenethylamine Derivatives Program, which would also result in a delay of anticipated timing for completion of the next significant milestones under each of these programs.

Notes:

- (1) Please see the Interim MD&A for a description of the Corporation's programs. All milestones are subject to receipt of all necessary approvals, including the academic and scientific organizations with which the Corporation is working.
- (2) Effective April 1, 2025, the Corporation changed its presentation currency from the Canadian dollar to the United States dollar. The change in presentation currency was made to better reflect the Corporation's operations, align with the currency in which the majority of cash based expenses are denominated, and improve comparability of its financial results with other publicly traded businesses in the industry. As a result, all amounts presented under the heading "Sources and Uses of Capital" are in United States dollar unless otherwise stated.
- (3) Represents proceeds from private placements and offerings previously disclosed.
- (4) Anticipated timeline for completion is based on the calendar year. Anticipated spending and timelines regarding drug development are based on reasonable assumptions informed by current knowledge and information available to the Corporation.
- (5) The Corporation's APPROACH trial participants (n=220) will be randomized 1:1 to receive 16 mg of CYB003 (n=110), or inactive placebo (n=110). Each arm will evaluate a two-dose regimen, with doses administered three weeks apart. The study will enroll patients suffering from moderate to severe MDD (MADRS $\geq$ 24) who are on a stable dose of antidepressant medication but are responding inadequately. The primary endpoint will be change in depressive symptoms as measured by change in MADRS from baseline at six weeks after the first dose. APPROACH is expected to enroll at approximately 45 clinical sites across the U.S. The Corporation's EMBRACE trial participants (n=330) will be randomized 1:1:1 to receive 16 mg of CYB003 (n=110), 8 mg of CYB003 (n=110), or inactive placebo (n=110). Each arm will evaluate a two-dose regimen, with doses administered three weeks apart. The study will enroll patients suffering from moderate to severe MDD (MADRS $\geq$ 24) who are on a stable dose of antidepressant medication but are responding inadequately. The primary endpoint will be change in depressive symptoms as measured by change in MADRS from baseline at six weeks after the first dose. EMBRACE is expected to enroll at approximately 60 clinical sites, with minimal site overlap with the APPROACH study. Participants (up to n=550) from APPROACH and EMBRACE will roll over into EXTEND, the Corporation's Phase 3 Pivotal study 3 trial, after the completion of the 12-week, double-blind, placebo-controlled treatment periods. During EXTEND, all participants who did not respond to treatment in the APPROACH and EMBRACE studies or who relapse during the EXTEND study will be eligible to receive an additional two doses of CYB003 (16 mg) administered three weeks apart. Participants who do not respond to these two doses or relapse again will be eligible to receive an additional single 16 mg dose of CYB003. The Corporation has engaged Worldwide Clinical Trials Inc, a full-service contract research organization with deep expertise in central nervous system drug development, to carry out the Phase 3 pivotal studies of CYB003. The Corporation cannot at this time estimate the cost of bringing CYB003 drug candidate to market as much of the associated costs depend on the outcomes of the phase III pivotal clinical trials. Further, there is no assurance that the aforementioned timelines will be met or that such studies will be completed. Anticipated timelines regarding drug development and recruitment of patients for participation in clinical trials are dependent on various factors and are based on reasonable assumptions informed by current knowledge and information available to the Corporation. Such statements are informed by, among other things, eligibility and exclusion criteria for the trial, design of the clinical trial, competition with other companies for clinical sites or patients, perceived risks and benefits of the prescription drug product candidate, the number, availability, location and accessibility of clinical trial sites, regulatory guidelines for developing a drug with safety studies, proof of concept studies, and pivotal studies for new drug application submission and approval, and assumes the success of implementation and results of such studies on timelines indicated as possible by such guidelines, other industry examples, and the Corporation's development efforts to date.
- (6) Includes personnel costs, professional services, overhead expenses and general expenses to be incurred by the Corporation in the normal course of business. In addition, the Corporation intends to use a portion of these proceeds to continue funding both its Deuterated Psilocin Program and Deuterated Dimethyltryptamine Program. The allocation between and specific milestones within these programs have not yet been determined.

- (7) The Corporation will progress the Phase 3 study EMBRACE and Phase 3 study EXTEND over the next 12 months however, these studies are not anticipated to be completed within the 12 month timeframe.
- (8) The Corporation has updated the anticipated timeline for completion of this milestone. The Corporation had previously expected it would complete this milestone around mid-year 2025. There was a minor change in anticipated timing due to updates to the study. Anticipated spending and timelines regarding drug development are based on reasonable assumptions informed by current knowledge and information available to the Corporation.
- (9) The Corporation has updated the anticipated timeline for completion of this milestone. The Corporation had previously expected it would complete this milestone in Q1 2026. The Corporation has expanded this program, which previously was focused only on phenethylamine molecules to also include tryptamine molecules. Anticipated spending and timelines regarding drug development are based on reasonable assumptions informed by current knowledge and information available to the Corporation.

For detailed information in respect of the Corporation's business objectives and milestones, and the application of proceeds from prior offerings by the Corporation, prospective purchasers of Securities should carefully consider the information described in the Annual Information Form and Interim MD&A of the Corporation, and the documents incorporated by reference herein, including the applicable Prospectus Supplement.

As at September 16, 2025, the Corporation's current financial resources, absent any capital injections, will be sufficient to meet the Corporation's short-term liquidity requirements and to fund its operations for the coming 12 months. The Corporation makes this statement based on its current cash position of approximately US\$92,200,000.

The Corporation's expectation is based on certain assumptions and risks as set forth in the section "*Cautionary Note Regarding Forward Looking Information*" and "*Risk Factors*" in this Prospectus.

The expected uses of capital represents the Corporation's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. The amounts and timing of the actual use of available capital will depend on multiple factors and there may be circumstances where, for sound business reasons, a reallocation of capital, or termination of a program objective, may be necessary in order for the Corporation to achieve its program objectives. The Corporation may also require additional funds in order to fulfill its expenditure requirements to meet existing and any new business objectives, and the Corporation expects to either issue additional securities or incur debt to do so. The material factors or assumptions used to develop the estimated amounts for the 12 months period disclosed above are included in the "*Cautionary Note Regarding Forward-Looking Information*" section above. The actual amount that the Corporation spends in connection with each of the identified uses and programs will depend on a number of factors, including those listed under "*Risk Factors*" in, or incorporated by reference in, this Prospectus.

Negative Cash Flow From Operations

Since inception, the Corporation has financed its operations primarily from the issuance of equity and interest income on funds available for investment. To date, the Corporation has raised approximately US\$383,000,000 in gross proceeds through private placement and prospectus offerings. The Corporation has experienced operating losses and cash outflows from operations since incorporation and will require ongoing financing to continue its research and development activities. As the Corporation has not yet achieved profitability. The Corporation has not earned any revenue or reached successful commercialization of any products. The Corporation's success is dependent upon the ability to finance its cash requirements to continue its activities. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Corporation as those previously obtained, or at all. To the extent that the Corporation has negative operating cash flows in future periods, it may need to deploy a portion of its existing working capital to fund such negative cash flows. The Corporation will be required to raise additional funds through the issuance of additional equity securities, through loan financing, or other means, such as through partnerships with other companies and research and development reimbursements. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Corporation as those previously obtained. See "*Risk Factors – Risks Related to an Offering - Negative Operating Cash Flow*".

Debt Securities

The Debt Securities may be issued in one or more series under an indenture (the "**Indenture**") to be entered into between the Corporation and one or more trustees that may be named in a Prospectus Supplement for a series of Debt Securities. To the extent applicable, the Indenture will be subject to and governed by the United States Trust Indenture Act of 1939, as amended. A copy of the form of the Indenture to be entered into has been or will be filed with the SEC as an exhibit to the Registration Statement of which this Prospectus forms a part and will be filed with the securities commissions or similar authorities in Canada when it is entered into. The Corporation may issue Debt Securities, separately or together, with Common Shares, Warrants, Subscription Receipts or Units or any combination thereof, as the case may be.

The description of certain provisions of the Indenture in this section do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the provisions of the Indenture. The following sets forth certain general terms and provisions of the Debt Securities. The particular terms and provisions of a series of Debt Securities offered pursuant to this Prospectus will be set forth in the applicable Prospectus Supplement, and the extent to which the general terms and provisions described below may apply to such Debt Securities will be described in the applicable Prospectus Supplement. This description may include, but may not be limited to, any of the following, if applicable:

- the specific designation of the Debt Securities;
- any limit on the aggregate principal amount of the Debt Securities;
- the date or dates, if any, on which the Debt Securities will mature and the portion (if less than all of the principal amount) of the Debt Securities to be payable upon declaration of acceleration of maturity;
- the rate or rates (whether fixed or variable) at which the Debt Securities will bear interest, if any, the date or dates from which any such interest will accrue and on which any such interest will be payable and the record dates for any interest payable on the Debt Securities;
- the terms and conditions under which the Corporation may be obligated to redeem, repay or purchase the Debt Securities pursuant to any sinking fund or analogous provisions or otherwise;
- the terms and conditions upon which the Corporation may redeem the Debt Securities, in whole or in part, at its option;
- the covenants applicable to the Debt Securities;
- the terms and conditions for any conversion or exchange of the Debt Securities for any other securities of the Corporation;
- the extent and manner, if any, to which payment on or in respect of the Debt Securities of the series will be senior or will be subordinated to the prior payment of other liabilities and obligations of the Corporation;
- whether the Debt Securities will be secured or unsecured;
- whether the Debt Securities will be issuable in the form of global securities ("**Global Securities**"), and, if so, the identity of the depositary for such Global Securities;
- the denominations in which Debt Securities will be issuable, if other than denominations of US\$1,000 or integral multiples of US\$1,000;
- each office or agency where payments on the Debt Securities will be made and each office or agency where the Debt Securities may be presented for registration of transfer or exchange;

- if other than United States dollars, the currency in which the Debt Securities are denominated or the currency in which we will make payments on the Debt Securities;
- material Canadian federal income tax consequences and United States federal income tax consequences of owning the Debt Securities; and
- any other terms, conditions, rights or preferences of the Debt Securities which apply solely to the Debt Securities.

If the Corporation denominates the purchase price of any of the Debt Securities in a currency or currencies other than United States dollars or a non-United States dollar unit or units, or if the principal of and any premium and interest on any Debt Securities is payable in a currency or currencies other than United States dollars or a non-United States dollar unit or units, the Corporation will provide investors with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of Debt Securities and such non-United States dollar currency or currencies or non-United States dollar unit or units in the applicable Prospectus Supplement.

Each series of Debt Securities may be issued at various times with different maturity dates, may bear interest at different rates and may otherwise vary.

The terms on which a series of Debt Securities may be convertible into or exchangeable for Common Shares or other securities of the Corporation will be described in the applicable Prospectus Supplement. These terms may include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at the option of the Corporation, and may include provisions pursuant to which the number of Common Shares or other securities to be received by the holders of such series of Debt Securities would be subject to adjustment.

To the extent any Debt Securities are convertible into Common Shares or other securities of the Corporation, prior to such conversion the holders of such Debt Securities will not have any of the rights of holders of the securities into which the Debt Securities are convertible, including the right to receive payments of dividends or the right to vote such underlying securities.

Subscription Receipts

Subscription Receipts may be offered separately or together with other Securities, as the case may be. The Subscription Receipts may be issued under a subscription receipt agreement.

The applicable Prospectus Supplement will include details of any subscription receipt agreement covering the Subscription Receipts being offered. A copy of any subscription receipt agreement relating to an offering of Subscription Receipts will be filed by the Corporation with the relevant securities regulatory authorities in Canada after the Corporation has entered into it. The specific terms of the Subscription Receipts, and the extent to which the general terms described in this section apply to those Subscription Receipts, will be set forth in the applicable Prospectus Supplement. This description may include, without limitation, the following (where applicable):

- the number of Subscription Receipts;
- the price at which the Subscription Receipts will be offered;
- the terms, conditions and procedures for the conversion of the Subscription Receipts into other Securities;
- the designation, number and terms of the other Securities that may be exchanged upon conversion of each Subscription Receipt;
- the designation, number and terms of other Securities with which the Subscription Receipts will be offered, if any, and the number of Subscription Receipts that will be offered with each Security;
- terms applicable to the gross or net proceeds from the sale of the Subscription Receipts plus any interest earned thereon;
- certain material Canadian tax consequences of owning the Subscription Receipts; and
- any other material terms and conditions of the Subscription Receipts.

General

The Corporation and the Selling Securityholders may from time to time during the 25-month period that this Prospectus, including any amendments and supplements hereto, remains valid, offer for sale and sell up to an aggregate of \$800,000,000 in Securities hereunder. To the extent there are any Secondary Offerings, the aggregate amount of Securities that may be offered and sold by the Corporation hereunder shall be reduced by the aggregate amount of such Secondary Offerings.

The Securities may be sold by the Corporation and the Selling Securityholders (i) directly pursuant to applicable statutory exemptions, (ii) to or through underwriters or dealers, or (iii) through designated agents pursuant to applicable statutory exemptions. The Prospectus Supplement relating to a particular Offering of Securities will identify any underwriter, dealer or agent engaged in connection with the offering and sale of such Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the purchase price of the Securities (or the manner of determination thereof if offered on a non-fixed price basis), the identity of the Selling Securityholders, if any, the net proceeds to the Corporation or the Selling Securityholder, as applicable, and any other material terms of the plan of distribution (including sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102). Any initial offering price and discounts, concessions or commissions allowed or re-allowed or paid to underwriters, dealers or agents may be changed from time to time. Only underwriters named in the Prospectus Supplement are deemed to be underwriters in connection with the Securities offered by that Prospectus Supplement.

In addition, the Securities may be offered and issued in consideration for the acquisition of other businesses, assets or securities by the Corporation or one of its subsidiaries. The consideration for any such acquisition may consist of the Securities separately, a combination of Securities or any combination of, among other things, Securities, cash and assumption of liabilities. In addition, one or more Selling Securityholders may sell Securities to or through underwriters or dealers purchasing as principals and may also sell Securities to one or more purchasers directly, through statutory exemptions, or through agents designated from time to time.

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale (including, in the case of the Corporation, but not the Selling Securityholders, sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102), at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers including sales in transactions that are deemed to be "at-the-market" distributions, including sales made directly on the CBOE Canada or other existing trading markets for the Securities, in which case the compensation payable to an underwriter, dealer or agent in connection with any such sale will be decreased by the amount, if any, by which the aggregate price paid for the Securities by the purchasers is less than the gross proceeds paid by the underwriter, dealer or agent to the Corporation and/or the Selling Securityholder(s). The price at which the Securities will be offered and sold may vary from purchaser to purchaser and during the period of distribution.

Sales of Securities under an "at-the-market distribution", if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Securities under any "at-the-market" program will be made in transactions that are "at-the-market distributions" as defined in NI 44-102. The volume and timing of any "at-the-market distributions" will be determined at the Corporation's sole discretion.

No underwriter or dealer involved in an "at-the-market distribution" under this Prospectus, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such an underwriter or dealer will over-allot securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the offered Securities or securities of the same class as the Securities distributed under the "at-the-market distribution", including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities.

In connection with the sale of the Securities, underwriters, dealers or agents may receive compensation from the Corporation, any Selling Securityholder or from other parties, including in the form of underwriters', dealers' or agents' fees, commissions or concessions. Underwriters, dealers and agents that participate in the distribution of the Securities may be deemed to be underwriters for the purposes of applicable Canadian securities legislation and any such compensation that they receive from the Corporation or any Selling Securityholder and any profit that they make on the resale of the Securities, may be deemed to be underwriting commissions.

Underwriters, dealers or agents who participate in the distribution of the Securities may be entitled, under agreements to be entered into with the Corporation and/or any Selling Securityholder, to indemnification by the Corporation and/or any Selling Securityholder against certain liabilities, including liabilities under Canadian securities legislation, or to contribution with respect to payments, which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Corporation in the ordinary course of business.

In connection with any Offering of Securities, subject to applicable laws and other than an "at-the-market distribution", the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions which stabilize, maintain or otherwise affect the market price of the offered Securities at a level other than those which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time.

Unless specified in the applicable Prospectus Supplement, there is no market through which the Subscription Receipts, Warrants, Units and Debt Securities may be sold and purchasers may not be able to resell the Subscription Receipts, Warrants, Units and Debt Securities purchased under this Prospectus and the Prospectus Supplement. This may affect the pricing of the Subscription Receipts, Warrants, Units and Debt Securities in the secondary market, the transparency and availability of trading prices, the liquidity of the Subscription Receipts, Warrants, Units and Debt Securities and the extent of issuer regulation. See "*Risk Factors*".

RISK FACTORS

An investment in the Securities involves a high degree of risk and must be considered speculative due to the nature of the Corporation's business and present stage of development. Before making an investment decision, prospective purchasers of Securities should carefully consider the information described in this Prospectus and the documents incorporated by reference herein, including the applicable Prospectus Supplement. There are certain risks inherent in an investment in the Securities, including the factors described below and under the heading "Risk Factors" in the Annual Information Form and under the heading "Risks and Uncertainties" in the Interim MD&A, and any other risk factors described herein or in a document incorporated by reference herein, which investors should carefully consider before investing. Additional risk factors relating to a specific Offering of Securities will be described in the applicable Prospectus Supplement. Some of the factors described herein, in the documents incorporated by reference herein, and/or the applicable Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any of the risk factors described herein, in the Annual Information Form, in another document incorporated by reference herein or in the applicable Prospectus Supplement occur, it could have a material adverse effect on the business, financial condition and results of operations of the Corporation. Additional risks and uncertainties of which the Corporation currently is unaware or that are unknown or that it currently deems to be immaterial could have a material adverse effect on the Corporation's business, financial condition and results of operation. The Corporation cannot assure purchasers that it will successfully address any or all of these risks. There is no assurance that any risk management steps taken will avoid future loss due to the occurrence of the risks described herein, in the Annual Information Form, in the other documents incorporated by reference herein or in the applicable Prospectus Supplement or other unforeseen risks.

Risks Related to the Business of the Corporation

Regulatory Risks and Uncertainties

In Canada, certain psychedelic drugs, including psilocybin/psilocin, are classified as Schedule III drugs under the CDSA and as such, medical and recreational use is illegal under Canadian federal laws. In the United States, certain psychedelic drugs, including psilocybin, psilocin, DMT, and 5-Methoxy-DMT, are classified as Schedule I drugs under the CSA and the Controlled Substances Import and Export Act and as such, medical and recreational use is illegal under the U.S. federal laws. Anyone wishing to conduct research on substances listed in Schedule I under the CSA must register with the DEA and obtain DEA approval of the research proposal. The EU member states currently classify DMT as a Schedule I substance under the UN 71 and, as such, a licence is required to produce, dispense, import or export any Schedule I substances, but the specific requirements vary from country to country. Currently in the Netherlands, DMT is classified as a List 1 Drug under the Dutch Opium Act and, as such, subject to express authorization being obtained, the production, trade and possession of DMT are prohibited. In the United Kingdom, "Fungus (of any kind) which contains psilocin or an ester of psilocin" is controlled as a Class A drug under the MDA and Schedule 1 drug under the MDR. As psilocybin is a phosphate ester of psilocin, even if it is isolated from psilocin, it will still be treated as a Class A drug under the MDA and as a Schedule 1 drug under the MDR. Schedule 1 drugs can only be lawfully manufactured, produced, possessed and supplied under a controlled drugs domestic licence issued by the UK Home Office.

There is no guarantee that psychedelic drugs or psychedelic inspired drugs will ever be approved as medicines in any jurisdiction in which the Corporation operates. All activities involving such substances by or on behalf of the Corporation are conducted in accordance with applicable federal, provincial, state and local laws. Further, all facilities engaged with such substances by or on behalf of the Corporation do so under current licences and permits issued by appropriate federal, provincial and local governmental agencies. While the Corporation is focused on programs using psychedelic inspired compounds, the Corporation does not have any direct or indirect involvement with the illegal selling, production or distribution of any substances in the jurisdictions in which it operates and does not intend to have any such involvement. However, the laws and regulations generally applicable to the industry in which the Corporation is involved in may change in ways currently unforeseen. Any amendment to or replacement of existing laws or regulations, including the classification or re-classification of the substances the Corporation is developing or working with, which are matters beyond the Corporation's control, may cause the Corporation's business, financial condition, results of operations and prospects to be adversely affected or may cause the Corporation to incur significant costs in complying with such changes or it may be unable to comply therewith. A violation of any applicable laws and regulations of the jurisdictions in which the Corporation operates could result in significant fines, penalties, administrative sanctions, convictions or settlements arising from civil proceedings initiated by either government entities in the jurisdictions in which the Corporation operates, or private citizens or criminal charges.

The loss of the necessary licences and permits for any of the above scheduled drugs could have an adverse effect on the Corporation's operations.

The psychedelic drug industry is a fairly new industry and the Corporation cannot predict the impact of the ever-evolving compliance regime in respect of this industry. Similarly, the Corporation cannot predict the time required to secure all appropriate regulatory approvals for future products, or the extent of testing and documentation that may, from time to time, be required by governmental authorities. The impact of compliance regimes, any delays in obtaining, or failure to obtain regulatory approvals may significantly delay or impact the development of markets, its business and products, and sales initiatives and could have a material adverse effect on the business, financial condition and operating results of the Corporation.

The success of the Corporation's business is dependent on the reform of controlled substances laws pertaining to psilocybin. If controlled substances laws are not favourably reformed in Canada, the United States, the Netherlands, the UK, and other global jurisdictions, the commercial opportunity that the Corporation is pursuing may be highly limited.

The Corporation makes no medical, treatment or health benefit claims about the Corporation's proposed products. The FDA, Health Canada, the EMA or other similar regulatory authorities have not evaluated claims regarding psilocybin, DMT, psilocybin analogues, or other psychedelic compounds. The efficacy of such products have not been confirmed by approved research. There is no assurance that the use of psilocybin, DMT, psilocybin analogues, or other psychedelic compounds can diagnose, treat, cure or prevent any disease or condition. Vigorous scientific research and clinical trials are needed. The Corporation has not conducted clinical trials for the use of its proposed products. Any references to quality, consistency, efficacy and safety of potential products do not imply that the Corporation verified such in clinical trials or that the Corporation will complete such trials. If the Corporation cannot obtain the approvals or research necessary to commercialize its business, it may have a material adverse effect on the Corporation's performance and operations.

The Corporation is a "foreign private issuer", under applicable U.S. federal securities laws, and is, therefore, not subject to the same requirements that are imposed upon U.S. domestic issuers by the SEC. Under the Exchange Act, the Corporation is subject to reporting obligations that, in certain respects, are less detailed and less frequent than those of U.S. domestic reporting companies. As a result, the Corporation does not file the same reports that a U.S. domestic issuer would file with the SEC, although the Corporation is required to file with or furnish to the SEC the continuous disclosure documents that it is required to file in Canada under Canadian securities laws. In addition, the Corporation's officers, directors, and principal shareholders are exempt from the reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act. Therefore, the Corporation's shareholders may not know on as timely a basis when the Corporation's officers, directors and principal shareholders purchase or sell Common Shares, as the reporting periods under the corresponding Canadian insider reporting requirements are longer.

As a foreign private issuer, the Corporation is exempt from the rules and regulations under the Exchange Act related to the furnishing and content of proxy statements. The Corporation is also exempt from Regulation FD, which prohibits issuers from making selective disclosures of material non-public information. While the Corporation complies with the corresponding requirements relating to proxy statements and disclosure of material non-public information under Canadian securities laws, these requirements differ from those under the Exchange Act and Regulation FD and shareholders should not expect to receive the same information at the same time as such information is provided by U.S. domestic companies. In addition, the Corporation may not be required under the Exchange Act to file annual and quarterly reports with the SEC as promptly as U.S. domestic companies whose securities are registered under the Exchange Act.

Risks Related to an Offering

Speculative Nature of Investment Risk

An investment in the Common Shares and the Corporation's prospects generally are speculative due to the risky nature of its business and the present stage of its development. Investors may lose their entire investment. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described or incorporated by reference herein, or other unforeseen risks. If any of such risks actually occur, then the Corporation's business, financial condition and operating results could be adversely affected. Investors should carefully consider all risks and consult with their professional advisors to assess any investment in the Corporation.

Negative Operating Cash Flow

The Corporation has had negative cash flow from operating activities since inception. Drug development involves long lead times, is very expensive and involves many variables of uncertainty. As such, significant capital investment will be required to achieve the Corporation's existing plans. The Corporation's net losses have had and will continue to have an adverse effect on, among other things, shareholder equity, total assets and working capital. The Corporation expects that losses may fluctuate from quarter to quarter and year to year, and that such fluctuations may be substantial based on the stage of development of its principal programs. The Corporation cannot predict when it will become profitable, if at all. Accordingly, the Corporation may be required to obtain additional financing in order to meet its future cash commitments.

Discretion over the Use of Proceeds

While detailed information regarding the use of proceeds from the sale of the Securities will be described in the applicable Prospectus Supplement, the Corporation will have broad discretion over the use of net proceeds from an offering by the Corporation of its Securities. There may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary. In such circumstances, the net proceeds will be reallocated at the Corporation's sole discretion.

Management will have discretion concerning the use of proceeds ascribed in the applicable Prospectus Supplement as well as the timing of their expenditures. As a result, an investor will be relying on the judgment of management for the application of the proceeds. Management may use the net proceeds described in a Prospectus Supplement in ways that an investor may not consider desirable. The results and the effectiveness of the application of the proceeds are uncertain. If the proceeds are not applied effectively, the Corporation's results of operations may suffer. See *"Use of Proceeds"*.

Need for Additional Financing

The continued development of the Corporation will require additional financing. The Corporation's activities do have scope for flexibility in terms of the amount and timing of expenditures, and expenditures may be adjusted accordingly. However, further operations will require additional capital and will depend on the Corporation's ability to obtain financing through debt, equity or other means. The Corporation's ability to meet its obligations and maintain operations may be contingent upon successful completion of additional financing arrangements. There is no assurance that the Corporation will be successful in obtaining the required financing in the future or that such financing will be available on terms acceptable to the Corporation. In addition, any future financing may also be dilutive to existing shareholders of the Corporation. See *"Risk Factors - Risks Related to an Offering - Negative Operating Cash Flow" and "- Potential Dilution"*.

Volatile Market Price of Corporation's Common Shares

The securities market in Canada has recently experienced a high level of price and volume volatility, and the market prices of securities of many companies have experienced wide fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in price will not occur. It may be anticipated that any market for the Common Shares will be subject to market trends generally, notwithstanding any potential success of the Corporation. The value of the Common Shares distributed hereunder will be affected by such volatility.

The volatility of the Common Shares may affect the ability of holders to sell the Common Shares at an advantageous price or at all. Market price fluctuations in the Common Shares may be adversely affected by a variety of factors relating to the Corporation's business, including fluctuations in the Corporation's operating and financial results, such results failing to meet the expectations of securities analysts or investors and downward revisions in securities analysis' estimates in connection therewith, sales of additional Common Shares, governmental regulatory action, adverse change in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by the Corporation or its competitors, along with a variety of additional factors, including, without limitation, those set forth under the heading *"Cautionary Note Regarding Forward-Looking Information"*. In addition, the market price for securities on stock markets, including the CBOE Canada is subject to significant price and trading fluctuations. These fluctuations have resulted in volatility in the market prices of securities that often has been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may materially adversely affect the market price of the Corporation.

Additionally, the value of the Common Shares is subject to market value fluctuations based upon factors that influence the Corporation's operations, such as legislative or regulatory developments, competition, technological change and changes in interest rates or foreign exchange rates. There can be no assurance that the market price of the Common Shares will not experience significant fluctuations in the future, including fluctuations that are unrelated to the Corporation's performance. As at the date of this Prospectus, only the Common Shares are listed on a securities exchange and may be purchased in the secondary market.

Potential Dilution

The Corporation's articles of incorporation and by-laws allow it to issue an unlimited number of Common Shares for such consideration and on such terms and conditions as established by the board of directors of the Corporation, in many cases, without the approval of the Corporation's shareholders. The Corporation cannot predict the size of future issuances of Common Shares or other Securities or the effect that future issuances and sales of Common Shares or other Securities will have on the market price of the Corporation's Securities. Issuances of a substantial number of additional Securities, or the perception that such issuances could occur, may adversely affect prevailing market prices for the Common Shares. With any additional issuance of Common Shares, investors will suffer dilution to their voting power and the Corporation may experience dilution in its earnings per share. *"Risk Factors - Risks Related to an Offering - Potential Need for Additional Financing"*.

Pursuant to the Securities Purchase Agreement, the Corporation and High Trail also entered into a registration rights agreement, as amended on August 12, 2025 (the “**Registration Rights Agreement**”) pursuant to which, among other matters, the Corporation agreed to file a prospectus supplement to its effective Form F-10 registration statement to register under the U.S. Securities Act the resale by High Trail of up to 20,000,000 Common Shares issuable upon the conversion of the Convertible Debentures (the “**Registrable Common Shares**”), on the terms of the Securities Purchase Agreement and the Convertible Debentures, at the Conversion Price (as defined in the Securities Purchase Agreement) in the United States, within 15 calendar days of the closing date. Accordingly, in order to meet its obligations under the Registration Rights Agreement, on July 14, 2025, the Corporation filed a prospectus supplement (the “**July Prospectus Supplement**”) to permit High Trail to offer up to 20,000,000 Registrable Common Shares for sale or other disposition from time to time in the United States. Further, the Securities Purchase Agreement contemplates that the Corporation may sell and issue to High Trail up to an additional \$450,000,000 aggregate principal amount of Convertible Debentures (the “**Additional Convertible Debentures**”) at a future date, upon mutual agreement of the parties. It is anticipated that High Trail will receive registration rights to permit High Trail to offer such number of Common Shares as would be issued on conversion of the Additional Convertible Debentures (the “**Additional Registrable Common Shares**”), for sale or other disposition from time to time in the United States. If all of the Registrable Common Shares are issued and outstanding, they would represent a substantial percentage of the Corporation’s public float and of the outstanding Common Shares. As of July 14, 2025, the Registrable Common Shares covered by the July Prospectus Supplement represent approximately 87% of the total number of outstanding Common Shares (assuming all of the Registrable Common Shares covered by the July Prospectus Supplement were issued and outstanding). Accordingly, the resale of the Registrable Common Shares covered by the July Prospectus Supplement, and the resale of any Additional Registrable Common Shares issued on conversion of the Additional Convertible Debentures, or the perception that such sales may occur, could result in a significant decline in the public trading price of the Common Shares. The number of Registrable Common Shares that may actually be issued by the Corporation upon conversion of the Convertible Debentures may be fewer or greater than the number of Registrable Common Shares being qualified by the July Prospectus Supplement. The number of Registrable Common Shares that may actually be acquired by High Trail pursuant to the Convertible Debentures is not known given the variable Conversion Price. In the event that the number of Common Shares issuable upon conversion of the Convertible Debentures is greater than the Registrable Common Shares covered by the July Prospectus Supplement, the Corporation may be obligated under the terms of the Registration Rights Agreement to file and have declared effective additional registration statements registering under the U.S. Securities Act the resale of additional Common Shares issuable upon the conversion of any Convertible Debentures then outstanding.

Market for Securities

There is currently no market through which the Securities, other than the Common Shares, may be sold and, unless otherwise specified in the applicable Prospectus Supplement, such unlisted Securities may not be listed on any securities or stock exchange or any automated dealer quotation system. As a consequence, purchasers may not be able to resell such unlisted Securities purchased under this Prospectus. This may affect the pricing of the Corporation's Securities, other than the Common Shares, in the secondary market, the transparency and availability of trading prices, the liquidity of these Securities and the extent of issuer regulation. There can be no assurance that an active trading market for the Securities, other than the Common Shares, will develop or, if developed, that any such market, including for the Common Shares, will be sustained.

Enforcement of Civil Liabilities

Certain of the Corporation's subsidiaries and assets are located outside of Canada. Accordingly, it may be difficult for investors to enforce within Canada any judgments obtained against the Corporation, including judgments predicated upon the civil liability provisions of applicable Canadian securities laws or otherwise. Consequently, investors may be effectively prevented from pursuing remedies against the Corporation under Canadian securities laws or otherwise.

The Corporation has subsidiaries incorporated in the United States. It may not be possible for shareholders to effect service of process outside of Canada against the directors and officers of the Corporation who are not resident in Canada. In the event a judgment is obtained in a Canadian court against one or more of such persons for violations of Canadian securities laws or otherwise, it may not be possible to enforce such judgment against persons not resident in Canada. Additionally, it may be difficult for an investor, or any other person or entity, to assert Canadian securities law or other claims in original actions instituted in the United States. Courts in such jurisdiction may refuse to hear a claim based on a violation of Canadian securities laws or otherwise on the grounds that such jurisdiction is not the most appropriate forum to bring such a claim. Even if a foreign court agrees to hear a claim, it may determine that the local law, and not Canadian law, is applicable to the claim. If Canadian law is found to be applicable, the content of applicable Canadian law must be proven as a fact, which can be a time-consuming and costly process. Certain matters of procedure will also be governed by foreign law.

Most of the officers and directors named in this Prospectus are not residents of the United States, and some of the Corporation's assets and all or a substantial portion of the assets of such person are located outside of the United States.

The Corporation has been advised that, subject to certain limitations, a judgment of a United States court predicated solely upon civil liability under United States federal securities laws may be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. The Corporation has also been advised, however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws or any such state securities or "blue sky" laws.

The Corporation is filing with the SEC, concurrently with the Registration Statement, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Corporation appointed C T Corporation System as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Corporation in a United States court, arising out of or related to or concerning the offering of the Securities.

CERTAIN FEDERAL INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement will include a general summary of certain Canadian federal income tax consequences which may be applicable to a purchaser of Securities offered thereunder. The applicable Prospectus Supplement may also describe certain United States federal income tax consequences which may be applicable to a purchaser of Securities hereunder by an initial investor who is a United States person (within the meaning of the United States Internal Revenue Code of 1986, as amended). Investors should read the tax discussion in any Prospectus Supplement with respect to a particular offering and consult their own tax advisors with respect to their own particular circumstances.

LEGAL MATTERS

Certain legal matters in connection with the offering of the Securities will be passed upon by Aird & Berlis LLP on behalf of the Corporation. As at the date of this Prospectus, the designated professionals of Aird & Berlis LLP, as a group, beneficially own, directly or indirectly, less than one percent of the securities of the Corporation.

AUDITORS, TRANSFER AGENT AND REGISTRAR

Zeifmans LLP, Chartered Professional Accountants, are the auditors of the Corporation and have confirmed that they are independent of the Corporation within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and any applicable legislation or regulation. Neither Zeifmans LLP nor any designated professional thereof, had any registered or beneficial interest in any securities or other property of the Corporation at the time they prepared the relevant financial statements incorporated by reference in this Prospectus or at any time thereafter.

The registrar and transfer agent of the Common Shares is Odyssey Trust Company at its principal office in Calgary, Alberta.

Indemnification of Directors and Officers

Under the *Business Corporations Act* (Ontario), the Registrant may indemnify a director or officer of the Registrant, a former director or officer of the Registrant or another individual who acts or acted at the Registrant's request as a director or officer, or an individual acting in a similar capacity, of another entity (each of the foregoing, an "individual"), against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the individual in respect of any civil, criminal, administrative, investigative or other proceeding in which the individual is involved because of that association with the Registrant or other entity, on the condition that (i) such individual acted honestly and in good faith with a view to the best interests of the Registrant or, as the case may be, to the best interests of the other entity for which the individual acted as a director or officer or in a similar capacity at the Registrant's request; and (ii) if the matter is a criminal or administrative action or proceeding that is enforced by a monetary penalty, the Registrant shall not indemnify the individual unless the individual had reasonable grounds for believing that his or her conduct was lawful.

Further, the Registrant may, with the approval of a court, indemnify an individual in respect of an action by or on behalf of the Registrant or other entity to obtain a judgment in its favor, to which the individual is made a party because of the individual's association with the Registrant or other entity as a director or officer, a former director or officer, an individual who acts or acted at the Registrant's request as a director or officer, or an individual acting in a similar capacity, against all costs, charges and expenses reasonably incurred by the individual in connection with such action, if the individual fulfills the conditions in (i) and (ii) above. Such individuals are entitled to indemnification from the Registrant in respect of all costs, charges and expenses reasonably incurred by the individual in connection with the defense of any civil, criminal, administrative, investigative or other proceeding to which the individual is subject because of the individual's association with the Registrant or other entity as described above, provided the individual seeking an indemnity: (A) was not judged by a court or other competent authority to have committed any fault or omitted to do anything that the individual ought to have done; and (B) fulfills the conditions in (i) and (ii) above.

The by-laws of the Registrant provide that, subject to the *Business Corporations Act* (Ontario), the Registrant shall indemnify a director or officer of the Registrant, a former director or officer of the Registrant or another individual who acts or acted at the Registrant's request as a director or officer, or an individual acting in a similar capacity, or another entity, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the individual in respect of any civil, criminal, administrative, investigative or other proceeding in which the individual is involved because of that association with the Registrant or other entity, if: (i) the individual acted honestly and in good faith with a view to the best interests of the Registrant or, as the case may be, to the best interest of the other entity for which the individual acted as a director or officer or in a similar capacity at the Registrant's request and (ii) in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, the person had reasonable grounds for believing that the individual's conduct was lawful.

The Registrant maintains directors' and officers' liability insurance which insures directors and officers for losses as a result of claims against the directors and officers of the Registrant in their capacity as directors and officers and also reimburses the Registrant for payments made pursuant to the indemnity provisions under the by-laws of the Registrant and the *Business Corporations Act* (Ontario).

* * *

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act, and is therefore unenforceable.

(a) The Company covenants and agrees that the following provisions shall apply to conversion of Currency in the case of the Securities and this Indenture, to the fullest extent permitted by applicable law:

(i) If for the purposes of obtaining judgment in, or enforcing the judgment of, any court in any country, it becomes necessary to convert into a Currency (the "**Judgment Currency**") an amount due or contingently due in any other Currency under the Securities of any series and this Indenture (the "**Base Currency**"), then the conversion shall be made at the rate of exchange prevailing on the Business Day before the day on which the final judgment is given or the order of enforcement is made, as the case may be (unless a court shall otherwise determine).

(ii) If there is a change in the rate of exchange prevailing between the Business Day before the day on which the judgment referred to in (i) above is given or an order of enforcement is made, as the case may be (or such other date as a court shall determine), and the date of receipt of the amount due, the Company shall pay such additional (or, as the case may be, such lesser) amount, if any, as may be necessary so that the amount paid in the Judgment Currency when converted at the rate of exchange prevailing on the date of receipt will produce the amount in the Base Currency originally due.

(b) In the event of the winding-up of the Company at any time while any amount or damages owing under the Securities and this Indenture, or any judgment or order rendered in respect thereof, shall remain outstanding, the Company shall indemnify and hold the Holders and the Trustees harmless against any deficiency arising or resulting from any variation in rates of exchange between (1) the date as of which the equivalent of the amount in the Base Currency due or contingently due under the Securities and this Indenture (other than under this Subsection (b)) is calculated for the purposes of such winding-up and (2) the final date for the filing of proofs of claim in such winding-up. For the purpose of this Subsection (b) the final date for the filing of proofs of claim in the winding-up of the Company shall be the date fixed by the liquidator or otherwise in accordance with the relevant provisions of applicable law as being the latest practicable date as at which liabilities of the Company may be ascertained for such winding-up prior to payment by the liquidator or otherwise in respect thereto.

(c) The obligations contained in Subsections (a)(ii) and (b) of this Section 1.15 shall constitute separate and independent obligations of the Company from its other obligations under the Securities and this Indenture, shall give rise to separate and independent causes of action against the Company, shall apply irrespective of any waiver or extension granted by any Holder or the Trustees from time to time and shall continue in full force and effect notwithstanding any judgment or order or the filing of any proof of claim in the winding up of the Company for a liquidated sum in respect of amounts due hereunder (other than under Subsection (b) above) or under any such judgment or order. Any such deficiency as aforesaid shall be deemed to constitute a loss suffered by the Holders or the Trustees, as the case may be, and no proof or evidence of any actual loss shall be required by the Company or its liquidator. In the case of Subsection (b) above, the amount of such deficiency shall not be deemed to be increased or reduced by any variation in rates of exchange occurring between the said final date and the date of any liquidating distribution.

The term "**rate(s) of exchange**" shall mean the rate of exchange quoted by a Canadian chartered bank as may be designated in writing by the Company to the Trustees from time to time, at its central foreign exchange desk in its main office in Toronto at 12:00 noon (Toronto time) on the relevant date for purchases of the Base Currency with the Judgment Currency and includes any premiums and costs of exchange payable. The Trustees shall have no duty or liability with respect to monitoring or enforcing this Section 1.15.

SECTION 1.16 Currency Equivalent.

Except as otherwise provided in this Indenture, for purposes of the construction of the terms of this Indenture or of the Securities, in the event that any amount is stated herein in the Currency of one nation (the "**First Currency**"), as of any date such amount shall also be deemed to represent the amount in the Currency of any other relevant nation which is required to purchase such amount in the First Currency at the Bank of Canada daily average exchange rate as reported by Telerate on screen 3194 (or such other means of reporting the Bank of Canada daily average exchange rate as may be agreed upon by each of the parties to this Indenture) on the date of determination.

SECTION 1.17 Conflict with Trust Indenture Legislation.

If and to the extent that any provision of this Indenture limits, qualifies or conflicts with any mandatory requirement of Trust Indenture Legislation, such mandatory requirement shall control. If and to the extent that any provision hereof modifies or excludes any provision of Trust Indenture Legislation that may be so modified or excluded, the latter provision shall be deemed to apply hereof as so modified or to be excluded, as the case may be.

SECTION 1.18 Incorporators, Shareholders, Officers and Directors of the Company Exempt from Individual Liability.

No recourse under or upon any obligation, covenant or agreement contained in this Indenture, or in any Security, or because of any indebtedness evidenced thereby, shall be had against any incorporator, as such, or against any past, present or future shareholder, officer or director, as such, of the Company or of any successor, either directly or through the Company or any successor, under any rule of law, statute or constitutional provision or by the enforcement of any assessment or by any legal or equitable proceeding or otherwise, all such liability being expressly waived and released by the acceptance of the Securities by the Holders and as part of the consideration for the issue of the Securities.

SECTION 1.19 Waiver of Jury Trial.

Each of the Company and the Trustees hereby irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Indenture, the Securities or the transactions contemplated hereby.

SECTION 1.20 Counterparts.

This Indenture may be executed in any number of counterparts (either by facsimile or by original manual signature), each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Indenture.

SECTION 1.21 Force Majeure.

Except for the payment obligations of the Company contained herein, neither the Company nor the Trustees shall be liable to each other, or held in breach of this Indenture, if prevented, hindered, or delayed in the performance or observance of any provision contained herein by reason of act of God, riots, terrorism, acts of war, epidemics, governmental action or judicial order, earthquakes, or any other similar causes (including, but not limited to, mechanical, electronic or communication interruptions, disruptions or failures). Performance times under this Indenture shall be extended for a period of time equivalent to the time lost because of any delay that is excusable under this Section 1.21.

SECTION 2.03**Securities Issuable in Global Form.**

If Securities of or within a series are issuable in global form, as specified and contemplated by Section 3.01, then any such Security shall represent such of the Outstanding Securities of such series as shall be specified therein and may provide that it shall represent the aggregate amount of Outstanding Securities of such series from time to time endorsed thereon and that the aggregate amount of Outstanding Securities of such series represented thereby may from time to time be increased or decreased to reflect exchanges. Any endorsement of a Security in global form to reflect the amount, or any increase or decrease in the amount, of Outstanding Securities represented thereby shall be made by the Trustees in such manner and upon instructions given by the Holder or its nominee as shall be specified therein or in the Company Order to be delivered to the Trustees pursuant to Sections 3.03 or 3.04. Subject to the provisions of Sections 3.03 and 3.04 (if applicable), the Trustees shall deliver and redeliver any Security in global form in the manner and upon instructions given by the Holder or its nominee as shall be specified therein or in the applicable Company Order. Notwithstanding Section 3.09 and except as provided in the preceding paragraph, the Company, the Trustees and any agent of the Company and the Trustees shall treat as the Holder of such principal amount of Outstanding Securities represented by a permanent global Security, the Holder of such permanent global Security.

All Securities of any one series shall be substantially identical except as to denomination and except as may otherwise be provided in or pursuant to such Board Resolution (subject to Section 3.03) and set forth in such Officer's Certificate or in any such indenture supplemental hereto. Not all Securities of any one series need be issued at the same time, and, unless otherwise provided, a series may be reopened for issuances of additional Securities of such series.

If any of the terms of the series are established by action taken pursuant to one or more Board Resolutions, such Board Resolutions shall be delivered to the Trustees at or prior to the delivery of the Officer's Certificate setting forth the terms of the series.

SECTION 3.02 Denominations.

The Securities of each series shall be issuable in such denominations as shall be specified as contemplated by Section 3.01. With respect to Securities of any series denominated in Dollars, in the absence of any such provisions, the Securities of such series, other than Securities issued in global form (which may be of any denomination), shall be issuable in denominations of \$1,000 and any integral multiple thereof.

The Securities shall be executed on behalf of the Company by an Officer. The signature of an Officer on the Securities may be the manual or facsimile signatures of the present or any future such authorized officer and may be imprinted or otherwise reproduced on the Securities.

Securities bearing the manual or facsimile signatures of individuals who were at any time the proper officers of the Company shall bind the Company, notwithstanding that such individuals or any of them have ceased to hold such offices prior to the authentication and delivery of such Securities or did not hold such offices at the date of such Securities.

At any time and from time to time after the execution and delivery of this Indenture, the Company may deliver Securities of any series, executed by the Company to the applicable Trustee for authentication, together with a Company Order for the authentication and delivery of such Securities, and the applicable Trustee in accordance with such Company Order shall authenticate and deliver such Securities. If not all the Securities of any series are to be issued at one time and if the Board Resolution or supplemental indenture establishing such series shall so permit, such Company Order may set forth procedures acceptable to the Trustees for the issuance of such Securities and determining terms of particular Securities of such series such as interest rate, Stated Maturity, date of issuance and date from which interest shall accrue.

In authenticating such Securities, and accepting the additional responsibilities under this Indenture in relation to such Securities, the Trustees shall be entitled to receive, and (subject to Trust Indenture Legislation, including TIA Sections 315(a) through 315(d)) shall be fully protected in relying upon, an Opinion of Counsel stating:

- (a) that the form or forms of such Securities have been established in conformity with the provisions of this Indenture;
- (b) that the terms of such Securities have been established in conformity with the provisions of this Indenture;
- (c) that such Securities, when completed by appropriate insertions and executed and delivered by the Company to the applicable Trustee for authentication in accordance with this Indenture, authenticated and delivered by the applicable Trustee in accordance with this Indenture and issued by the Company in the manner and subject to any conditions specified in such Opinion of Counsel, will constitute the legal, valid and binding obligations of the Company, enforceable in accordance with their terms;
- (d) the execution and delivery by the Company of such Securities and any supplemental indenture will not contravene the articles of incorporation or continuance, or such other constating documents then in effect, if any, or the by-laws of the Company, or violate applicable laws; and
- (e) that the Company has the corporate power to issue such Securities, and has duly taken all necessary corporate action with respect to such issuance.

Notwithstanding the provisions of Section 3.01 and of the preceding two paragraphs, if not all the Securities of any series are to be issued at one time, it shall not be necessary to deliver the Officer's Certificate otherwise required pursuant to Section 3.01 or the Company Order and Opinion of Counsel otherwise required pursuant to the preceding two paragraphs prior to or at the time of issuance of each Security, if such documents are delivered prior to or at the time of issuance of the first Security of such series and with respect to all Securities of such series.

The Trustees shall not be required to authenticate and deliver any such Securities if the issue of such Securities pursuant to this Indenture will affect the Trustees' own rights, duties or immunities under the Securities and this Indenture or otherwise in a manner which is not reasonably acceptable to the Trustees.

Each Security shall be dated the date of its authentication.

No Security shall entitle a Holder to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Security a certificate of authentication substantially in the form provided for herein duly executed by the applicable Trustee by manual signature of an authorized officer thereof, and such certificate upon any Security shall be conclusive evidence, and the only evidence, that such Security has been duly authenticated and delivered hereunder and is entitled to the benefits of this Indenture. Notwithstanding the foregoing, if any Security shall have been authenticated and delivered hereunder but never issued and sold by the Company, and the Company shall deliver such Security to the Trustees for cancellation as provided in Section 3.10 together with a written statement (which need not comply with Section 1.03 and need not be accompanied by an Opinion of Counsel) stating that such Security has never been issued and sold by the Company, for all purposes of this Indenture such Security shall be deemed never to have been authenticated and delivered hereunder and shall never entitle a Holder to the benefits of this Indenture.

SECTION 3.04 Temporary Securities.

Pending the preparation of definitive Securities of any series, the Company may execute, and upon Company Order the applicable Trustee shall authenticate and deliver, temporary Securities which are printed, lithographed, typewritten, mimeographed or otherwise produced, in any authorized denomination, substantially of the tenor of the definitive Securities in lieu of which they are issued, in registered form, and with such appropriate insertions, omissions, substitutions and other variations as the Officer executing such Securities may determine, as conclusively evidenced by their execution of such Securities. Such temporary Securities may be in global form.

Except in the case of temporary Securities in global form (which shall be exchanged in accordance with the provisions of the following paragraphs), if temporary Securities of any series are issued, the Company will cause definitive Securities of that series to be prepared without unreasonable delay. After the preparation of definitive Securities of such series, the temporary Securities of such series shall be exchangeable for definitive Securities of such series upon surrender of the temporary Securities of such series at the office or agency of the Company in a Place of Payment for that series, without charge to the Holder. Upon surrender for cancellation of any one or more temporary Securities of any series, the Company shall execute and the applicable Trustee shall authenticate and deliver in exchange therefor a like principal amount of definitive Securities of the same series of authorized denominations and of like tenor and evidencing the same indebtedness. Until so exchanged the temporary Securities of any series shall in all respects be entitled to the same benefits under this Indenture as definitive Securities of such series.

If temporary Securities of any series are issued in global form, any such temporary global Security shall, unless otherwise provided therein, be delivered to the office of the Depositary for credit to the respective accounts of the beneficial owners of such Securities (or to such other accounts as they may direct).

Without unnecessary delay, but in any event not later than the date specified in, or determined pursuant to the terms of, any such temporary global Security (the "**Exchange Date**"), the Company shall deliver to the Trustees definitive Securities, in aggregate principal amount equal to the principal amount of such temporary global Security and of like tenor and evidencing the same indebtedness, executed by the Company. On or after the Exchange Date, such temporary global Security shall be surrendered by the Depositary to the Trustees, as the Company's agent for such purpose, to be exchanged, in whole or from time to time in part, for definitive Securities without charge and the applicable Trustee shall authenticate and deliver, in exchange for each portion of such temporary global Security, an equal aggregate principal amount of definitive Securities of the same series of authorized denominations and of like tenor and evidencing the same indebtedness as the portion of such temporary global Security to be exchanged. The definitive Securities to be delivered in exchange for any such temporary global Security shall be in registered form or permanent global registered form, or any combination thereof, as specified as contemplated by Section 3.01, and, if any combination thereof is so specified, as requested by the beneficial owner thereof; *provided, however*, that, unless otherwise specified in such temporary global Security, upon such presentation by the Depositary, such temporary global Security is accompanied by a certificate dated the Exchange Date or a subsequent date and signed by the Depositary as to the portion of such temporary global Security held for its account then to be exchanged and a certificate dated the Exchange Date or a subsequent date, each in the form set forth in Exhibit A-2 to this Indenture (or in such other form as may be established pursuant to Section 3.01).

Unless otherwise specified in such temporary global Security, the interest of a beneficial owner of Securities of a series in a temporary global Security shall be exchanged for definitive Securities of the same series and of like tenor and evidencing the same indebtedness following the Exchange Date when the account holder instructs the Depositary to request such exchange on his behalf and delivers to the Depositary a certificate in the form set forth in Exhibit A-1 to this Indenture (or in such other form as may be established pursuant to Section 3.01), dated no earlier than 15 days prior to the Exchange Date, copies of which certificate shall be available from the offices of the Depositary, the Trustees, any Authenticating Agent appointed for such series of Securities and each Paying Agent. Unless otherwise specified in such temporary global Security, any such exchange shall be made free of charge to the beneficial owners of such temporary global Security, except that a Person receiving definitive Securities must bear the cost of insurance, postage, transportation and the like in the event that such Person does not take delivery of such definitive Securities in person at the offices of the Depositary.

Until exchanged in full as hereinabove provided, the temporary Securities of any series shall in all respects be entitled to the same benefits under this Indenture as definitive Securities of the same series and of like tenor and evidencing the same indebtedness authenticated and delivered hereunder, except that, unless otherwise specified as contemplated by Section 3.01, interest payable on a temporary global Security on an Interest Payment Date for Securities of such series occurring prior to the applicable Exchange Date shall be payable to the Depositary on such Interest Payment Date upon delivery by the Depositary to the Trustees of a certificate or certificates in the form set forth in Exhibit A-2 to this Indenture (or in such other form as may be established pursuant to Section 3.01), for credit without further interest thereon on or after such Interest Payment Date to the respective accounts of the Persons who are the beneficial owners of such temporary global Security on such Interest Payment Date and who have each delivered to the Depositary a certificate dated no earlier than 15 days prior to the Interest Payment Date occurring prior to such Exchange Date in the form set forth in Exhibit A-1 to this Indenture (or in such other form as may be established pursuant to Section 3.01). Notwithstanding anything to the contrary herein contained, the certifications made pursuant to this paragraph shall satisfy the certification requirements of the preceding two paragraphs of this Section 3.04 and of the third paragraph of Section 3.03 and the interests of the Persons who are the beneficial owners of the temporary global Security with respect to which such certification was made will be exchanged for definitive Securities of the same series and of like tenor and evidencing the same indebtedness on the Exchange Date or the date of certification if such date occurs after the Exchange Date, without further act or deed by such beneficial owners. Except as otherwise provided in this paragraph, no payments of principal of, premium (if any) or interest (if any) owing with respect to a beneficial interest in a temporary global Security will be made unless and until such interest in such temporary global Security shall have been exchanged for an interest in a definitive Security. Any interest so received by the Depositary and not paid as herein provided shall be returned to the Trustees immediately prior to the expiration of two years after such Interest Payment Date in order to be repaid to the Company in accordance with Section 10.03.

So long as required by Trust Indenture Legislation, the Company shall cause to be kept at the Corporate Trust Offices of the applicable Trustee a register for each series of Securities (the registers maintained in the Corporate Trust Offices of the Trustees and in any other office or agency of the Company in a Place of Payment being herein sometimes collectively referred to as the "**Security Register**") in which, subject to such reasonable regulations as it may prescribe, the Company shall provide for the registration of the Holders of Securities and of transfers of Securities. The Security Register shall be in written form or any other form capable of being converted into written form within a reasonable time. At all reasonable times, the Security Register shall be open to inspection by the Trustees. The Trustees are hereby initially appointed as security registrar (the "Security Registrar") for the purpose of registering Securities and transfers of Securities as herein provided. The Company shall have the right to remove and replace from time to time the Security Registrar for any series of Securities; provided, however, that, no such removal or replacement shall be effective until a successor Security Registrar with respect to such series of Securities shall have been appointed by the Company and shall have accepted such appointment by the Company. In the event that the Trustees shall not be or shall cease to be the Securities Registrar with respect to a series of Securities, they shall have the right to examine the Security Register for such series at all reasonable times. There shall be only one Securities Register for such series of Securities.

Upon surrender for registration of transfer of any Security of any series at the office or agency in a Place of Payment for that series, the Company shall execute, and the applicable Trustee shall authenticate and deliver, in the name of the designated transferee, one or more new Securities of the same series, of any authorized denominations and of a like aggregate principal amount and tenor and evidencing the same indebtedness.

For Canadian Securities, the Security must be duly endorsed for transfer or in a duly endorsed transferable form as applicable and must comply with the current industry practice in accordance with the Securities Transfer Association of Canada.

At the option of the Holder, Securities of any series may be exchanged for other Securities of the same series, of any authorized denomination and of a like aggregate principal amount and tenor and evidencing the same indebtedness, upon surrender of the Securities to be exchanged at such office or agency. Whenever any Securities are so surrendered for exchange, the Company shall execute, and the applicable Trustee shall authenticate and deliver, the Securities which the Holder making the exchange is entitled to receive.

Whenever any Securities are so surrendered for exchange, the Company shall execute, and the applicable Trustee shall authenticate and deliver, the Securities which the Holder making the exchange is entitled to receive.

Notwithstanding the foregoing, except as otherwise specified as contemplated by Section 3.01, any permanent global Security shall be exchangeable only as provided in this Section. If any beneficial owner of an interest in a permanent global Security is entitled to exchange such interest for Securities of such series and of like tenor and principal amount of another authorized form and denomination, as contemplated by Section 3.01 and provided that any applicable notice provided in the permanent global Security shall have been given to the Company, the Trustees and the Depositary, then without unnecessary delay but in any event not later than the earliest date on which such interest may be so exchanged, the Company shall deliver to the applicable Trustee definitive Securities in aggregate principal amount equal to the principal amount of such beneficial owner's interest in such permanent global Security, executed by the Company. On or after the earliest date on which such interests may be so exchanged, such permanent global Security shall be surrendered by the Depositary or such other depositary as shall be specified in the Company Order with respect thereto to the applicable Trustee, as the Company's agent for such purpose, to be exchanged in whole or from time to time in part, for definitive Securities without charge, and the applicable Trustee shall authenticate and deliver, in exchange for each portion of such permanent global Security, an equal aggregate principal amount of definitive Securities of the same series of authorized denominations and of like tenor as the portion of such permanent global Security to be exchanged. If a Security is issued in exchange for any portion of a permanent global Security after the close of business at the office or agency where such exchange occurs on (i) any Regular Record Date and before the opening of business at such office or agency on the relevant Interest Payment Date, or (ii) any Special Record Date and before the opening of business at such office or agency on the related proposed date for payment of Defaulted Interest, interest or Defaulted Interest, as the case may be, will not be payable on such Interest Payment Date or proposed date for payment, as the case may be, in respect of such Security, but will be payable on such Interest Payment Date or proposed date for payment, as the case may be, only to the Person to whom interest in respect of such portion of such permanent global Security is payable in accordance with the provisions of this Indenture.

Transfers of global Securities shall be limited to transfers in whole, but not in part, to the Depositary, its successors or their respective nominees. If at any time the Depositary for Securities of a series notifies the Company that it is unwilling, unable or no longer qualifies to continue as Depositary for Securities of such series or if at any time the Depositary for such series shall no longer be registered or in good standing under the Exchange Act, or other applicable statute or regulation, the Company shall appoint a successor Depositary for the Securities of such series. If a successor to the Depositary for Securities of such series is not appointed by the Company within 90 days after the Company receives such notice or becomes aware of such condition, as the case may be, the Company's election pursuant to Section 3.01 shall no longer be effective with respect to the Securities for such series and the Company will execute, and the applicable Trustee, upon receipt of a Company Order for the authentication and delivery of definitive Securities of such series, will authenticate and deliver Securities of such series in definitive form, in authorized denominations, and in an aggregate principal amount equal to the principal amount of the global Security or Securities representing such series and evidencing the same indebtedness in exchange for such global Security or Securities.

The Company may at any time and in its sole discretion determine that the Securities of any series issued in the form of one or more global Securities shall no longer be represented by such global Security or Securities. In such event the Company will execute, and the applicable Trustee, upon receipt of a Company Order for the authentication and delivery of definitive Securities of such series, will authenticate and deliver Securities of such series in definitive form, in authorized denominations, and in an aggregate principal amount equal to the principal amount of the global Security or Securities representing such series and evidencing the same indebtedness in exchange for such global Security or Securities.

Upon the exchange of a global Security for Securities in definitive form, such global Security shall be cancelled by the applicable Trustee. Securities issued in exchange for a global Security pursuant to this Section 3.05 shall be registered in such names and in such authorized denominations as the Depositary for such global Security, pursuant to instructions from its direct or indirect participants or otherwise, shall instruct the applicable Trustee in writing. The applicable Trustee shall deliver such Securities to the Persons in whose names such Securities are so registered.

All Securities issued upon any registration of transfer or exchange of Securities shall be the valid obligations of the Company, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Securities surrendered upon such registration of transfer or exchange.

Every Security presented or surrendered for registration of transfer or for exchange shall (if so required by the Company or the Security Registrar or applicable securities transfer industry practices) be duly endorsed, or be accompanied by a written instrument of transfer, in form satisfactory to the Company and the Security Registrar, duly executed by the Holder thereof or his attorney duly authorized in writing.

Any registration of transfer or exchange of Securities may be subject to service charges by the Securities Registrar and the Company may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Securities, other than exchanges pursuant to Section 3.04, 9.06, 11.07 or 13.05 not involving any transfer.

The Company shall not be required (i) to issue, register the transfer of or exchange Securities of any series in definitive form during a period beginning at the opening of business 15 days before the day of the selection for redemption of Securities of that series under Section 11.03 or 12.03 and ending at the close of business on the day of the mailing of the relevant notice of redemption or (ii) to register the transfer of or exchange any Security in definitive form so selected for redemption in whole or in part, except the unredeemed portion of any Security being redeemed in part, or (iii) to issue, register the transfer of or exchange any Security in definitive form which has been surrendered for repayment at the option of the Holder, except the portion, if any, of such Security not to be so repaid.

SECTION 3.06 Mutilated, Destroyed, Lost and Stolen Securities.

If any mutilated Security is surrendered to the applicable Trustee, the Company shall execute and the applicable Trustee shall authenticate and deliver in exchange therefor a new Security of the same series and of like tenor and principal amount and evidencing the same indebtedness and bearing a number not contemporaneously outstanding, or, in case any such mutilated Security has become or is about to become due and payable, the Company in its discretion may, instead of issuing a new Security, , pay such Security. If there shall be delivered to the Company and to the Trustees (i) evidence to their satisfaction of the destruction, loss or theft of any Security and (ii) such security (or surety in the case of the Canadian Trustee) or indemnity as may be required by them to save each of them and any agent of either of them harmless, then, in the absence of notice to the Company or the Trustees that such Security has been acquired by a bona fide purchaser , the Company shall execute and upon Company Order the applicable Trustee shall authenticate and deliver, in lieu of any such destroyed, lost or stolen Security, a new Security of the same series and of like tenor and principal amount and evidencing the same indebtedness and bearing a number not contemporaneously outstanding.

Notwithstanding the provisions of the previous two paragraphs, in case any such mutilated, destroyed, lost or stolen Security has become or is about to become due and payable, the Company in its discretion may, instead of issuing a new Security appertaining to such mutilated, destroyed, lost or stolen Security, pay such Security.

Upon the issuance of any new Security under this Section 3.06, the Company may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustees) connected therewith.

Every new Security of any series issued pursuant to this Section 3.06 in lieu of any mutilated, destroyed, lost or stolen Security, shall constitute an original additional contractual obligation of the Company, whether or not the mutilated, destroyed, lost or stolen Security shall be at any time enforceable by anyone, and the Holders of such Security shall be entitled to all the benefits of this Indenture equally and proportionately with the Holders of any and all other Securities of that series duly issued hereunder.

The provisions of this Section 3.06 as amended or supplemented pursuant to this Indenture with respect to a particular series of Securities or generally are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Securities.

SECTION 3.07 Payment of Principal, Premium and Interest; Interest Rights Preserved; Optional Interest Reset.

(a) Unless otherwise provided as contemplated by Section 3.01 with respect to any series of Securities, interest (if any) on any Security which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid by the Paying Agent to the Person in whose name such Security (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest at the office or agency of the Company maintained for such purpose pursuant to Section 10.02; *provided, however*, that each installment of interest (if any) on any Security may at the Company's option be paid by (i) mailing a check for such interest, payable to or upon the written order of the Person entitled thereto pursuant to Section 3.09, to the address of such Person as it appears on the Security Register, (ii) wire transfer to an account located in the United States maintained by the Person entitled to such payment as specified in the Security Register, or (iii) as otherwise specified pursuant to Section 3.01 for the Securities of such series. Unless otherwise provided as contemplated by Section 3.01 with respect to any series of Securities, principal and premium (if any) paid in relation to any Security shall be paid to the Holder of such Security only upon presentation and surrender of such Security at the office or agency of the Company maintained for such purpose pursuant to Section 10.02.

Unless otherwise provided as contemplated by Section 3.01, every permanent global Security will provide that interest (if any) payable on any Interest Payment Date will be paid to the Depositary with respect to that portion of such permanent global Security held for its account by the Depositary, for the purpose of permitting the Depositary to credit the interest (if any) received by it in respect of such permanent global Security to the accounts of the beneficial owners thereof.

Any interest on any Security of any series which is payable, but is not punctually paid or duly provided for, on any Interest Payment Date shall forthwith cease to be payable to the Holder on the relevant Regular Record Date by virtue of having been such Holder, and such defaulted interest and, if applicable, interest on such defaulted interest (to the extent lawful) at the rate specified in the Securities of such series (such defaulted interest and, if applicable, interest thereon herein collectively called "**Defaulted Interest**") must be paid by the Company as provided for in either clause (1) or (2), at the Company's election:

- (1) The Company may elect to make payment of any Defaulted Interest to the Persons in whose names the Securities of such series (or their respective Predecessor Securities) are registered at the close of business on a Special Record Date for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Company shall notify the Trustees in writing of the amount of Defaulted Interest proposed to be paid on each Security of such series and the date of the proposed payment, and at the same time the Company shall deposit with the applicable Trustee an amount of money in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Trustees for such deposit on or prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as in this clause provided. Thereupon the Trustees shall fix a Special Record Date for the payment of such Defaulted Interest which shall be not more than 15 days and not less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Trustees of the notice of the proposed payment. The Trustees shall promptly notify the Company of such Special Record Date and, in the name and at the expense of the Company, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be given in the manner provided in Section 1.07, not less than 10 days prior to such Special Record Date. Notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor having been so given, such Defaulted Interest shall be paid to the Persons in whose name the Securities of such series (or their respective Predecessor Securities) are registered at the close of business on such Special Record Date and shall no longer be payable pursuant to the following clause (2).
- (2) The Company may make payment of any Defaulted Interest on the Securities of any series in any other lawful manner not inconsistent with the requirements of any securities exchange on which such Securities may be listed, and, upon such notice as may be required by such exchange, if, after notice given by the Company to the Trustees of the proposed payment pursuant to this clause, such manner of payment shall be deemed practicable by the Trustees.
- (b) The provisions of this Section 307(b) may be made applicable to any series of Securities pursuant to Section 3.01 (with such modifications, additions or substitutions as may be specified pursuant to such Section 3.01). The interest rate (or the spread or spread multiplier used to calculate such interest rate, if applicable) on any Security of such series may be reset by the Company on the date or dates specified on the face of such Security (each an "**Optional Reset Date**"). The Company may exercise such option with respect to such Security by notifying the Trustees of such exercise at least 50 but not more than 60 days prior to an Optional Reset Date for such Security. Not later than 40 days prior to each Optional Reset Date, the Trustees shall transmit, in the manner provided for in Section 1.07, to the Holder of any such Security a notice (the "**Reset Notice**") indicating whether the Company has elected to reset the interest rate (or the spread or spread multiplier used to calculate such interest rate, if applicable), and if so (i) such new interest rate (or such new spread or spread multiplier, if applicable) and (ii) the provisions, if any, for redemption during the period from such Optional Reset Date to the next Optional Reset Date or if there is no such next Optional Reset Date, to the Stated Maturity of such Security (each such period a "**Subsequent Interest Period**"), including the date or dates on which or the period or periods during which and the price or prices at which such redemption may occur during the Subsequent Interest Period.

Notwithstanding the foregoing, not later than 20 days prior to the Optional Reset Date, the Company may, at its option, revoke the interest rate (or the spread or spread multiplier used to calculate such interest rate, if applicable) provided for in the Reset Notice and establish an interest rate (or the spread or spread multiplier, if applicable) that is higher than the interest rate (or the spread or spread multiplier, if applicable) provided for in the Reset Notice, for the Subsequent Interest Period by causing the Trustees to transmit, in the manner provided for in Section 1.07, notice of such higher interest rate (or such higher spread or spread multiplier, if applicable) to the Holder of such Security. Such notice shall be irrevocable. All Securities with respect to which the interest rate (or the spread or spread multiplier used to calculate such interest rate, if applicable) is reset on an Optional Reset Date, and with respect to which the Holders of such Securities have not tendered such Securities for repayment (or have validly revoked any such tender) pursuant to the next succeeding paragraph, will bear such higher interest rate (or such higher spread or spread multiplier, if applicable).

The Holder of any such Security will have the option to elect repayment by the Company of the principal of such Security on each Optional Reset Date at a price equal to the principal amount thereof plus interest accrued to such Optional Reset Date. In order to obtain repayment on an Optional Reset Date, the Holder must follow the procedures set forth in Article Thirteen for repayment at the option of Holders except that the period for delivery or notification to the Trustees shall be at least 25 but not more than 35 days prior to such Optional Reset Date and except that, if the Holder has tendered any Security for repayment pursuant to the Reset Notice, the Holder may, by written notice to the Trustees, revoke such tender or repayment until the close of business on the tenth day before such Optional Reset Date.

Subject to the foregoing provisions of this Section 3.07 and Section 3.05, each Security delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Security shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Security.

SECTION 3.08 Optional Extension of Stated Maturity.

The provisions of this Section 3.08 may be made applicable to any series of Securities pursuant to Section 3.01 (with such modifications, additions or substitutions as may be specified pursuant to such Section 3.01). The Stated Maturity of any Security of such series may be extended at the option of the Company for the period or periods specified on the face of such Security (each an "**Extension Period**") up to but not beyond the date (the "**Final Maturity**") set forth on the face of such Security. The Company may exercise such option with respect to any Security by notifying the Trustees of such exercise at least 50 but not more than 60 days prior to the Stated Maturity of such Security in effect prior to the exercise of such option (the "**Original Stated Maturity**"). If the Company exercises such option, the Trustees shall transmit, in the manner provided for in Section 1.07, to the Holder of such Security not later than 40 days prior to the Original Stated Maturity a notice (the "**Extension Notice**") indicating (i) the election of the Company to extend the Stated Maturity, (ii) the new Stated Maturity, (iii) the interest rate (if any) applicable to the Extension Period and (iv) the provisions, if any, for redemption during such Extension Period. Upon the Trustees' transmittal of the Extension Notice, the Stated Maturity of such Security shall be extended automatically and, except as modified by the Extension Notice and as described in the next paragraph, such Security will have the same terms as prior to the transmittal of such Extension Notice.

Notwithstanding the foregoing, not later than 20 days before the Original Stated Maturity of such Security, the Company may, at its option, revoke the interest rate provided for in the Extension Notice and establish a higher interest rate for the Extension Period by causing the Trustees to transmit, in the manner provided for in Section 1.07, notice of such higher interest rate to the Holder of such Security. Such notice shall be irrevocable. All Securities with respect to which the Stated Maturity is extended will bear such higher interest rate.

If the Company extends the Maturity of any Security, the Holder will have the option to elect repayment of such Security by the Company on the Original Stated Maturity at a price equal to the principal amount thereof, plus interest accrued to such date. In order to obtain repayment on the Original Stated Maturity once the Company has extended the Maturity thereof, the Holder must follow the procedures set forth in Article Thirteen for repayment at the option of Holders, except that the period for delivery or notification to the Trustees shall be at least 25 but not more than 35 days prior to the Original Stated Maturity and except that, if the Holder has tendered any Security for repayment pursuant to an Extension Notice, the Holder may by written notice to the Trustees revoke such tender for repayment until the close of business on the tenth day before the Original Stated Maturity.

SECTION 3.09 Persons Deemed Owners.

Prior to due presentment of a Security for registration of transfer, the Company, the Trustees and any agent of the Company or the Trustees may treat the Person in whose name such Security is registered as the owner of such Security for the purpose of receiving payment of principal of, premium (if any) and (subject to Sections 3.05 and 3.07) interest (if any) on such Security and for all other purposes whatsoever, whether or not such Security be overdue, and none of the Company, the Trustees or any agent of the Company or the Trustees shall be affected by notice to the contrary.

The Depositary for Securities may be treated by the Company, the Trustees, and any agent of the Company or the Trustees as the owner of such global Security for all purposes whatsoever. None of the Company, the Trustees, any Paying Agent or the Security Registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of a Security in global form or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Notwithstanding the foregoing, with respect to any global Security, nothing herein shall prevent the Company, the Trustees, or any agent of the Company or the Trustees, from giving effect to any written certification, proxy or other authorization furnished by any Depositary, as a Holder, with respect to such global Security or impair, as between such Depositary and owners of beneficial interests in such global Security, the operation of customary practices governing the exercise of the rights of such Depositary (or its nominee) as Holder of such global Security.

SECTION 3.10 Cancellation.

All Securities surrendered for payment, redemption, repayment at the option of the Holder, registration of transfer or exchange or for credit against any current or future sinking fund payment shall, if surrendered to any Person other than a Trustee, be delivered to either Trustee. All Securities so delivered to either Trustee shall be promptly cancelled by such Trustee. The Company may at any time deliver to a Trustee for cancellation any Securities previously authenticated and delivered hereunder which the Company may have acquired in any manner whatsoever, and may deliver to either Trustee (or to any other Person for delivery to such Trustee) for cancellation any Securities previously authenticated hereunder which the Company has not issued and sold, and all Securities so delivered shall be promptly cancelled by such Trustee. If the Company shall so acquire any of the Securities, however, such acquisition shall not operate as a redemption or satisfaction of the indebtedness represented by such Securities unless and until the same are surrendered to either Trustee for cancellation. No Securities shall be authenticated in lieu of or in exchange for any Securities cancelled as provided in this Section 3.10, except as expressly permitted by this Indenture. All cancelled Securities held by either Trustee shall be disposed of by such Trustee in accordance with its customary procedures and certification of their disposal delivered to the Company unless by Company Order the Company shall direct that cancelled Securities be returned to it.

SECTION 3.11

Computation of Interest.

Except as otherwise specified as contemplated by Section 3.01 with respect to any Securities, interest (if any) on the Securities of each series shall be computed on the basis of a 360-day year of twelve 30-day months. For the purposes of disclosure under the Interest Act (Canada), the yearly rate of interest to which interest calculated under a Security for any period in any calendar year (the "**calculation period**") is equivalent, is the rate payable under a Security in respect of the calculation period multiplied by a fraction the numerator of which is the actual number of days in such calendar year and the denominator of which is the actual number of days in the calculation period.

SECTION 3.12

Currency and Manner of Payments in Respect of Securities.

(a) With respect to Securities of any series not permitting the election provided for in paragraph (b) below or the Holders of which have not made the election provided for in paragraph (b) below, payment of the principal of, premium (if any) and interest (if any) on such Security of such series will be made in the Currency in which such Security is payable. The provisions of this Section 3.12 may be modified or superseded with respect to any Securities pursuant to Section 3.01.

(b) It may be provided pursuant to Section 3.01 with respect to Securities of any series that Holders shall have the option, subject to paragraphs (d) and (e) below, to receive payments of principal of, premium (if any) or interest (if any) on such Securities in any of the Currencies which may be designated for such election by delivering to the Trustees a written election with signature guarantees and in the applicable form established pursuant to Section 3.01, not later than the close of business on the Election Date immediately preceding the applicable payment date. If a Holder so elects to receive such payments in any such Currency, such election will remain in effect for such Holder or any transferee of such Holder until changed by such Holder or such transferee by written notice to the Trustees (but any such change must be made not later than the close of business on the Election Date immediately preceding the next payment date to be effective for the payment to be made on such payment date and no such change of election may be made with respect to payments to be made on any Security of such series with respect to which an Event of Default has occurred or with respect to which the Company has deposited funds pursuant to Article Four or Fourteen or with respect to which a notice of redemption has been given by the Company or a notice of option to elect repayment has been sent by such Holder or such transferee). Any Holder of any such Security who shall not have delivered any such election to the Trustees not later than the close of business on the applicable Election Date will be paid the amount due on the applicable payment date in the relevant Currency as provided in Section 3.12(a). The Trustees shall notify the Exchange Rate Agent as soon as practicable after the Election Date of the aggregate principal amount of Securities for which Holders have made such written election.

(c) Unless otherwise specified pursuant to Section 3.01, if the election referred to in paragraph (b) above has been provided for pursuant to Section 3.01, then, unless otherwise specified pursuant to Section 3.01, not later than the fourth Business Day after the Election Date for each payment date for Securities of any series, the Exchange Rate Agent will deliver to the Company a written notice specifying, in the Currency in which Securities of such series are payable, the respective aggregate amounts of principal of, premium (if any) and interest (if any) on the Securities to be paid on such payment date, specifying the amounts in such Currency so payable in respect of the Securities as to which the Holders of Securities of such series shall have elected to be paid in another Currency as provided in paragraph (b) above. If the election referred to in paragraph (b) above has been provided for pursuant to Section 3.01 and if at least one Holder has made such election, then, unless otherwise specified pursuant to Section 3.01, on the second Business Day preceding such payment date the Company will deliver to the Trustees for such series of Securities an Exchange Rate Officer's Certificate in respect of the Dollar or Foreign Currency payments to be made on such payment date. Unless otherwise specified pursuant to Section 3.01, the Dollar or Foreign Currency amount receivable by Holders of Securities who have elected payment in a Currency as provided in paragraph (b) above shall be determined by the Company on the basis of the applicable Market Exchange Rate in effect on the third Business Day (the "**Valuation Date**") immediately preceding each payment date, and such determination shall be conclusive and binding for all purposes, absent manifest error.

(d) If a Conversion Event occurs with respect to a Foreign Currency in which any of the Securities are denominated or payable other than pursuant to an election provided for pursuant to paragraph (b) above, then, with respect to each date for the payment of principal of, premium (if any) and interest (if any) on the applicable Securities denominated or payable in such Foreign Currency occurring after the last date on which such Foreign Currency was used (the "**Conversion Date**"), the Dollar shall be the Currency of payment for use on each such payment date. Unless otherwise specified pursuant to Section 3.01, the Dollar amount to be paid by the Company to the Trustees and by the Trustees or any Paying Agent to the Holders of such Securities with respect to such payment date shall be, in the case of a Foreign Currency other than a Currency unit, the Dollar Equivalent of the Foreign Currency or, in the case of a Currency unit, the Dollar Equivalent of the Currency Unit, in each case as determined by the Exchange Rate Agent in the manner provided in paragraph (f) or (g) below.

(e) Unless otherwise specified pursuant to Section 3.01, if the Holder of a Security denominated in any Currency shall have elected to be paid in another Currency as provided in paragraph (b) above, and a Conversion Event occurs with respect to such elected Currency, such Holder shall receive payment in the Currency in which payment would have been made in the absence of such election; and if a Conversion Event occurs with respect to the Currency in which payment would have been made in the absence of such election, such Holder shall receive payment in Dollars as provided in paragraph (d) above.

(f) The "**Dollar Equivalent of the Foreign Currency**" shall be determined by the Exchange Rate Agent and shall be obtained for each subsequent payment date by converting the specified Foreign Currency into Dollars at the Market Exchange Rate on the Conversion Date.

(g) The "**Dollar Equivalent of the Currency Unit**" shall be determined by the Exchange Rate Agent and subject to the provisions of paragraph (h) below shall be the sum of each amount obtained by converting the Specified Amount of each Component Currency into Dollars at the Market Exchange Rate for such Component Currency on the Valuation Date with respect to each payment.

(h) For purposes of this Section 3.12 the following terms shall have the following meanings:

A "**Component Currency**" shall mean any Currency which, on the Conversion Date, was a component currency of the relevant Currency unit, including, but not limited to, the Euro.

A "**Specified Amount**" of a Component Currency shall mean the number of units of such Component Currency or fractions thereof which were represented in the relevant Currency unit, including, but not limited to, the Euro, on the Conversion Date. If after the Conversion Date the official unit of any Component Currency is altered by way of combination or subdivision, the Specified Amount of such Component Currency shall be divided or multiplied in the same proportion. If after the Conversion Date two or more Component Currencies are consolidated into a single currency, the respective Specified Amounts of such Component Currencies shall be replaced by an amount in such single Currency equal to the sum of the respective Specified Amounts of such consolidated Component Currencies expressed in such single Currency, and such amount shall thereafter be a Specified Amount and such single Currency shall thereafter be a Component Currency. If after the Conversion Date any Component Currency shall be divided into two or more currencies, the Specified Amount of such Component Currency shall be replaced by amounts of such two or more currencies, having an aggregate Dollar Equivalent value at the Market Exchange Rate on the date of such replacement equal to the Dollar Equivalent value of the Specified Amount of such former Component Currency at the Market Exchange Rate immediately before such division and such amounts shall thereafter be Specified Amounts and such currencies shall thereafter be Component Currencies. If, after the Conversion Date of the relevant Currency unit, including, but not limited to, the Euro, a Conversion Event (other than any event referred to above in this definition of "**Specified Amount**") occurs with respect to any Component Currency of such Currency unit and is continuing on the applicable Valuation Date, the Specified Amount of such Component Currency shall, for purposes of calculating the Dollar Equivalent of the Currency Unit, be converted into Dollars at the Market Exchange Rate in effect on the Conversion Date of such Component Currency.

"Election Date" shall mean the date for any series of Securities as specified pursuant to clause (15) of Section 3.01 by which the written election referred to in paragraph (b) above may be made.

All decisions and determinations of the Exchange Rate Agent regarding the Dollar Equivalent of the Foreign Currency, the Dollar Equivalent of the Currency Unit, the Market Exchange Rate and changes in the Specified Amounts as specified above shall be in its sole discretion and shall, in the absence of manifest error, be conclusive for all purposes and irrevocably binding upon the Company, the Trustees and all Holders of such Securities denominated or payable in the relevant Currency. The Exchange Rate Agent shall promptly give written notice to the Company and the Trustees of any such decision or determination.

In the event that the Company determines in good faith that a Conversion Event has occurred with respect to a Foreign Currency, the Company will immediately give written notice thereof to the Trustees and to the Exchange Rate Agent (and the Trustees will promptly thereafter give notice in the manner provided for in Section 1.07 to the affected Holders) specifying the Conversion Date. In the event the Company so determines that a Conversion Event has occurred with respect to the Euro or any other Currency unit in which Securities are denominated or payable, the Company will immediately give written notice thereof to the Trustees and to the Exchange Rate Agent (and the Trustees will promptly thereafter give notice in the manner provided for in Section 1.07 to the affected Holders) specifying the Conversion Date and the Specified Amount of each Component Currency on the Conversion Date. In the event the Company determines in good faith that any subsequent change in any Component Currency as set forth in the definition of Specified Amount above has occurred, the Company will similarly give written notice to the Trustees and the Exchange Rate Agent.

The Trustees shall be fully justified and protected in relying and acting upon information received by it from the Company and the Exchange Rate Agent and shall not otherwise have any duty or obligation to determine the accuracy or validity of such information independent of the Company or the Exchange Rate Agent.

SECTION 3.13**Appointment and Resignation of Successor Exchange Rate Agent.**

(a) Unless otherwise specified pursuant to Section 3.01, if and so long as the Securities of any series (i) are denominated in a Currency other than Dollars or (ii) may be payable in a Currency other than Dollars, or so long as it is required under any other provision of this Indenture, then the Company will maintain with respect to each such series of Securities, or as so required, at least one Exchange Rate Agent. The Company will cause the Exchange Rate Agent to make the necessary foreign exchange determinations at the time and in the manner specified pursuant to Section 3.01 for the purpose of determining the applicable rate of exchange and, if applicable, for the purpose of converting the issued Currency into the applicable payment Currency for the payment of principal, premium (if any) and interest (if any) pursuant to Section 3.12.

(b) The Company shall have the right to remove and replace from time to time the Exchange Rate Agent for any series of Securities. No resignation of the Exchange Rate Agent and no appointment of a successor Exchange Rate Agent pursuant to this Section 3.13 shall become effective until the acceptance of appointment by the successor Exchange Rate Agent as evidenced by a written instrument delivered to the Company and the Trustees.

(c) If the Exchange Rate Agent shall resign, be removed or become incapable of acting, or if a vacancy shall occur in the office of the Exchange Rate Agent for any cause with respect to the Securities of one or more series, the Company, by or pursuant to a Board Resolution, shall promptly appoint a successor Exchange Rate Agent or Exchange Rate Agents with respect to the Securities of that or those series (it being understood that any such successor Exchange Rate Agent may be appointed with respect to the Securities of one or more or all of such series and that, unless otherwise specified pursuant to Section 3.01, at any time there shall only be one Exchange Rate Agent with respect to the Securities of any particular series that are originally issued by the Company on the same date and that are initially denominated and/or payable in the same Currency).

ARTICLE FOUR
SATISFACTION AND DISCHARGE

SECTION 4.01**Satisfaction and Discharge of Indenture.**

This Indenture shall upon Company Request cease to be of further effect with respect to any series of Securities specified in such Company Request (except as to any surviving rights of registration of transfer or exchange of Securities of such series expressly provided for herein or pursuant hereto and the rights of Holders of such series of Securities to receive, solely from the trust fund described in subclause (b) of clause (1) of this Section 4.01, payments in respect of the principal of, premium (if any) and interest (if any) on such Securities when such payments are due and except as provided in the last paragraph of this Section 4.01) and the Trustees, at the expense of the Company, shall execute proper instruments acknowledging satisfaction and discharge of this Indenture as to such series when

- (1) default in the payment of any interest due on any Security of that series, when such interest becomes due and payable, and continuance of such default for a period of 30 days; or
- (2) default in the payment of the principal or premium (if any) in respect of any Security of that series at its Maturity; or
- (3) default in the deposit of any sinking fund, amortization or analogous payment when due by the terms of any Security of that series and Article Twelve; or
- (4) default in the performance, or breach, of any covenant or agreement of the Company in this Indenture which affects or is applicable to the Securities of that series (other than a covenant or agreement, a default in whose performance or whose breach is elsewhere in this Section 5.01 specifically dealt with), and continuance of such default or breach for a period of 60 days after there has been given (and 120 days with respect to a default or breach under Section 7.05), by registered or certified mail, to the Company by the Trustees or to the Company and the Trustees by the Holders of at least 25% in principal amount of all Outstanding Securities of that series a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a "Notice of Default" hereunder; or
- (5) the entry of a decree or order by a court having jurisdiction in the premises adjudging the Company bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Company under or subject to the Bankruptcy and Insolvency Act (Canada), the Companies' Creditors Arrangement Act (Canada), the U.S. Federal Bankruptcy Code or any other federal, provincial, state or foreign bankruptcy, insolvency or analogous laws, or the issuance of a sequestration order or the (appointment of a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of the Company or in receipt of any substantial part of the property of the Company, and any such decree, order or appointment continues unstayed and in effect for a period of 90 consecutive days; or

- (7) any other Event of Default provided with respect to Securities of that series.

SECTION 5.02 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default described in clause (1), (2), (3), (4) or (7) of Section 5.01 with respect to Securities of any series at the time Outstanding occurs and is continuing, then in every such case, either Trustee or the Holders of not less than 25% in principal amount of the Outstanding Securities of that series, may declare the principal amount (or, if the Securities of that series are Original Issue Discount Securities or Indexed Securities, such portion of the principal amount as may be specified in the terms of that series) of all of the Securities of that series and all interest thereon to be due and payable immediately, by a notice in writing to the Company (and to the Trustees if given by Holders), and upon any such declaration such principal amount (or specified portion thereof) shall become immediately due and payable. If an Event of Default specified in clause (5) or (6) of Section 5.01 occurs and is continuing, then the principal amount of all the Securities shall ipso facto become and be immediately due and payable without any declaration or other act on the part of the Trustees or any Holder.

At any time after such a declaration of acceleration with respect to Securities of any series (or of all series, as the case may be) has been made and before a judgment or decree for payment of the money due has been obtained by either Trustee as hereinafter provided in this Article Five, the Holders of a majority in principal amount of the Outstanding Securities of that series (or of all series, as the case may be), by written notice to the Company and the Trustees, may rescind and annul such declaration and its consequences if:

- (1) the Company has paid or deposited with either Trustee a sum sufficient to pay in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)),
 - (a) all overdue interest (if any) on all Outstanding Securities of that series (or of all series, as the case may be),
 - (b) all unpaid principal of and premium (if any) on any Outstanding Securities of that series (or of all series, as the case may be) which has become due otherwise than by such declaration of acceleration, and interest on such unpaid principal and premium (if any) at the rate or rates prescribed therefor in such Securities,
 - (c) to the extent that payment of such interest is legally enforceable, interest on overdue interest at the rate or rates prescribed therefor in such Securities, and
 - (d) all sums paid or advanced by the Trustees hereunder and the reasonable compensation, expenses, disbursements and advances of the Trustees, their agents and counsel; and
- (2) all Events of Default with respect to Securities of that series (or of all series, as the case may be), other than the non-payment of amounts of principal of, premium (if any) or interest (if any) on Securities of that series (or of all series, as the case may be) which have become due solely by such declaration of acceleration, have been cured or waived as provided in Section 5.13.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

SECTION 5.03 Collection of Debt and Suits for Enforcement by Trustees.

The Company covenants that if

- (1) default is made in the payment of any installment of interest on any Security when such interest becomes due and payable and such default continues for a period of 30 days, or

(2) default is made in the payment of the principal of or premium (if any) any Security at the Maturity thereof,

then the Company will, upon demand of the Trustees, pay to the applicable Trustee for the benefit of the Holders of such Securities, the whole amount then due and payable on such Securities for principal of, premium (if any) and interest (if any) and interest on any overdue principal, overdue premium (if any) and, to the extent lawful, overdue interest (if any), at the rate or rates prescribed therefor in such Securities, and, in addition thereto, such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Trustees, their agents and counsel.

If the Company fails to pay such amounts forthwith upon such demand, the Trustees, in their own names as trustees of an express trust, may institute a judicial proceeding for the collection of the sums so due and unpaid, may prosecute such proceeding to judgment or final decree and may enforce the same against the Company or any other obligor upon such Securities and collect the moneys adjudged or decreed to be payable in the manner provided by law out of the property of the Company or any other obligor upon such Securities, wherever situated.

If an Event of Default with respect to Securities of any series (or of all series, as the case may be) occurs and is continuing, either Trustee may in its discretion proceed to protect and enforce its rights and the rights of the Holders of Securities of such series (or of all series, as the case may be) by such appropriate judicial proceedings as such Trustee shall deem most effectual to protect and enforce any such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or in aid of the exercise of any power granted herein, or to enforce any other proper remedy.

SECTION 5.04 Trustees May File Proofs of Claim.

In case of the pendency of any receivership, insolvency, liquidation, bankruptcy, reorganization, arrangement, adjustment, composition or other judicial proceeding relative to the Company or any other obligor upon the Securities or the property of the Company or of such other obligor or their creditors, each Trustee (irrespective of whether the principal of the Securities shall then be due and payable as therein expressed or by declaration or otherwise and irrespective of whether either Trustee shall have made any demand on the Company for the payment of overdue principal, premium (if any) or interest) shall be entitled and empowered, by intervention in such proceeding or otherwise,

- (i) to file and prove a claim for the whole amount of principal and premium (if any), or such portion of the principal amount of any series of Original Issue Discount Securities or Indexed Securities as may be specified in the terms of such series, and interest (if any) owing and unpaid in respect of the Securities and to file such other papers or documents as may be necessary or advisable in order to have the claims of such Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of such Trustee, its agents and counsel) and of the Holders allowed in such judicial proceeding, and
- (ii) to collect and receive any moneys or other property payable or deliverable on any such claims and to distribute the same;

and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Holder to make such payments to such Trustee and, in the event that such Trustee shall consent to the making of such payments directly to the Holders, to pay to such Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of each Trustee, its agents and counsel, and any other amounts due to such Trustee under Section 6.07.

Nothing herein contained shall be deemed to authorize the Trustees to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment or composition affecting the Securities or the rights of any Holder thereof or to authorize the Trustees to vote in respect of the claim of any Holder in any such proceeding.

SECTION 5.05 Trustees May Enforce Claims Without Possession of Securities.

All rights of action and claims under this Indenture, the Securities may be prosecuted and enforced by the Trustees without the possession of any of the Securities or the production thereof in any proceeding relating thereto, and any such proceeding instituted by either Trustee shall be brought in its own name as trustee of an express trust, and any recovery of judgment shall, after provision for the payment of the reasonable compensation, expenses, disbursements and advances of such Trustee, its agents and counsel, be for the ratable benefit of the Holders of the Securities in respect of which such judgment has been recovered.

SECTION 5.06 Application of Money Collected.

Any money collected by either Trustee pursuant to this Article Five shall be applied in the following order, at the date or dates fixed by the Trustees and, in case of the distribution of such money on account of principal of, premium (if any) or interest (if any) upon presentation of the Securities, and the notation thereon of the payment if only partially paid and upon surrender thereof if fully paid:

First: to the payment of all amounts due the Trustees under Section 6.07;

Second: to the payment of the amounts then due and unpaid for principal of, premium (if any) and interest (if any), on the Securities in respect of which or for the benefit of which such money has been collected, ratably, without preference or priority of any kind, according to the amounts due and payable on such Securities for principal, premium (if any) and interest (if any), respectively; and

Third: the balance, if any, to the Person or Persons entitled thereto.

SECTION 5.07 Limitation on Suits.

No Holder of any Security of any series shall have any right to institute any proceeding, judicial or otherwise, with respect to this Indenture or the Securities, or for the appointment of a receiver or trustee, or for any other remedy hereunder, unless

- (1) such Holder has previously given written notice to the Trustees of a continuing Event of Default with respect to the Securities of that series;
- (2) the Holders of not less than 25% in principal amount of the Outstanding Securities of that series in the case of any Event of Default described in clause (1), (2), (3), (4) or (7) of Section 5.01, or, in the case of any Event of Default described in clause (5) or (6) of Section 5.01, the Holders of not less than 25% in principal amount of all Outstanding Securities, shall have made written request to the Trustees to institute proceedings in respect of such Event of Default in their own names as Trustees hereunder;

- (3) such Holder or Holders have offered to the Trustees reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;
- (4) the Trustees for 60 days after their receipt of such notice, request and offer of indemnity have failed to institute any such proceeding; and
- (5) no direction inconsistent with such written request has been given to the Trustees during such 60-day period by the Holders of a majority or more in principal amount of the Outstanding Securities of that series in the case of any Event of Default described in clause (1), (2), (3), (4) or (7) of Section 5.01, or in the case of any Event of Default described in clause (5) or (6) of Section 5.01, by the Holders of a majority or more in principal amount of all Outstanding Securities;

it being understood and intended that no one or more of such Holders shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other Holders of Securities of the same series, in the case of any Event of Default described in clause (1), (2), (3), (4) or (7) of Section 5.01, or of Holders of all Securities in the case of any Event of Default described in clause (5) or (6) of Section 5.01, or to obtain or to seek to obtain priority or preference over any other of such Holders or to enforce any right under this Indenture, except in the manner herein provided and for the equal and ratable benefit of all Holders of Securities of the same series, in the case of any Event of Default described in clause (1), (2), (3), (4) or (7) of Section 5.01, or of Holders of all Securities in the case of any Event of Default described in clause (5) or (6) of Section 5.01.

SECTION 5.08 Unconditional Right of Holders to Receive Principal, Premium and Interest.

Notwithstanding any other provision in this Indenture, the Holder of any Security shall have the right, which is absolute and unconditional, to receive payment, as provided herein (including, if applicable, Article Fourteen) and in such Security, of the principal of and premium (if any) and (subject to Section 3.07) interest (if any) on, such Security on the respective Stated Maturities expressed in such Security (or, in the case of redemption, on the Redemption Date or, in the case of repayment at the option of the Holder as contemplated by Article Twelve, on the Repayment Date) and subject to the limitations on a Holder's ability to institute suit contained Section 5.07, to institute suit for the enforcement of any such payment, and such rights shall not be impaired without the consent of such Holder.

SECTION 5.09 Restoration of Rights and Remedies.

If either Trustee or any Holder has instituted any proceeding to enforce any right or remedy under this Indenture and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to such Trustee or to such Holder, then and in every such case, subject to any determination in such proceeding, the Company, the Trustees and the Holders of Securities shall be restored severally and respectively to their former positions hereunder and thereafter all rights and remedies of the Trustees and the Holders shall continue as though no such proceeding had been instituted.

SECTION 5.10 Rights and Remedies Cumulative.

Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost or stolen Securities in the last paragraph of Section 3.06, no right or remedy herein conferred upon or reserved to the Trustees or to the Holders of Securities is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not, to the extent permitted by law, prevent the concurrent assertion or employment of any other appropriate right or remedy.

SECTION 5.11**Delay or Omission Not Waiver.**

No delay or omission of the Trustees or of any Holder of any Security to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article Five or by law to the Trustees or to the Holders may be exercised from time to time, and as often as may be deemed expedient, by the Trustees or by the Holders, as the case may be.

SECTION 5.12**Control by Holders.**

With respect to the Securities of any series, the Holders of not less than a majority in principal amount of the Outstanding Securities of such series shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustees, or exercising any trust or power conferred on the Trustees, relating to or arising under clause (1), (2), (3), (4) or (7) of Section 5.01, and, with respect to all Securities, the Holders of not less than a majority in principal amount of all Outstanding Securities shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustees, or exercising any trust or power conferred on the Trustees, not relating to or arising under clause (1), (2), (3), (4) or (7) of Section 5.01, *provided* that in each case

- (1) such direction shall not be in conflict with any rule of law or with this Indenture,
- (2) the Trustees may take any other action deemed proper by the Trustees which is not inconsistent with such direction, and
- (3) the Trustees need not take any action which might involve them in personal liability or be unjustly prejudicial to the Holders of Securities of such series not consenting.

SECTION 5.13**Waiver of Past Defaults.**

Subject to Section 5.02, the Holders of not less than a majority in principal amount of the Outstanding Securities of any series may on behalf of the Holders of all the Securities of such series waive any past Default described in clause (1), (2), (3), (4) or (7) of Section 5.01 (or, in the case of a Default described in clause (5) or (6) of Section 5.01, the Holders of not less than a majority in principal amount of all Outstanding Securities may waive any such past Default), and its consequences, except a default

- (1) in respect of the payment of the principal of, premium (if any) or interest (if any) on any Security, or
- (2) in respect of a covenant or provision herein which under Article Nine cannot be modified or amended without the consent of the Holder of each outstanding Security of such series affected.

Upon any such waiver, any such Default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured, for every purpose of this Indenture; but no such waiver shall extend to any subsequent or other Default or Event of Default or impair any right consequent thereon.

SECTION 5.14**Waiver of Stay or Extension Laws.**

The Company covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Company (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustees, but will suffer and permit the execution of every such power as though no such law had been enacted.

SECTION 5.15**Undertaking for Costs.**

In any suit for the enforcement of any right or remedy under this Indenture, or in any suit against either Trustee for any action taken, suffered or omitted by it as Trustee, a court may require any party litigant in such suit to file an undertaking to pay the costs of such suit, and may assess costs against any such party litigant, in the manner and to the extent provided in Trust Indenture Legislation; *provided, however*, that neither this Section 5.15 nor the provisions of TIA Section 315(e) shall apply to any suit instituted by either Trustee or by any Holder or group of Holders holding more than 10% in principal amount of all Outstanding Securities or by any Holder of any Security on any suit for the enforcement of the right to receive the principal of and interest on any such Securities.

**ARTICLE SIX

Each Trustee shall promptly give the other Trustee notice of any Default or Event of Default known to it. Within a reasonable time, but no more than 30 days after either Trustee has knowledge of any Default hereunder with respect to the Securities of any series, one or both of the Trustees shall transmit in the manner and to the extent provided in Trust Indenture Legislation, including TIA Section 313(c), notice to the Holders of such Default hereunder known to either Trustee, unless such Default shall have been cured or waived (and, in the case where such Default shall have been cured, the Trustees shall notify the Holders in writing of such cure in writing within a reasonable time, but not exceeding 30 days, after the Trustees have become aware that the Default has been cured); *provided, however*, that, except in the case of a Default in the payment of the principal of, premium (if any) or interest (if any) on any Security of such series or in the payment of any sinking fund installment with respect to Securities of such series, the Trustees shall be protected in withholding such notice if and so long as the board of directors, the executive committee or a trust committee of directors and/or Responsible Officers of each Trustee in good faith determine that the withholding of such notice is in the interest of the Holders of Securities of such series; *provided further* that in the case of any Default of the character specified in clause (4) of Section 5.01 with respect to Securities of such series, no such notice to Holders shall be given until at least 30 days after the occurrence thereof.

SECTION 6.02**Certain Duties and Responsibilities of Trustees.**

(a) The Trustees, prior to the occurrence of an Event of Default and after the curing of all Events of Default that may have occurred, shall undertake to perform with respect to the Securities of any series such duties and only such duties as are specifically set forth in this Indenture, and no implied covenants shall be read into this Indenture against the Trustees.

(b) In all instances, in the exercise of the powers, rights, duties and discharge of obligations prescribed or conferred by the terms of this Indenture, each Trustee shall act honestly and in good faith with a view to the best interests of the Holders and exercise that degree of care, diligence and skill that a reasonably prudent trustee in respect of indentures for the purpose of issuing corporate debt obligations would exercise in comparable circumstances.

(c) No provision of this Indenture shall be construed to relieve each Trustee from liability for its own actions or failure to act in accordance with Subsection 6.02(b), except that:

- (i) prior to the occurrence of an Event of Default and after the curing or waiving of all such Events of Default that may have occurred:
 - (A) the duties and obligations of each Trustee with respect to the Securities of any series shall be determined solely by the express provisions of this Indenture, and the Trustees shall not be liable except for the performance of such duties and obligations as are specifically set forth in this Indenture, and no implied covenants or obligations shall be read into this Indenture against the Trustees; and
 - (B) in the absence of bad faith on the part of either Trustee, such Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon any certificates or opinions furnished to the Trustees and conforming to the requirements of this Indenture and Trust Indenture Legislation; but in the case of any such certificates or opinions that by any provision hereof are specifically required to be furnished to the Trustees, the Trustees shall be under a duty to examine the same to determine whether or not they conform to the requirements of this Indenture; *provided, however*, the Canadian Trustee shall not be required to determine whether the certificates or opinions presented to it conform to the Trust Indenture Act and the U.S. Trustee shall not be required to determine whether the certificates or opinions presented to it conform to Canadian Trust Indenture Legislation.
- (ii) the Trustees shall not be liable with respect to any action taken or omitted to be taken by them in good faith in accordance with the direction of the Holders of not less than a majority in principal amount of the Securities of any series at the time Outstanding relating to the time, method and place of conducting any proceeding for any remedy available to the Trustees, or exercising any trust or power conferred upon the Trustees under this Indenture;
- (iii) none of the provisions contained in this Indenture shall require either Trustee to expend or risk their own funds or otherwise incur personal or any financial liability in the performance of any of their duties or in the exercise of any of their rights or powers; and
- (iv) whether or not therein expressly so provided, except to the extent expressly provided herein to the contrary, every provision of this Indenture relating to the conduct or effecting the liability or affording protection to the Trustees shall be subject to the provisions of this Section 6.02.

(d) Notwithstanding the provisions of this Section 6.02 or any provision in this Indenture or in the Securities, the Trustees will not be charged with knowledge of the existence of any Event of Default or any other fact that would prohibit the making of any payment of monies to or by the Trustees, or the taking of any other action by the Trustees, unless and until the Trustees have received written notice thereof from the Company or any Holder.

SECTION 6.03 Certain Rights of Trustees.

Subject to the provisions of TIA Sections 315(a) through 315(d):

- (1) the Trustees may rely and shall be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document believed by them to be genuine and to have been signed or presented by the proper party or parties;

- (4) the Trustees may consult with counsel and the written advice of such counsel or any opinion of Counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by them hereunder in good faith and in reliance thereon;
- (5) the Trustees shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Holders of Securities of any series pursuant to this Indenture, unless such Holders shall have offered to the Trustees reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by them in compliance with such request or direction;
- (6) the Trustees shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document, but the Trustees, in their discretion, may make such further inquiry or investigation into such facts or matters as they may see fit, and, if the Trustees shall determine to make such further inquiry or investigation, they shall be entitled to examine the books, records and premises of the Company, personally or by agent or attorney;

- (9) the Trustees shall not be liable for any action taken, suffered or omitted by them in good faith and believed by them to be authorized or within the discretion or rights or powers conferred upon them by this Indenture, so long as they act in accordance with this Section 6.02(b).

SECTION 6.04 Trustees Not Responsible for Recitals or Issuance of Securities.

The recitals contained herein and in the Securities, except for a Trustee's certificate of authentication, shall be taken as the statements of the Company, and neither Trustee nor any Authenticating Agent assumes any responsibility for their correctness. The Trustees make no representations as to the validity or sufficiency of this Indenture or of the Securities, except that the Trustees represent that they are duly authorized to execute and deliver this Indenture, authenticate the Securities and perform their obligations hereunder and that the statements made by the U.S. Trustee in a Statement of Eligibility on Form T-1 supplied to the Company are true and accurate, subject to the qualifications set forth therein. Neither Trustee nor any Authenticating Agent shall be accountable for the use or application by the Company of Securities or the proceeds thereof. Nothing herein contained will impose on either Trustee any obligation to see to, or to require evidence of, the registration or filing (or renewal thereof) of this Indenture or any supplemental indenture. The Trustees shall not be bound to give notice to any person of the execution hereof.

SECTION 6.05 May Hold Securities.

A Trustee that has resigned or is removed shall remain subject to TIA Section 311(a) to the extent provided therein.

SECTION 6.06 Money Held in Trust.

Money held by the Trustees in trust hereunder need not be segregated from other funds except to the extent required by law. The Trustees shall be under no liability for interest on any money received by them hereunder except as otherwise agreed with the Company.

SECTION 6.07 Compensation and Reimbursement.

The Company agrees:

- (1) to pay to the Trustees from time to time reasonable compensation for all services rendered by them hereunder (which compensation shall not be limited by any provision of law in regard to the compensation of a trustee of an express trust);
- (2) except as otherwise expressly provided herein, to reimburse the Trustees upon their request for all reasonable expenses, disbursements and advances incurred or made by the Trustees in accordance with any provision of this Indenture (including the reasonable compensation and the expenses and disbursements of their agents and counsel), except any such expense, disbursement or advance as may be attributable to the U.S. Trustee's gross negligence or bad faith or the Canadian Trustee's gross negligence or willful misconduct, respectively; and

- (3) to indemnify the Trustees for, and to hold them and their directors, officers, agents, representatives, successors, assigns and employees harmless against, any loss, liability or expense incurred without gross negligence or bad faith on the part of the U.S. Trustee, or gross negligence or willful misconduct on the part of the Canadian Trustee, respectively, arising out of or in connection with the acceptance or administration of the trust or trusts hereunder, including reasonable attorneys' fees and other reasonable costs and expenses of defending themselves against any claim or liability in connection with the exercise or performance of any of their powers or duties hereunder.

The obligations of the Company under this Section 6.07 to compensate the Trustees, to pay or reimburse the Trustees for expenses, disbursements and advances and to indemnify and hold harmless the Trustees shall constitute additional indebtedness hereunder and shall survive the satisfaction and discharge of this Indenture and the resignation or removal of the Trustee. As security for the performance of such obligations of the Company, the Trustees shall have a claim prior to the Securities upon all property and funds held or collected by the Trustees as such, except funds held in trust for the payment of principal of, premium (if any) or interest (if any) on particular Securities.

When the Trustees incur expenses or render services in connection with an Event of Default specified in clause (5) or (6) of Section 5.01, the expenses (including reasonable charges and expense of its counsel) of and the compensation for such services are intended to constitute expenses of administration under any applicable United States or Canadian federal, state or provincial bankruptcy, insolvency or other similar law.

The provisions of this Section 6.07 shall survive the termination of this Indenture.

SECTION 6.08 Corporate Trustees Required; Eligibility.

- (1) There shall be at all times a U.S. Trustee hereunder which shall be eligible to act as Trustee under TIA Section 310(a)(1) and, together with its immediate parent, shall have a combined capital and surplus of at least \$50,000,000. If the U.S. Trustee publishes reports of condition at least annually, pursuant to law or to the requirements of United States federal, state, territorial or District of Columbia supervising or examining authority, then for the purposes of this Section 6.08, the combined capital and surplus of U.S. Trustee shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time the U.S. Trustee shall cease to be eligible in accordance with the provisions of this Section 6.08, it shall resign immediately in the manner and with the effect hereinafter specified in this Article Six.
- (2) For so long as required by Trust Indenture Legislation, there shall be a Canadian Trustee under this Indenture. The Canadian Trustee shall at all times be a resident or authorized to do business in the Province of Ontario and any other province in Canada where Holders may be resident from time to time. The Canadian Trustee represents and warrants that no material conflict of interest exists in the Canadian Trustee's role as a fiduciary hereunder and agrees that in the event of a material conflict of interest arising hereafter it will, within 30 days after ascertaining that it has such material conflict of interest, either eliminate the same or resign its trust hereunder. If any such material conflict of interests exists or hereafter shall exist, the validity and enforceability of this Indenture shall not be affected in any manner whatsoever by reason thereof.
- (3) The Trustees will not be required to give any bond or security in respect of the execution of the trusts and powers set out in this Indenture or otherwise in respect of the premises.

- (4) Neither Trustee nor any Affiliate of either Trustee shall be appointed a receiver or receiver and manager or liquidator of all or any part of the assets or undertaking of the Company.

SECTION 6.09 Resignation and Removal; Appointment of Successor.

- (1) No resignation or removal of either Trustee and no appointment of a successor Trustee pursuant to this Article Six shall become effective until the acceptance of appointment by the successor Trustee in accordance with the applicable requirements of Section 6.10.
- (2) Either Trustee may resign at any time with respect to the Securities of one or more series by giving written notice thereof to the Company. If the instrument of acceptance by a successor Trustee required by Section 6.10 shall not have been delivered to such Trustee within 30 days after the giving of such notice of resignation, the resigning Trustee may petition any court of competent jurisdiction for the appointment of a successor Trustee with respect to the Securities of such series.
- (3) Either Trustee may be removed following 30 days notice at any time with respect to the Securities of any series by Act of the Holders of not less than a majority in principal amount of the Outstanding Securities of such series, delivered to such Trustee and to the Company.
- (4) If at any time:
- (i) either Trustee shall acquire any conflicting interest as defined in TIA Section 310(b) and fail to comply with the provisions of TIA Section 310(b)(i), or
 - (ii) either Trustee shall fail to comply with the provisions of TIA Section 310(b) after written request therefor by the Company or by any Holder who has been a bona fide Holder of a Security for at least six months, or
 - (iii) either Trustee shall cease to be eligible under Section 6.08 and shall fail to resign after written request therefor by the Company or by any Holder who has been a bona fide Holder of a Security for at least six months, or
 - (iv) either Trustee shall become incapable of acting or shall be adjudged a bankrupt or insolvent or a receiver of such Trustee or of its property shall be appointed or any public officer shall take charge or control of such Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation,

then, in any such case, (i) the Company, by a Board Resolution, may remove such Trustee with respect to all Securities, or (ii) subject to TIA Section 315(e), any Holder who has been a bona fide Holder of a Security of such series for at least six months may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the removal of such Trustee with respect to all Securities of such series and the appointment of a successor Trustee or Trustees.

- (5) If either Trustee shall resign, be removed or become incapable of acting, or if a vacancy shall occur in the office of the U.S. Trustee or the Canadian Trustee for any cause, with respect to the Securities of one or more series, the Company, by a Board Resolution, shall promptly appoint a successor Trustee or Trustees with respect to the Securities of that or those series (it being understood that any such successor Trustee may be appointed with respect to the Securities of one or more or all of such series) *provided, however*, that the Company shall not be required to appoint a successor Trustee to the Canadian Trustee if the Canadian Trustee resigns or is removed and a Canadian Trustee under this Indenture is no longer required under Trust Indenture Legislation. If, within one year after such resignation, removal or incapability, or the occurrence of such vacancy, a successor Trustee with respect to the Securities of any series shall be appointed by Act of the Holders of a majority in principal amount of the Outstanding Securities of such series delivered to the Company and the retiring Trustee, the successor Trustee so appointed shall, forthwith upon its acceptance of such appointment, become the successor Trustee with respect to the Securities of such series and to that extent supersede the successor Trustee appointed by the Company. If no successor Trustee with respect to the Securities of any series shall have been so appointed by the Company or the Holders and accepted appointment in the manner hereinafter provided, any Holder who has been a bona fide Holder of a Security of such series for at least six months may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the appointment of a successor Trustee with respect to the Securities of such series.

- (6) The Company shall give notice of each resignation and each removal of a Trustee with respect to the Securities of any series and each appointment of a successor Trustee with respect to the Securities of any series to the Holders of Securities of such series in the manner provided for in Section 1.07. Each notice shall include the name of the successor Trustee with respect to the Securities of such series and the address of its Corporate Trust Office.
- (7) If a Canadian Trustee under this Indenture is no longer required by Trust Indenture Legislation, then the Company by a Board Resolution may remove the Canadian Trustee.

SECTION 6.10 Acceptance of Appointment by Successor.

- (1) In case of the appointment hereunder of a successor Trustee with respect to all Securities, every such successor Trustee so appointed shall execute, acknowledge and deliver to the Company and to the retiring Trustee an instrument accepting such appointment, and thereupon the resignation or removal of the retiring Trustee shall become effective and such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee; but, on the request of the Company or the successor Trustee, such retiring Trustee shall, upon payment of its charges, execute and deliver an instrument transferring to such successor Trustee all the rights, powers and trusts of the retiring Trustee and shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee hereunder.
- (2) In case of the appointment hereunder of a successor Trustee with respect to the Securities of one or more (but not all) series, the Company, the retiring Trustee and each successor Trustee with respect to the Securities of one or more series shall execute and deliver an indenture supplemental hereto wherein each successor Trustee shall accept such appointment and which (1) shall contain such provisions as shall be necessary or desirable to transfer and confirm to, and to vest in, each successor Trustee all the rights, powers, trusts and duties of the retiring Trustee with respect to the Securities of that or those series to which the appointment of such successor Trustee relates, (2) if the retiring Trustee is not retiring with respect to all Securities, shall contain such provisions as shall be deemed necessary or desirable to confirm that all the rights, powers, trusts and duties of the retiring Trustee with respect to the Securities of that or those series as to which the retiring Trustee is not retiring shall continue to be vested in the retiring Trustee, and (3) shall add to or change any of the provisions of this Indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one Trustee, it being understood that nothing herein or in such supplemental indenture shall constitute such Trustees co-trustees of the same trust and that each such Trustee shall be trustee of a trust or trusts hereunder separate and apart from any trust or trusts hereunder administered by any other such Trustee; and upon the execution and delivery of such supplemental indenture the resignation or removal of the retiring Trustee shall become effective to the extent provided therein and each such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee with respect to the Securities of that or those series to which the appointment of such successor Trustee relates; but, on request of the Company or any successor Trustee, such retiring Trustee shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee hereunder with respect to the Securities of that or those series to which the appointment of such successor Trustee relates. Whenever there is a successor Trustee with respect to one or more (but less than all) series of Securities issued pursuant to this Indenture, the terms "Indenture" and "Securities" shall have the meanings specified in the provisos to the respective definitions of those terms in Section 1.01 which contemplate such situation.

- (3) Upon reasonable request of any such successor Trustee, the Company shall execute any and all instruments for more fully and certainly vesting in and confirming to such successor Trustee all rights, powers and trusts referred to in paragraph (1) or (2) of this Section 6.10, as the case may be.
- (4) No successor Trustee shall accept its appointment unless at the time of such acceptance such successor Trustee shall be qualified and eligible under this Article Six.

SECTION 6.11 Merger, Conversion, Consolidation or Succession to Business.

Any corporation into which either Trustee or its corporate trust business may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which either Trustee shall be a party, or any corporation succeeding to all or substantially all the corporate trust business of either Trustee, shall be the successor of such Trustee hereunder, *provided* such corporation shall be otherwise qualified and eligible under this Article Six, without the execution or filing of any paper or any further act on the part of any of the parties hereto. In case any Securities shall have been authenticated, but not delivered, by a Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Trustee may adopt such authentication and deliver the Securities so authenticated with the same effect as if such successor Trustee had itself authenticated such Securities. In case any of the Securities shall not have been authenticated by such predecessor Trustee, any successor Trustee may authenticate such Securities either in the name of any predecessor hereunder or in the name of the successor Trustee. In all such cases such certificates shall have the full force and effect which this Indenture provides for the certificate of authentication of such Trustee; *provided, however*, that the right to adopt the certificate of authentication of any predecessor Trustee or to authenticate Securities in the name of any predecessor Trustee shall apply only to its successor or successors by merger, conversion or consolidation.

At any time when any of the Securities remain outstanding, the Trustees may appoint an Authenticating Agent or Agents, with respect to one or more series of Securities which shall be authorized to act on behalf of the Trustees to authenticate Securities of such series and the Trustees shall give written notice of such appointment to all Holders of Securities of the series with respect to which such Authenticating Agent will serve, in the manner provided for in Section 1.07. Securities so authenticated shall be entitled to the benefits of this Indenture and shall be valid and obligatory for all purposes as if authenticated by the applicable Trustee hereunder. Any such appointment shall be evidenced by an instrument in writing signed by a Responsible Officer of the Trustees, and a copy of such instrument shall be promptly furnished to the Company. Wherever reference is made in this Indenture to the authentication and delivery of Securities by the Trustees or either Trustee's certificate of authentication, such reference shall be deemed to include authentication and delivery on behalf of the Trustees by an Authenticating Agent and a certificate of authentication executed on behalf of the Trustees by an Authenticating Agent. Each Authenticating Agent shall be acceptable to the Company and shall at all times be a corporation organized and doing business under the laws of the United States of America, any state thereof or the District of Columbia or the laws of Canada or any province thereof, authorized under such laws to act as Authenticating Agent, having a combined capital and surplus of not less than \$50,000,000 and subject to supervision or examination by United States federal or state or Canadian federal or provincial authority. If such corporation publishes reports of condition at least annually, pursuant to law or to the requirements of said supervising or examining authority, then for the purposes of this Section 6.12, the combined capital and surplus of such corporation shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time an Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section 6.12, it shall resign immediately in the manner and with the effect specified in this Section 6.12.

Any corporation into which an Authenticating Agent may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which such Authenticating Agent shall be a party, or any corporation succeeding to the corporate agency or corporate trust business of an Authenticating Agent, shall continue to be an Authenticating Agent, *provided* such corporation shall be otherwise eligible under this Section 6.12, without the execution or filing of any paper or any further act on the part of the Trustees or the Authenticating Agent.

An Authenticating Agent may resign at any time by giving written notice thereof to the Trustees and to the Company. The Trustees may at any time terminate the agency of an Authenticating Agent by giving written notice thereof to such Authenticating Agent and to the Company. Upon receiving such a notice of resignation or upon such a termination, or in case at any time such Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section 6.12, the Trustees may appoint a successor Authenticating Agent which shall be acceptable to the Company and shall give written notice of such appointment to all Holders of Securities of the series with respect to which such Authenticating Agent will serve, in the manner provided for in Section 1.07. Any successor Authenticating Agent upon acceptance of its appointment hereunder shall become vested with all the rights, powers and duties of its predecessor hereunder, with like effect as if originally named as an Authenticating Agent. No successor Authenticating Agent shall be appointed unless eligible under the provisions of this Section 6.12.

The Trustees agree to pay to each Authenticating Agent from time to time reasonable compensation for its services under this Section 6.12, and the Trustees shall be entitled to be reimbursed for such payments, subject to the provisions of Section 6.07.

If an appointment with respect to one or more series is made pursuant to this Section 6.12, the Securities of such series may have endorsed thereon, in addition to either Trustee's certificate of authentication, an alternate certificate of authentication in the following form:

(Certificate of Authentication may be executed by either Trustee)

SECTION 6.13 Joint Trustees.

The rights, powers, duties and obligations conferred and imposed upon the Trustees are conferred and imposed upon and shall be exercised and performed by the U.S. Trustee and the Canadian Trustee individually, except to the extent the Trustees are required under Trust Indenture Legislation to perform such acts jointly, and neither Trustee shall be liable or responsible for the acts or omissions of the other Trustee. If the U.S. Trustee and Canadian Trustee are unable to agree jointly to act or refrain from acting, the applicable Trustee shall make the decision in accordance with its applicable legislation. Unless the context implies or requires otherwise, any written notice, request, direction, certificate, instruction, opinion or other document (each such document, a "**Writing**") delivered pursuant to any provision of this Indenture to any of the U.S. Trustee or the Canadian Trustee shall be deemed for all purposes of this Indenture as delivery of such Writing to the Trustee. Each such Trustee in receipt of such Writing shall notify such other Trustee of its receipt of such Writing within two Business Days of such receipt *provided, however*, that any failure of such trustee in receipt of such Writing to so notify such other Trustee shall not be deemed as a deficiency in the delivery of such Writing to the Trustee.

Each Trustee shall retain the right not to act and shall not be liable for refusing to act if, due to a lack of information or for any other reason whatsoever, either Trustee, in its sole judgment, determines that such act might cause it to be in non-compliance with any applicable anti-money laundering or anti-terrorist legislation, regulation or guideline. Further, should either Trustee, in its sole judgment, determine at any time that its acting under this Indenture has resulted in its being in non-compliance with any applicable anti-money laundering or anti-terrorist legislation, regulation or guideline, then it shall have the right to resign on 10 days written notice to all parties provided (i) that such Trustee's written notice shall describe the circumstances of such non-compliance; and (ii) that if such circumstances are rectified to such Trustee's satisfaction within such 10 day period, then such resignation shall not be effective.

The parties hereto acknowledge that Canadian federal and provincial legislation addressing the protection of individuals' personal information (collectively, "**Privacy Laws**") applies to obligations and activities under this Indenture. Despite any other provision of this Indenture, neither party shall take or direct any action that would contravene, or cause the other to contravene, applicable Privacy Laws. The Company, prior to transferring, or causing to be transferred, personal information to the Canadian Trustee, shall obtain and retain required consents of the relevant individuals to the collection, use and disclosure of their personal information, or shall have determined that such consents either have been previously given and can be relied on or are not required under Privacy Laws. The Canadian Trustee shall use commercially reasonable efforts to ensure that its services hereunder comply with Privacy Laws. Specifically, the Trustee agrees to (i) have designated a chief privacy officer; (ii) maintain policies and procedures to protect personal information and to receive and respond to any privacy complaint or inquiry; (iii) use personal information solely for the purposes of providing its services under or ancillary to this Indenture and not to use it for any other purpose except with the consent and direction of the Company; (iv) not sell or otherwise improperly disclose personal information to any third party; and (v) use employee administrative, physical and technological safeguards to reasonably secure and protect personal information against loss, theft or unauthorized access, use or modification.

It is expressly acknowledged and agreed that the Canadian Trustee may, in the course of providing services hereunder, collect or receive, use and disclose financial and other personal information about such parties and/or their representatives, as individuals, or about other individuals related to the subject matter hereof, and use such information for the following purposes:

- (i) to provide the services required under this Indenture and other services that may be requested from time to time;
- (ii) to help the Canadian Trustee manage its servicing relationships with such individuals;
- (iii) to meet the Canadian Trustee's legal and regulatory requirements; and

- (iv) if social insurance numbers are collected by the Canadian Trustee, to perform tax reporting and to assist in verification of an individual's identity for security purposes.

Further, each party agrees that it shall not provide or cause to be provided to the Canadian Trustee any personal information relating to an individual who is not a party to this Indenture unless that party has assured itself that such individual understands and has consented to the aforementioned uses and disclosures. Notwithstanding anything to the contrary herein, the Company and the Trustees may, without liability, disclose information about the Holders and beneficial owners or potential Holders or potential beneficial owners of the Securities pursuant to subpoena or other order issued by a court of competent jurisdiction or when otherwise required by applicable law.

Each Trustee hereby accepts the trusts in this Indenture declared and provided for and agrees to perform the same upon the terms and conditions herein set forth and to hold all rights, privileges and benefits conferred hereby and by law in trust for the various persons who shall from time to time be holders, subject to all the terms and conditions herein set forth.

- (13) to modify, eliminate or add to the provisions of this Indenture to such extent as shall be necessary to effect the qualifications of this Indenture under any applicable law of the United States and Canada or of any province or territory thereof to the extent they do not conflict with the applicable law of the United States heretofore or hereafter enacted.

SECTION 9.02 Supplemental Indentures with Consent of Holders.

Except as provided in Section 9.01 and this Section 9.02, with the consent of the Holders of not less than a majority in principal amount of all Outstanding Securities affected by such supplemental indenture, by Act of said Holders delivered to the Company and the Trustees, the Company, when authorized by or pursuant to a Board Resolution, and the Trustees may enter into an indenture or indentures supplemental hereto for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of this Indenture which affect such series of Securities or of modifying in any manner the rights of the Holders of Securities of such series under this Indenture; *provided, however*, that no such supplemental indenture shall, without the consent of the Holder of each Outstanding Security of such series,

- (1) change the Stated Maturity of the principal of, premium (if any) or any installment of interest (if any) on any Security of such series, or reduce the principal amount thereof, premium (if any) or the rate of interest (if any) thereon, or reduce the amount of the principal of an Original Issue Discount Security of such series that would be due and payable upon a declaration of acceleration of the Maturity thereof pursuant to Section 5.02 or the amount thereof provable in bankruptcy pursuant to Section 5.04, or adversely affect any right of repayment at the option of any Holder of any Security of such series, or change any Place of Payment where, or the Currency in which, any Security of such series or any premium or interest thereon is payable, or impair the right to institute suit for the enforcement of any such payment on or after the Stated Maturity thereof (or, in the case of redemption or repayment at the option of the Holder, on or after the Redemption Date or Repayment Date, as the case may be), or adversely affect any right to convert or exchange any Security as may be provided pursuant to Section 3.01 herein, or

- (2) reduce the percentage in principal amount of the Outstanding Securities of such series required for any such supplemental indenture, or the consent of whose Holders is required for any waiver of compliance with certain provisions of this Indenture which affect such series or certain defaults applicable to such series hereunder and their consequences provided for in this Indenture, or
- (3) modify any of the provisions of this 9.02 Section, Section 5.13 or Section 10.09, except to increase any such percentage or to provide that certain other provisions of this Indenture which affect such series cannot be modified or waived without the consent of the Holder of each Outstanding Security of such series.

A supplemental indenture which changes or eliminates any covenant or other provision of this Indenture which has expressly been included solely for the benefit of one or more particular series of Securities, or which modifies the rights of the Holders of Securities of such series with respect to such covenant or other provision, shall be deemed not to affect the rights under this Indenture of the Holders of Securities of any other series. Any such supplemental indenture adding any provisions to or changing in any manner or eliminating any of the provisions of this Indenture, or modifying in any manner the rights of the Holders of Securities of such series, shall not affect the rights under this Indenture of the Holders of Securities of any other series.

It shall not be necessary for any Act of Holders under this 9.02 Section to approve the particular form of any proposed supplemental indenture, but it shall be sufficient if such Act shall approve the substance thereof.

SECTION 9.03 Execution of Supplemental Indentures.

In executing, or accepting the additional trusts created by, any supplemental indenture permitted by this Article Nine or the modifications thereby of the trusts created by this Indenture, the Trustees shall be entitled to receive, and shall be fully protected in relying upon, an Opinion of Counsel stating that the execution of such supplemental indenture is authorized or permitted by this Indenture. Each Trustee may, but shall not be obligated to, enter into any such supplemental indenture which affects such Trustee's own rights, duties or immunities under this Indenture or otherwise.

SECTION 9.04 Effect of Supplemental Indentures.

Upon the execution of any supplemental indenture under this Article Nine, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Securities theretofore or thereafter authenticated and delivered hereunder shall be bound thereby.

SECTION 9.05 Conformity with Trust Indenture Legislation.

Every supplemental indenture executed pursuant to this Article Nine shall conform to the requirements of Trust Indenture Legislation as then in effect.

SECTION 9.06**Reference in Securities to Supplemental Indentures.**

Securities of any series authenticated and delivered after the execution of any supplemental indenture pursuant to this Article Nine may, and shall if required by the Trustees, bear a notation in form approved by the Trustees as to any matter provided for in such supplemental indenture. If the Company shall so determine, new Securities of any series so modified as to conform, in the opinion of the Trustees and the Company, to any such supplemental indenture may be prepared and executed by the Company and authenticated and delivered by the Trustees in exchange for outstanding Securities of such series.

SECTION 9.07**Notice of Supplemental Indentures.**

Promptly after the execution by the Company and the Trustees of any supplemental indenture pursuant to the provisions of Section 9.02, the Company shall give notice thereof to the Holders of each outstanding Security affected, in the manner provided for in Section 1.07, setting forth in general terms the substance of such supplemental indenture.

**ARTICLE TEN
COVENANTS****SECTION 10.01****Payment of Principal, Premium and Interest.**

The Company covenants and agrees for the benefit of the Holders of each series of Securities that it will duly and punctually pay the principal of, premium (if any) and interest (if any), on the Securities of that series in accordance with the terms of the Securities and this Indenture.

SECTION 10.02**Maintenance of Office or Agency.**

- (1) The Company will maintain in each Place of Payment for any series of Securities an office or agency where Securities of that series may be presented or surrendered for payment, where Securities of that series may be surrendered for registration of transfer or exchange, where Securities of that series that are convertible or exchangeable may be surrendered for conversion or exchange, as applicable, and where notices and demands to or upon the Company in respect of the Securities of that series and this Indenture may be served.
- (2) The Company will give prompt written notice to the Trustees of the location, and any change in the location, of such office or agency. If at any time the Company shall fail to maintain any such required office or agency or shall fail to furnish the Trustees with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Offices of the Trustees.
- (3) The Company may also from time to time designate one or more other offices or agencies where the Securities of one or more series may be presented or surrendered for any or all such purposes and may from time to time rescind any such designation; *provided, however*, that no such designation or rescission shall in any manner relieve the Company of its obligation to maintain an office or agency in accordance with the requirements set forth above for Securities of any series for such purposes. The Company will give prompt written notice to the Trustees of any such designation or rescission and of any change in the location of any such other office or agency. Unless otherwise specified with respect to any Securities as contemplated by Section 3.01 with respect to a series of Securities, the Company hereby initially appoints the U.S. Trustee at its Corporate Trust Office as Paying Agent in such city and as its agent to receive all such presentations, surrenders, notices and demands.

- (4) Unless otherwise specified with respect to any Securities pursuant to Section 3.01, if and so long as the Securities of any series (i) are denominated in a Currency other than Dollars or (ii) may be payable in a Currency other than Dollars, or so long as it is required under any other provision of the Indenture, then the Company will maintain with respect to each such series of Securities, or as so required, at least one Exchange Rate Agent.

SECTION 10.03 Money for Securities Payments to Be Held in Trust.

If the Company shall at any time act as its own Paying Agent with respect to any series of Securities, it will, on or before each due date of the principal of, premium (if any) or interest (if any) on any of the Securities of that series, segregate and hold in trust for the benefit of the Persons entitled thereto a sum in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) sufficient to pay the principal of, premium (if any) or interest (if any) on Securities of such series so becoming due until such sums shall be paid to such Persons or otherwise disposed of as herein provided and will promptly notify the Trustees of its action or failure so to act.

Whenever the Company shall have one or more Paying Agents for any series of Securities, it will, prior to or on each due date of the principal of, premium (if any) or interest (if any) on any Securities of that series, deposit with a Paying Agent a sum (in the Currency described in the preceding paragraph) sufficient to pay the principal, premium (if any) or interest (if any) so becoming due, such sum to be held in trust for the benefit of the Persons entitled to such principal, premium or interest, and (unless such Paying Agent is a Trustee) the Company will promptly notify the Trustees of its action or failure so to act.

The Company will cause each Paying Agent (other than the Trustees) for any series of Securities to execute and deliver to the Trustees an instrument in which such Paying Agent shall agree with the Trustees, subject to the provisions of this 10.03 Section, that such Paying Agent will:

- (1) hold all sums held by it for the payment of the principal of, premium (if any) and interest (if any) on Securities of such series in trust for the benefit of the Persons entitled thereto until such sums shall be paid to such Persons or otherwise disposed of as herein provided;
- (2) give the Trustees notice of any default by the Company (or any other obligor upon the Securities of such series) in the making of any payment of principal of, premium (if any) or interest (if any) on the Securities of such series; and
- (3) at any time during the continuance of any such default, upon the written request of the Trustees, forthwith pay to the Trustees all sums so held in trust by such Paying Agent.

The Company may at any time, for the purpose of obtaining the satisfaction and discharge of this Indenture or for any other purpose, pay, or by Company Order direct any Paying Agent to pay, to the Trustees all sums held in trust by the Company or such Paying Agent, such sums to be held by the Trustees upon the same trusts as those upon which sums were held by the Company or such Paying Agent; and, upon such payment by any Paying Agent to the Trustees, such Paying Agent shall be released from all further liability with respect to such sums.

Except as provided in the Securities of any series, any money deposited with the Trustees or any Paying Agent, or then held by the Company, in trust for the payment of the principal of, premium (if any) or interest (if any) on any Security of any series, and remaining unclaimed for two years after such principal, premium or interest has become due and payable shall be paid to the Company on Company Request, or (if then held by the Company) shall be discharged from such trust; and the Holder of such Security shall thereafter, as an unsecured general creditor, look only to the Company for payment thereof, and all liability of the Trustees or such Paying Agent with respect to such trust money, and all liability of the Company as trustee thereof, shall thereupon cease.

SECTION 10.04 Statement as to Compliance.

The Company shall deliver to the Trustees, on or before 120 days after the end of the Company's fiscal year, an Officer's Certificate stating that a review of the activities of the Company during such fiscal year has been made under the supervision of the signing Officer with a view to determining whether the Company has kept, observed, performed and fulfilled its obligations under this Indenture, and further stating, as to such Officer, that the Company has kept, observed, performed and fulfilled each and every covenant contained in this Indenture and is not in default in the performance or observance of any of the terms, provisions and conditions hereof (or, if a Default or Event of Default shall have occurred and is continuing, describing all such Defaults or Events of Default of which he or she may have knowledge and what action the Company is taking or propose to take with respect thereto). The Company shall deliver to the Trustees upon demand evidence in such form as the Trustees may require as to compliance by the Company with any condition or covenant of the Company set out herein relating to any action required or permitted to be taken by the Company under this Indenture or as a result of any obligation imposed by this Indenture. For purposes of this Section 10.04, such compliance shall be determined without regard to any period of grace or requirement of notice under this Indenture.

SECTION 10.05 Waiver of Certain Covenants.

The Company may, with respect to any series of Securities, omit in any particular instance to comply with any term, provision or condition in any covenants of the Company added to this Article Ten pursuant to Section 3.01(19) in connection with Securities of such series, if before the time for such compliance the Holders of at least a majority in principal amount of all Outstanding Securities of any series, by Act of such Holders, waive such compliance in such instance with such term, provision or condition, but no such waiver shall extend to or affect such term, provision or condition except to the extent so expressly waived, and, until such waiver shall become effective, the obligations of the Company and the duties of the Trustees to Holders of Securities of such series in respect of any such term, provision or condition shall remain in full force and effect.

**ARTICLE ELEVEN
REDEMPTION OF SECURITIES**

SECTION 11.01 Applicability of Article.

Securities of any series which are redeemable before their Stated Maturity shall be redeemable in accordance with the terms of such Securities and (except as otherwise specified as contemplated by Section 3.01 for Securities of any series) in accordance with this Article Eleven.

SECTION 11.02 Election to Redeem; Notice to Trustees.

The election of the Company to redeem any Securities shall be evidenced by or pursuant to a Board Resolution. In case of any redemption at the election of the Company, the Company shall, at least 60 days prior to the Redemption Date fixed by the Company (unless a shorter notice shall be satisfactory to the Trustees), notify the Trustees of such Redemption Date and of the principal amount of Securities of such series to be redeemed and, in the case of certificated Securities, shall deliver to the Trustees such documentation and records as shall enable the Trustees to select the Securities to be redeemed pursuant to Section 11.03. In the case of any redemption of Securities prior to the expiration of any restriction on such redemption provided in the terms of such Securities or elsewhere in this Indenture, the Company shall furnish to the Trustees an Officer's Certificate evidencing compliance with such restriction.

SECTION 11.03**Selection by Trustees of Securities to Be Redeemed.**

If less than all the Securities of any series are to be redeemed, the particular Securities to be redeemed shall be selected not more than 60 days prior to the Redemption Date by the Trustees, from the Outstanding Securities of such series not previously called for redemption, in the case of certificated Securities, by such method as the Trustees shall deem fair and appropriate and which may provide for the selection for redemption of portions of the principal of Securities of such series, or in the case of Securities in global form in accordance with the policies and procedures of the applicable Depositary; *provided, however*, that no such partial redemption shall reduce the portion of the principal amount of a Security not redeemed to less than the minimum authorized denomination for Securities of such series established pursuant to Section 3.01.

The Trustees shall promptly notify the Company in writing of the Securities selected for redemption and, in the case of any Securities selected for partial redemption, the principal amount thereof to be redeemed.

For all purposes of this Indenture, unless the context otherwise requires, all provisions relating to the redemption of Securities shall relate, in the case of any Security redeemed or to be redeemed only in part, to the portion of the principal amount of such Security which has been or is to be redeemed.

SECTION 11.04**Notice of Redemption.**

Except as otherwise specified as contemplated by Section 3.01, notice of redemption shall be given in the manner provided for in Section 1.07 not less than 30 nor more than 60 days prior to the Redemption Date, to each Holder of Securities to be redeemed. Failure to give notice in the manner provided in Section 1.07 to the Holder of any Securities designated for redemption as a whole or in part, or any defect in the notice to any such Holder, shall not affect the validity of the proceedings for the redemption of any other Securities or portion thereof.

All notices of redemption shall state:

- (1) the Redemption Date,
- (2) the Redemption Price and the amount of accrued interest to the Redemption Date payable as provided in Section 11.06, if any,
- (3) if less than all the Outstanding Securities of any series are to be redeemed, the identification (and, in the case of partial redemption, the principal amounts) of the particular Securities to be redeemed,
- (4) in case any Security is to be redeemed in part only, the notice which relates to such Security shall state that on and after the Redemption Date, upon surrender of such Security, the Holder will receive, without charge, a new Security or Securities of authorized denominations for the principal amount thereof remaining unredeemed,

- (5) that on the Redemption Date, the Redemption Price and accrued interest (if any) to the Redemption Date payable as provided in Section 11.06 will become due and payable upon each such Security, or the portion thereof, to be redeemed and, if applicable, that interest thereon will cease to accrue on and after said date,
- (6) the Place or Places of Payment where such Securities are to be surrendered for payment of the Redemption Price and accrued interest (if any),
- (7) that the redemption is for a sinking fund, if such is the case, and
- (8) if applicable, any condition to such redemption.

Notice of redemption of Securities to be redeemed at the election of the Company shall be given by the Company or, at the Company's request, by the Trustees in the name and at the expense of the Company.

SECTION 11.05 Deposit of Redemption Price.

Prior to any Redemption Date, the Company shall deposit with a Trustee or with a Paying Agent (or, if the Company is acting as its own Paying Agent, segregate and hold in trust as provided in Section 10.03) an amount of money in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) sufficient to pay the Redemption Price of, and accrued interest (if any) on, all the Securities which are to be redeemed on that date.

SECTION 11.06 Securities Payable on Redemption Date.

Notice of redemption having been given as aforesaid, the Securities so to be redeemed shall, on the Redemption Date, become due and payable at the Redemption Price therein specified in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) (together with accrued interest (if any) to the Redemption Date), and from and after such date (unless the Company shall default in the payment of the Redemption Price and accrued interest (if any)) such Securities shall, if the same were interest-bearing, cease to bear interest. Upon surrender of any such Security for redemption in accordance with said notice, such Security shall be paid by the Company at the Redemption Price, together with accrued interest (if any), to the Redemption Date; *provided, however*, that installments of interest on Securities whose Stated Maturity is on or prior to the Redemption Date shall be payable to the Holders of such Securities, or one or more Predecessor Securities, registered as such at the close of business on the relevant record dates according to their terms and the provisions of Section 3.07.

If any Security called for redemption shall not be so paid upon surrender thereof for redemption, the principal and premium (if any) shall, until paid, bear interest from the Redemption Date at the rate of interest or Yield to Maturity (in the case of Original Issue Discount Securities) set forth in such Security.

SECTION 11.07**Securities Redeemed in Part.**

Any Security which is to be redeemed only in part (pursuant to the provisions of this Article Eleven or of Article Twelve) shall be surrendered at a Place of Payment therefor (with, if the Company or the Trustees so requires, due endorsement by, or a written instrument of transfer in form satisfactory to the Company and the Trustees duly executed by, the Holder thereof or such Holder's attorney duly authorized in writing), and the Company shall execute, and the applicable Trustee shall authenticate and deliver to the Holder of such Security without service charge, a new Security or Securities of the same series, of any authorized denomination as requested by such Holder, in aggregate principal amount equal to and in exchange for the unredeemed portion of the principal of the Security so surrendered.

**ARTICLE TWELVE
SINKING FUNDS****SECTION 12.01****Applicability of Article.**

Retirements of Securities of any series pursuant to any sinking fund shall be made in accordance with the terms of such Securities and (except as otherwise specified as contemplated by Section 3.01 for Securities of any series) in accordance with this Article Twelve.

The minimum amount of any sinking fund payment provided for by the terms of Securities of any series is herein referred to as a "**mandatory sinking fund payment**," and any payment in excess of such minimum amount provided for by the terms of Securities of any series is herein referred to as an "**optional sinking fund payment**". If provided for by the terms of Securities of any series, the cash amount of any mandatory sinking fund payment may be subject to reduction as provided in Section 12.02. Each sinking fund payment shall be applied to the redemption of Securities of any series as provided for by the terms of Securities of such series.

SECTION 12.02**Satisfaction of Sinking Fund Payments with Securities.**

Subject to Section 12.03, in lieu of making all or any part of any mandatory sinking fund payment with respect to any Securities of a series in cash, the Company may at its option (1) deliver to the Trustees Outstanding Securities of a such series (other than any previously called for redemption) theretofore purchased or otherwise acquired by the Company, and/or (2) receive credit for the principal amount of Securities of such series which have been previously delivered to the Trustees by the Company or redeemed either at the election of the Company pursuant to the terms of such Securities or through the application of permitted optional sinking fund payments pursuant to the terms of such Securities, in each case in satisfaction of all or any part of any mandatory sinking fund payment with respect to the Securities of the same series required to be made pursuant to the terms of such Securities as provided for by the terms of such series; *provided, however*, that such Securities have not been previously so credited. Such Securities shall be received and credited for such purpose by the Trustees at the Redemption Price specified in such Securities for redemption through operation of the sinking fund and the amount of such mandatory sinking fund payment shall be reduced accordingly.

SECTION 12.03**Redemption of Securities for Sinking Fund.**

Not less than 60 days prior to each sinking fund payment date for any series of Securities, the Company will deliver to the Trustees an Officer's Certificate specifying the amount of the next ensuing sinking fund payment for that series pursuant to the terms of that series, the portion thereof, if any, which is to be satisfied by payment of cash in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) and the portion thereof, if any, which is to be satisfied by delivering or crediting Securities of that series pursuant to Section 12.02 (which Securities will, if not previously delivered, accompany such certificate) and whether the Company intends to exercise its right to make a permitted optional sinking fund payment with respect to such series.

Such certificate shall be irrevocable and upon its delivery the Company shall be obligated to make the cash payment or payments therein referred to, if any, on or before the next succeeding sinking fund payment date. In the case of the failure of the Company to deliver such certificate, the sinking fund payment due on the next succeeding sinking fund payment date for that series shall be paid entirely in cash and shall be sufficient to redeem the principal amount of such Securities subject to a mandatory sinking fund payment without the option to deliver or credit Securities as provided in Section 12.02 and without the right to make any optional sinking fund payment, if any, with respect to such series.

Not more than 60 days before each such sinking fund payment date the Trustees shall select the Securities to be redeemed upon such sinking fund payment date in the manner specified in Section 11.03 and cause notice of the redemption thereof to be given in the name of and at the expense of the Company in the manner provided in Section 11.04. Such notice having been duly given, the redemption of such Securities shall be made upon the terms and in the manner stated in Sections 11.06 and 11.07.

Prior to any sinking fund payment date, the Company shall pay to the Trustees or a Paying Agent (or, if the Company is acting as its own Paying Agent, segregate and hold in trust as provided in Section 10.03) in cash a sum equal to any interest that will accrue to the date fixed for redemption of Securities or portions thereof to be redeemed on such sinking fund payment date pursuant to this 12.03 Section.

Notwithstanding the foregoing, with respect to a sinking fund for any series of Securities, if at any time the amount of cash to be paid into such sinking fund on the next succeeding sinking fund payment date, together with any unused balance of any preceding sinking fund payment or payments for such series, does not exceed in the aggregate \$100,000, the Trustees, unless requested by the Company, shall not give the next succeeding notice of the redemption of Securities of such series through the operation of the sinking fund. Any such unused balance of moneys deposited in such sinking fund shall be added to the sinking fund payment for such series to be made in cash on the next succeeding sinking fund payment date or, at the request of the Company, shall be applied at any time or from time to time to the purchase of Securities of such series, by public or private purchase, in the open market or otherwise, at a purchase price for such Securities (excluding accrued interest and brokerage commissions, for which the Trustees or any Paying Agent will be reimbursed by the Company) not in excess of the principal amount thereof.

ARTICLE THIRTEEN

REPAYMENT AT OPTION OF HOLDERS

SECTION 13.01 Applicability of Article.

Repayment of Securities of any series before their Stated Maturity at the option of Holders thereof shall be made in accordance with the terms of such Securities and (except as otherwise specified as contemplated by Section 3.01 for Securities of any series) in accordance with this Article Thirteen.

SECTION 13.02 Repayment of Securities.

Securities of any series subject to repayment in whole or in part at the option of the Holders thereof will, unless otherwise provided in the terms of such Securities, be repaid at a price equal to the principal amount thereof, together with interest (if any) thereon accrued to the Repayment Date specified in or pursuant to the terms of such Securities. The Company covenants that, with respect to such Securities, on or before the Repayment Date it will deposit with a Trustee or with a Paying Agent (or, if the Company is acting as its own Paying Agent, segregate and hold in trust as provided in Section 10.03) an amount of money in the Currency in which the Securities of such series are payable (except as otherwise specified pursuant to Section 3.01 for the Securities of such series and except, if applicable, as provided in Sections 3.12(b), 3.12(d) and 3.12(e)) sufficient to pay the principal (or, if so provided by the terms of the Securities of any series, a percentage of the principal) of and (except if the Repayment Date shall be an Interest Payment Date) accrued interest (if any) on, all the Securities or portions thereof, as the case may be, to be repaid on such date.

SECTION 13.03**Exercise of Option.**

Securities of any series subject to repayment at the option of the Holders thereof will contain an "Option to Elect Repayment" form on the reverse of such Securities. To be repaid at the option of the Holder, any Security so providing for such repayment, with the "Option to Elect Repayment" form on the reverse of such Security duly completed by the Holder (or by the Holder's attorney duly authorized in writing), must be received by the Company at the Place of Payment therefor specified in the terms of such Security (or at such other place or places which the Company shall from time to time notify the Holders of such Securities) not earlier than 45 days nor later than 30 days prior to the Repayment Date. If less than the entire principal amount of such Security is to be repaid in accordance with the terms of such Security, the principal amount of such Security to be repaid, in increments of the minimum denomination for Securities of such series, and the denomination or denominations of the Security or Securities to be issued to the Holder for the portion of the principal amount of such Security surrendered that is not to be repaid, must be specified. The principal amount of any Security providing for repayment at the option of the Holder thereof may not be repaid in part if, following such repayment, the unpaid principal amount of such Security would be less than the minimum authorized denomination of Securities of the series of which such Security to be repaid is a part. Except as otherwise may be provided by the terms of any Security providing for repayment at the option of the Holder thereof, exercise of the repayment option by the Holder shall be irrevocable unless waived by the Company.

SECTION 13.04**When Securities Presented for Repayment Become Due and Payable.**

If Securities of any series providing for repayment at the option of the Holders thereof shall have been surrendered as provided in this Article Thirteen and as provided by or pursuant to the terms of such Securities, such Securities or the portions thereof, as the case may be, to be repaid shall become due and payable and shall be paid by the Company on the Repayment Date therein specified, and on and after such Repayment Date (unless the Company shall default in the payment of such Securities on such Repayment Date) such Securities shall, if the same were interest-bearing, cease to bear interest. Upon surrender of any such Security for repayment in accordance with such provisions, the principal amount of such Security so to be repaid shall be paid by the Company, together with accrued interest (if any) to the Repayment Date; *provided, however*, that, in the case of Securities, installments of interest (if any) whose Stated Maturity is on or prior to the Repayment Date shall be payable to the Holders of such Securities, or one or more Predecessor Securities, registered as such at the close of business on the relevant Record Dates according to their terms and the provisions of Section 3.07.

If any Security surrendered for repayment shall not be so repaid upon surrender thereof for repayment, the principal amount and premium (if any) shall, until paid, bear interest from the Repayment Date at the rate of interest or Yield to Maturity (in the case of Original Issue Discount Securities) set forth in such Security.

SECTION 13.05**Securities Repaid in Part.**

Upon surrender of any Security which is to be repaid in part only, the Company shall execute and the applicable Trustee shall authenticate and deliver to the Holder of such Security, without service charge and at the expense of the Company, a new Security or Securities of the same series, of any authorized denomination specified by the Holder, in an aggregate principal amount equal to and in exchange for the portion of the principal of such Security so surrendered which is not to be repaid.

**ARTICLE FOURTEEN
DEFEASANCE AND COVENANT DEFEASANCE**

SECTION 14.01**Company's Option to Effect Defeasance or Covenant Defeasance.**

Except as otherwise specified as contemplated by Section 3.01 for Securities of any series, the provisions of this Article Fourteen shall apply to each series of Securities, and the Company may, at its option, effect defeasance of the Securities of or within a series under Section 14.02, or covenant defeasance of or within a series under Section 14.03 in accordance with the terms of such Securities and in accordance with this Article Fourteen.

SECTION 14.02**Defeasance and Discharge.**

Upon the Company's exercise of the above option applicable to this Section 14.02 with respect to any Securities of or within a series, the Company shall be deemed to have been discharged from its obligations with respect to such Securities on the date the conditions set forth in Section 14.04 are satisfied (hereinafter, "**defeasance**"). For this purpose, such defeasance means that the Company shall be deemed to have paid and discharged the entire indebtedness represented by such Securities, which shall thereafter be deemed to be "Outstanding" only for the purposes of Section 14.05 and the other Sections of this Indenture referred to in (A) and (B) below, and to have satisfied all of its other obligations under such Securities and this Indenture insofar as such Securities are concerned (and the Trustees, at the expense of the Company, shall execute proper instruments acknowledging the same), except for the following which shall survive until otherwise terminated or discharged hereunder: (A) the rights of Holders of such Securities to receive, solely from the trust fund described in Section 14.04 and as more fully set forth in such Section, payments in respect of the principal of, premium (if any) and interest (if any) on such Securities when such payments are due, (B) the Company's obligations with respect to such Securities under Sections 3.05, 3.06, 10.02 and 10.03, (C) the rights, powers, trusts, duties and immunities of the Trustees hereunder and (D) this Article Fourteen. Subject to compliance with this Article Fourteen, the Company may exercise its option under this Section 14.02 notwithstanding the prior exercise of its option under Section 14.03 with respect to such Securities.

SECTION 14.03**Covenant Defeasance.**

Upon the Company's exercise of the above option applicable to this Section 14.03 with respect to any Securities of or within a series, the Company shall be released from, if specified pursuant to Section 3.01, its obligations under any covenant, with respect to such Securities on and after the date the conditions set forth in Section 14.04 are satisfied (hereinafter, "**covenant defeasance**"), and such Securities shall thereafter be deemed not to be "Outstanding" for the purposes of any direction, waiver, consent or declaration or Act of Holders (and the consequences of any thereof) in connection with such covenants, but shall continue to be deemed "Outstanding" for all other purposes hereunder. For this purpose, such covenant defeasance means that, with respect to such Securities, the Company may omit to comply with and shall have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of reference in any such covenant to any other provision herein or in any other document and such omission to comply shall not constitute a Default or an Event of Default under clauses (4) or (7) of Section 5.01 or otherwise but, except as specified above, the remainder of this Indenture and such Securities shall be unaffected thereby.

The following shall be the conditions to application of either Section 14.02 or Section 14.03 to any Securities of or within a series:

- (1) The Company shall irrevocably have deposited or caused to be deposited with either Trustee (or another trustee satisfying the requirements of Section 6.08 who shall agree to comply with the provisions of this Article Fourteen applicable to it) as trust funds in trust for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to, the benefit of the Holders of such Securities, (A) an amount (in such Currency in which such Securities are then specified as payable at Stated Maturity), or (B) Government Obligations applicable to such Securities (determined on the basis of the Currency in which such Securities are then specified as payable at Stated Maturity) which through the scheduled payment of principal and interest in respect thereof in accordance with their terms will provide, not later than one day before the due date of any payment of principal of and premium (if any) and interest (if any) under such Securities, money in an amount, or (C) a combination thereof, sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustees, to pay and discharge, and which shall be applied by the Trustees (or another trustee satisfying the requirements of Section 6.08 who shall agree to comply with the provisions of this Article Fourteen) to pay and discharge, (i) the principal of, premium (if any) and interest (if any) on such Securities on the Stated Maturity (or Redemption Date, if applicable) of such principal of, premium (if any) or installment of interest (if any), (ii) any mandatory sinking fund payments or analogous payments applicable to such Securities on the day on which such payments are due and payable in accordance with the terms of this Indenture and of such Securities, and (iii) all amounts due the Trustees under Section 6.07; *provided* that the Trustees shall have been irrevocably instructed to apply such money or the proceeds of such Government Obligations to said payments with respect to such Securities. Before such a deposit, the Company may give to the Trustees, in accordance with Section 11.02, a notice of its election to redeem all or any portion of such Securities at a future date in accordance with the terms of such Securities and Article Eleven hereof, which notice shall be irrevocable. Such irrevocable redemption notice, if given, shall be given effect in applying the foregoing.
- (2) No Default or Event of Default with respect to such Securities shall have occurred and be continuing on the date of such deposit or, insofar as clauses (5) and (6) of Section 5.01 are concerned, at any time during the period ending on the 91st day after the date of such deposit (it being understood that this condition shall not be deemed satisfied until the expiration of such period).
- (3) Such defeasance or covenant defeasance shall not result in a breach or violation of, or constitute a Default or an Event of Default under, this Indenture or any default under any material agreement or instrument to which the Company is a party or by which it is bound.

- (4) In the case of an election under Section 14.02, the Company shall have delivered to the Trustees an Opinion of Counsel in the United States stating that (x) the Company has received from, or there has been published by, the Internal Revenue Service a ruling, or (y) since the date of execution of this Indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the Holders of such Securities will not recognize income, gain or loss for United States federal income tax purposes as a result of such defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred.
- (5) In the case of an election under Section 14.03, the Company shall have delivered to the Trustees an Opinion of Counsel in the United States to the effect that the Holders of such Securities will not recognize income, gain or loss for United States federal income tax purposes as a result of such covenant defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred.
- (6) The Company shall have delivered to the Trustees an Opinion of Counsel in Canada or a ruling from the Canada Revenue Agency to the effect that the Holders of such Securities will not recognize income, gain or loss for Canadian federal, provincial or territorial income tax or other tax purposes as a result of such defeasance or covenant defeasance, as applicable, and will be subject to Canadian federal, provincial or territorial income tax and other tax on the same amounts, in the same manner and at the same times as would have been the case had such defeasance or covenant defeasance, as applicable, not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that Holders of such Securities include Holders who are not resident in Canada).
- (7) The Company is not an "insolvent person" within the meaning of the Bankruptcy and Insolvency Act (Canada) on the date of such deposit or at any time during the period ending on the 91st day after the date of such deposit (it being understood that this condition shall not be deemed satisfied until the expiration of such period).
- (8) Notwithstanding any other provisions of this Section 14.04, such defeasance or covenant defeasance shall be effected in compliance with any additional or substitute terms, conditions or limitations in connection therewith pursuant to Section 3.01.
- (9) The Company shall have delivered to the Trustees an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for, relating to either the defeasance under Section 14.02 or the covenant defeasance under Section 14.03 (as the case may be), have been complied with.

SECTION 14.05 Deposited Money and Government Obligations to Be Held in Trust; Other Miscellaneous Provisions.

Subject to the provisions of the last paragraph of Section 10.03, all money and Government Obligations (or other property as may be provided pursuant to Section 3.01) (including the proceeds thereof) deposited with a Trustee (or another trustee satisfying the requirements of Section 6.08 who shall agree to comply with the provisions of this Article Fourteen) pursuant to Section 14.04 in respect of such Securities shall be held in trust and applied by such Trustee, in accordance with the provisions of such Securities and this Indenture, to the payment, either directly or through any Paying Agent (including the Company acting as its own Paying Agent), to the Holders of such Securities of all sums due and to become due thereon in respect of principal, premium (if any) and interest (if any) on such Securities but such money need not be segregated from other funds except to the extent required by law.

Unless otherwise specified with respect to any Security pursuant to Section 3.01, if, after a deposit referred to in Section 14.04(1) has been made, (a) the Holder of a Security in respect of which such deposit was made is entitled to, and does, elect pursuant to Section 3.12(b) or the terms of such Security to receive payment in a Currency other than that in which the deposit pursuant to Section 14.04(1) has been made in respect of such Security, or (b) a Conversion Event occurs as contemplated in Section 3.12(d) or 3.12(e) or by the terms of any Security in respect of which the deposit pursuant to Section 14.04(1) has been made, the indebtedness represented by such Security shall be deemed to have been, and will be, fully discharged and satisfied through the payment of the principal of, premium (if any) and interest (if any) on such Security as they become due out of the proceeds yielded by converting (from time to time as specified below in the case of any such election) the amount or other property deposited in respect of such Security into the Currency in which such Security becomes payable as a result of such election or Conversion Event based on the applicable Market Exchange Rate for such Currency in effect on the third Business Day prior to each payment date, except, with respect to a Conversion Event, for such Currency in effect (as nearly as feasible) at the time of the Conversion Event.

The Company shall pay and indemnify such Trustee against any tax, fee or other charge imposed on or assessed against the Government Obligations deposited pursuant to Section 14.04 or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Holders of such Securities.

Anything in this Article Fourteen to the contrary notwithstanding, such Trustee shall deliver or pay to the Company from time to time upon Company Request any money or Government Obligations (or other property and any proceeds therefrom) held by it as provided in Section 14.04 which, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to such Trustee, are in excess of the amount thereof which would then be required to be deposited to effect an equivalent defeasance or covenant defeasance, as applicable, in accordance with this Article Fourteen.

SECTION 14.06 Reinstatement.

If a Trustee or any Paying Agent is unable to apply any money in accordance with Section 14.05 by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, then the Company's obligations under this Indenture and such Securities shall be revived and reinstated as though no deposit had occurred pursuant to Section 14.02 or 14.03, as the case may be, until such time as such Trustee or Paying Agent is permitted to apply all such money in accordance with Section 14.05; *provided, however*, that if the Company makes any payment of principal of, premium (if any) or interest (if any) on any such Security following the reinstatement of its obligations, the Company shall be subrogated to the rights of the Holders of such Securities to receive such payment from the money held by such Trustee or Paying Agent.

IN WITNESS WHEREOF, the parties hereto have caused this Indenture to be duly executed, all as of the day and year first above written.

Offset Claims											
Fee Offset Sources											

Explanation of the basis for claimed offset:

1

The Registrant previously paid US\$72,134.24 in filing fees and claimed a fee offset of US\$39,041.42 in connection with the registration of US\$726,163,677.29 of securities (converted from CAD\$1,000,000,000 at an exchange rate of US\$1.00 = CAD\$1.3771, which was the daily average exchange rate reported by the Bank of Canada on July 29, 2025) pursuant to the Registrant's Registration Statement on Form F-10 filed on July 31, 2025 (File No. 333-289139) ("the July Registration Statement"). Pre-effective Amendment No. 1 to the July Registration Statement was filed on September 17, 2025, which decreased the aggregate initial offering price from US\$726,163,677.29 to US\$577,700,751.01 (converted from CAD\$800,000,000 at an exchange rate of US\$1.00 = CAD\$1.3848, which was the daily average exchange rate reported by the Bank of Canada on September 12, 2025). Therefore, US\$22,729.68 of filing fees remains unutilized and is available for future registration fees.
